

An Evidence of the Wicked Spirit in High Place.

2018/03/15

The USA and UK establishment(Rockefeller and UK imperial the nobility hereditary) has been strongly connecting with each other entirely for conserving their highest status quo. Then their decisive,but evil task is entirely **destroying change** in ideology and politics due to their enemy by causing **fake flag wars and terrors**..Almost terrible criminal events since **the 9/11(2001)**are caused by their conspiracy.Then why such fake becomes necessary ? Why the stubborn conflict between Russia and WEST(**USA,UK**,...)has been necessary ?

This is another big news from UK. Also his devotion in universal interpretation on universe could not help, but relate with ideology as true intention of God..

Iconic Physicist Stephen Hawking Dies At 76

"We have this one life to appreciate the grand design of the universe," Hawking once remarked, "and for that, I am extremely grateful."

— By what could universe be created ? —

Not nothing never be considered beginning of this universe !.

Thereby our universe must be created from "nothing".

Then we encounter difficulty that "nothing is nothing forever".

This is exact logic low at now of our material world (the non contradiction*).

Thus we could not help; but recognize the **nothing could become not nothing !**.

This never be reasonable, but except that **nothing can allow NOTHING LAW !!**

Because, we never prove being of any law in nothing world !.

Thus, in beginning of universe, **ALMIGHTY** acted to create universe !!!.

Almighty is **anything can be !**, so there are nothing inequality !!.

Once Einstein told "God never throw dice".

*Contradiction <Logic Theorem>:

Simultaneous true realization of proposition **A=true and not A=true** enable anything **B=true** (realizable). It's almighty world !, but not phenomena in our observable material world.

PS: Also author once bought his book and read. Now author feel an obligation both people UK and Russia by their science education (Arctic climate emergency by UK, mathematics the basis, quantum physics by Russia). Thank to them, he might have exposed above truth. Now we altogether has been heading **Arctic Methane Catastrophe Extinction Risk**, as for which, people UK and Russian with all of global people must admit the being of supreme risk toward urgent global co-operation on Arctic Cooling Engineering Implementation, so we have no time to concern with any wars. Especially It is told East Siberian Arctic Shelf has become most dangerous. Note USA president Trump once having killed by politically assassination seems to have recently reincarnated to realize military peace between USA and North Korea, so he could once again realize also that between USA and Russia. All of global people must urgently construct ice wall intercepting Methane burst at there !!!.
