

**Nothing Effective Action and Implementation against rapid Climate Worsening.  
The Decisive Cause of Difficulty in Launching Global Climate Wartime Regime  
=Your Business(Life)as Usual.** 2021/10/11,12,13,14

In anywars in the past,there were no possibility of global mass extinctiion,while only climate is entirely not ,thereby Climate Wartime Regime with GHQ is inevitable !!!,

\*GHQ=General Head Quater managing and watching global climate operation,

In facing climate actual policy,you would be hesitate,because it is too big to solve. However,for example,100%? renewable energy home life is realizabile by solar & wind power .Your government now will not tell truth and not save you in climate(covid) hell,thereby,it is all of You united with a Truth who order government to act<Actual Democracy aiming All People Surviving>.

**Once people recognized supreme cisis,they would do their best. Bet it !!!**

① Basic Income save all people life in necessary drastic business & industry change.

② 100%?Renewable Energy in home,office,not production fuculty.

③ 80% Renewable Energy in Industy <endeavoring in running after starting>

④ Global Operation on Arctic Methane Risk and 80% Renewable Energy<②③>

100% Renewable Energy is highly sufficient in technology & resource(wind&solar).

Big consumer iron&chemistry,etc shall be considered in running.This is war,so we should endure poverty life for the time being.In orde to intercept inflation due to deficits in some material ,wartime rationing may be inevitable to secure high priority needs.

**[ 1 ] : Climate Operation the Introduction and Conclusion.**

2020 must have accomplished launching Global Climate Wartime Regime,but Covid Outbreak had broken the climate emergency operation<by not accident,but evil plot>.

For all,Covid now is unprecedentedly imminent threat and suffer which must be urgently terminated by All People Testing to judge who continue business and who go hospital. Note massive vaccinated has risk of ADE(immunodeficiency),unless testing and treatment.

While we think climate less imminent threat and suffer than Covid, but,Climate Virus is Supremely Largest Mankind Extinction Event which must urgently be attacked to intercept, Because climate virus is so rapid and strong to cause irreversible damage now heading to extinction,unless globally rapid and largest treatment by All People Co-operation.

Conclusion telling,there could not be climate salvation,unless globally exposing deadly climate emergency fact toward all people in<Business(Life) as Usual=the Climate Virus>. by someone the strong authority on Climate Science.

## Conclusion:

Already the Climate Conclusion([ 2 ]A,B)had been completed,so now is time to design and implement **Climate Engeneering of Business as not Usual**<=**Climate Wartime Regeime**>. Then the establishment will not change,because both Covid & Climate are secret operation EndGame aiming ultra elite only surviving strategy by exterminating global mass population. At this time,elites are weak and unreliable enough being worry own status decline.

Thereby it is **All of Us-Ownself** who now have confirmed climate worsening and so at first must change by **Own Responsibility**.Especially note climate virus is nothing,but your Business(Life)as Usual itself which has been massively proliferating climate virus(=CO2). As having known the deadly fact,by anymore,it could not be allowed to do nothing in the same way by everyone doing nothing in the same way. Thus,this can not become nothing,but Global Revolution by Global Unite with a Truth.

That is ,Do or Die !!.

"I have to change not to change to live" <Luchino-Visconti movie-The Leopard>.

[ 2 ] : **GLOBAL OPERATION with GHQ**<General Head Quater>.

**(A):Emergent Arctic Cooling Engineering to STOP Methane Catastrophe.**

Arctic ocean sea floor warming would cause massive methane eruption toward rapid warming and following global methane fire storm causing fireball earth hell.

***Just do NOT tell them the monster exists:The Arctic Methane Monster***

<http://arctic-news.blogspot.jp/2013/10/just-do-not-tell-them-the-monster-exists.html>

<http://arctic-news.blogspot.com/p/how-to-cool-arctic.html>

<http://www.777true.net/Blocking-Nares-Strait-Gate-to-Intercept-Methane-Catastrophe.pdf>

**(B):Time for Plan B:Cutting Carbon Emissions 80 Percent by 2020** ,Lester.R.Brown

<http://www.earth-policy.org/datacenter/pdf/80by2020notes.pdf>

The accelerating, worsening climate disruption and climate emergency means that we must now aim to **cut carbon emissions** (carbon dioxide, CO2, and methane, CH4) **80% by 2020**.

***2 Degrees of Warming a Recipe for Disaster, NASA Scientist Says***

<https://www.livescience.com/17340-agu-climate-sensitivity-nasa-hansen.html>

<http://www.777true.net/100pct-Renewable-Energy-is-Possible.pdf>

<http://www.777true.net/Rapid-CO2-Absorption-with-Mineralisation-of-CO2-by-OLIVINE.pdf>

**(C):Design and Implementation on Business(Life)as not Usual.**

\*Note it is not that author himself do not know this important details well.

Basic Income needs big tax is illwill lie,but can **save all peoples life in any regime change**.

<http://www.777true.net/All-People-Testing-&-Basic-Income-Are-Decisive-to-Tackle-against-Corona.pdf>

<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

\*This work was done by strong necessity,however the results are insufficient.

<http://www.777true.net/Rapid-Launching-Climate-Engineering-could-Save-the-World.pdf>

Planning Wartime ECONOMICS with GHQ. Employment and Assuring People's Life in the Wartime Regime. Under GHQ ruling, people must be **soldiers** or **post gun wartime co-workers**. This is big calculation of **Planned Wartime ECONOMICS**. Rearrangement on Industry Configuration with Employment plan is kernel in order to enable operation{**A,B**}.

(1)**The Decisive Cause of Difficulty in Launching Global Climate Wartime Regime =Your Business(Life)as Usual.**

→**Business(Life)as not Usual=Global Climate Wartime Regime.**

<http://www.777true.net/Rapid-Launching-Climate-Engineering-could-Save-the-World.pdf>

In anywars in the past,there were no possibility of **global mass extinctiion**,while only climate is entirely **not**,thereby **Climate Wartime Regime with GHQ** is inevitable !!!,

\*GHQ=General Head Quater managing and watching global operation,

(2)**Stop Arctic Bomb and Save Foods and Energy at First !!!!**

Start Nation Supplying on **necessary service system and weapons for Renewable Energy Change** due to **OVERWHELMING DEMAND of PEOPLE !**.Thus **decisive market demand**=strong job is created to assure income,while ancient regime goods is to decline.

**Important Caution on No more Debate,but Action First !!!**

Note in any wars in the past,wartime regime was not debated,but implementation was first.

That is,at first, start running,and 2<sup>nd</sup> think in running !!!.For example,(A)(B) are **urgent international operations**,while (C)is domestic by each nations endeavoring

**(B)**In order to rapidly accomplish 80% renewable energy change,production of solar and wind turbine etc become **Weapon Makers** for rapid implementation.Start design and constructing on cloud making machine for **rapid climate stabilizing not to be too late.**

**(B)**Start design and constructing on global forestization and marine algae cultivation,etc

**(A)**Start design and constructing on cloud making machine

**(A)**Start design and constructing on Nares Strait Gate

**(C)**Start supplying on **necessary service system and weapons for renewable energy change** due to overwhelming demand of the people,

\*self-sufficient foods supply regime constructing by large national investment on money and manpower.This cost would be compensated by inevitable future foods crisis.Now **global monetary resource** may be rich enough to rise only **stock market price**,while actual economy decline due to Covid and etc.It is a decadent monetary to turn rich(nations exploiting) and poor(nations exploited) gap compesation in altogether surviving strategy .

(3)**GLOBAL OPERATION with GHQ.**

UN=IPCC was once general head quater on climate policy,however their results had caused todays terrible worsening,the elites did not work for All the Nation People.

How to unite all the nation people demand to accomplish desireable GHQ ??.

In order to get the actual victory,good ability GHQ is inevitable.

**APPENDIX\_1:How to rapidly(but temporally)Pull Down Global Temperature.**

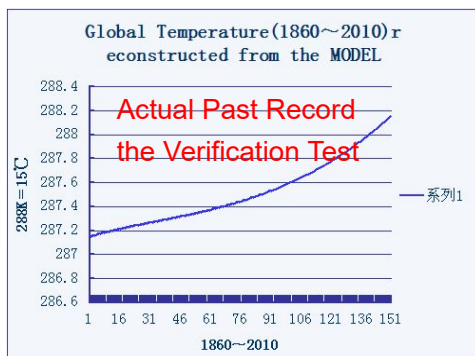

It is fatal ill fever caused by verified virus CO2,then also urgent cooling down drug=Cloud Making Machine would be indispensable to stabilize climate without expensive disasters.

*Contributed to the intergovernmental panel on climate change Mr. Manabe and others won the Nobel Prize in Physics*

<https://news.yahoo.co.jp/articles/bc2aae422088aaa48a2deee7aa18b7a03b065d69>

*Calculation of 25 years to stop the temperature rise by 80% reduction and 40 years to return to the past normal value <0-dimensional model>*

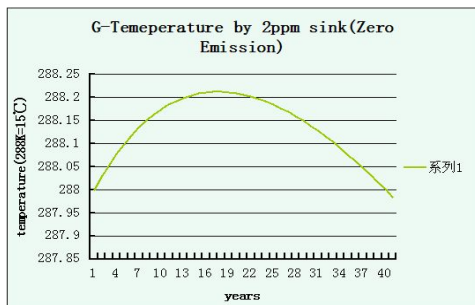

<http://www.777true.net/Accounting-principle-verify-reconstruction-the-Past-Climite-Records.pdf>

On the large fluctuations of climate variables such as temperature, it is normal distribution (central limit theorem in semi-random fluid dynamics field)with solar cycle fluctuations.

[http://www.777true.net/Global-Surface-Temperature\\_GST\\_Fluctuation-Analysis.pdf](http://www.777true.net/Global-Surface-Temperature_GST_Fluctuation-Analysis.pdf)

<http://www.777true.net/Uncertainty-Causes-in-Climite-Dynamics.pdf>

CO2 absorption capability{ocean and large forest}is data at that time of 2015, This might become optimistic calculation due to the data now having gotten worse. Therefore, **forced ocean cooling** by geo-engineering would be inevitable.

Invest immediate experiment in **Cloud Brightening(Making)Machines!** ! ! ! ! !

Above all,this machine's success could overcome the desperate of *it is too late !*

**Actual example: volcano explosion with more clouds and less sunshine**

<https://earthobservatory.nasa.gov/images/1510/global-effects-of-mount-pinatubo>

*Pinatubo injected about 15 million tons of sulfur dioxide into the stratosphere,*

*Consequently, over the next 15 months, scientists measured a drop in the average global temperature of about 1 degree F (0.6 degrees C).*

## **APPENDIX\_2:Sea-Going Cloud Making Machine<ocean cooling>.**

***How artificially brightened clouds could stop climate change<<important!>>***

<https://www.bbc.com/future/article/20190220-how-artificially-brightened-clouds-could-stop-climate-change>

***Prof Stephen Salter (UK)calculates that a fleet of 300 of his autonomous ships could reduce global temperatures by 1.5C.***

***Climate 'tech fixes' urged for Arctic methane 17 March 2012***

<http://arctic-news.blogspot.com/p/how-to-cool-arctic.html>

*Depending on the size and location, Prof Salter said that in the order of 100 towers would be needed to counteract Arctic warming.*

***Sea-going hardware for the cloud albedo method of reversing global warming***

<https://royalsocietypublishing.org/doi/full/10.1098/rsta.2008.0136#sec-7>

<https://www.youtube.com/watch?v=EC22nUwDTQw>

## **APPENDIX\_3:Intensive Design on Long Years Climate Wartime Regime**

As is seen in **APPENDIX\_1**,the victory operation takes **almost decades years long**.

Thereby,Climate Wartime Regime is inevitable to accomplish stability general .This details is essential,but deleted at now.....By anyhow,start running,and then think in running.

.....

## **APPENDIX\_4:People Must Do Unite to simply Call for Nation Support on**

**①Minimum Life Assurance by Basic Income System**

**Energy Business** with related goods is to change drastically,some grows,while some must decline.If you are against,all of massive others would be fired.

**②Renewable Energy Instrument Support as Climate Weapons.**

Essentially this is paradoxically optimistic task due to the technology and resource

***100pct Renewable Energy is Possible***

<http://www.777true.net/100pct-Renewable-Energy-is-Possible.pdf>

The **technology on Wind Turbine** and **Solar Generator** could be told sufficiently established.

<Marine wave power,Geothermal,.....author don't know well>

Now R&D on the technology still has been accelerated due to the large demands.

Coarsely to tell,globally,the **resource** for Renewable Energy is highly sufficient,however it depend on regional condition,so **the mutual support** between who have and who not have is necessary.

Global Final Energy Consumption 2014			
	Possible Total Resource	At now	citation
Global Final Energy Consumption 2014	12.5TW.y	12.5TW.y	wikipedia
Wind Power	56~148TW	0.43TW	<a href="https://iopscience.iop.org/article/10.1088/1748-9326/8/1/015021/pdf">https://iopscience.iop.org/article/10.1088/1748-9326/8/1/015021/pdf</a>
Solar	23000TW	0.16TW	<a href="https://waitbutwhy.com/2015/06/the-deal-with-solar.html">https://waitbutwhy.com/2015/06/the-deal-with-solar.html</a>
Marine Power	5.4~24GW		wikipedia
Hydropower	2TW	1.1TW	<a href="https://www.worldenergy.org/data/re">https://www.worldenergy.org/data/re</a>

(1) **in Home(officem...etc,but not Industry).**

For example, **solar(water)heater** is incomplete(cloudy day),but substantially reduce virus CO2 drastically in home,office, factory,etc) .**solar generator** is almost the same.

**Wind Turbine is the best cost performance at now**,however depend on region of the resource (perpetual strong wind=best(=**good business by good supplier**)~on seaside lines,high lands).This should not be task of individual,but public local region(village,town) task. Because large scale is superior in **cost performance**.But it is not that small is not good.

(2) **Author case on cheap Heat Pipe(1366W/m<sup>2</sup>x1.2m<sup>2</sup>~1000W?) & Solar Panel(300W).**

Shinyday working time does' nt need Electric Power buying,but **ice box,washer,sweeper** <poor converter for large initial current of motor>.Following are coarse evaluation.

(a) **Solar Panel(max power=300W)**

PC,&..Lightning=60W→cloudy(0.5) and shiny(0.5) daytime(9AM~4PM=7hours)get about **0.5x7hx(100W surplus)**,which should pay for **battery** charging or H2gas generation.

\*Ordinal cheap battery easily become deterioration,H2 needs rather expensive cost.

(b) **Heat Pipe(1366W/m<sup>2</sup>x1.2m<sup>2</sup>~1000W?)..**

[https://jp-ecol.com/wp-content/uploads/2016/04/manual\\_snh\\_10f.pdf](https://jp-ecol.com/wp-content/uploads/2016/04/manual_snh_10f.pdf)

Alone life author need only **cassette propan gas bombe** about (250g)x10/month.Weak point is **cloudy days**,however **heat pipe absorbs air and environmental radiation heat** causing higher efficiency. Thereby,heated water is not so cold in severe winter.→reducing gas consuming.In shiny summer,heated water does not need boiling by gas.

\*propan gas weight=1.992kg/m<sup>3</sup>,**Average consuming/month**=1.992kg/m<sup>3</sup>x43m<sup>3</sup>/4=21.4kg/p

\*\*Propan gas reducing rate=250gx10/21.4kg=**12%**.

\*\*This is the **cheapest model**<Ordinal model is twice time capacity>.In cold winter,author now take less wamer shower for cold resistance training.However good lucky shiny day in coldest season,hot bath is available,

\*\*\***gabbage branch burning** to get heat for cocker & water boiling.This is CO2 recycling.

(c) **A CONCLUSION derived by (2) :**

If author has sufficient money, he could by anyhow, realize 100%? renewable energy home life without inconvenience. gas is exchanged by electric heater powered by good performance battery. Note it's not convenient, but cheap direct solar heating on cooker is available.

Search web by "solar cooker, picture", or "solar hot box, picture".

This has been actually realized in some shiny regions in the world. Thereby, middle class of stand alone home get rapidly 100% renewable energy home life by an investment. Then note solar water heater has essential role !!! Gasoline car is not recommended in private use, but public emergency use for the time being. Then short distance going by electric motor bicycle is cheap and easy, because solar can charge it. Long should be public traffic, if this strategy become national policy, a big progress would be accomplished at once.

\*Apartment home become disadvantage, if they have no sufficient large roof & garden etc. Then they should virtually and equivalently connect with region of rich wind (solar) power resource by national support in order to conserve equality in getting renewable energy chance. That is, investment on business selling power of a region to electric power company (EPC). By anyhow, in order to accomplish equality in getting renewable energy chance, it would need whole viewing to calculate. → climate wartime economists

(2) **Transportation.**

The detail study needs experts who cooperate climate wartime regime economics.

Coarsely to tell, **Rail Way** (street cars) is the best passenger & cargo capacity and energy efficiency with remarkable low energy. Truck and bus engine should change to **H2 gas one**.

Construction Machines engine should change to **electricity** or **H2 gas**. Gasoline car decline is inevitable.

(3) **INDUSTRY:**

The detail study needs experts who cooperate climate wartime regime economics.

Foods (agri-business), Construction general, Machines (car, electric tools, etc general)

**Material** (iron, chemistry), **ENERGY** = oil & gas - electric power (coal, nuclear, hydro & renewable), **ENERGY** is our fundamental operation target = **(B)**.

The most troublesome is biggest energy consumer of **Material**.

<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

For the time being of developing new energy, reducing production may be inevitable due to rapid 80% renewable change strategy the decisive aim. Some material deficit would cause **inflation**, so **wartime rationing** is inevitable to secure high priority needs,

Note by anyhow, for an example, wind turbine resource itself is highly sufficient, so we could get any amount of energy in the principle viewing.

\*reducing car production causes material surplus, which should be given to wind turbine one.

#### (4)Hydrogen Generation by Electric Power<by Solar and Wind>

Electricity is easy high efficiency energy,while **the STORAGE** is still expensive at now.

At now,there is no hope, but only **H2 conversion method**.

#### “Hydrogen Generation”

**Hydrogen / Fuel Cell Strategy Roadmap-Industry-Academia-Government Action Plan for Realizing a Hydrogen Society- (Overall)**

<http://hysut.or.jp/outreach/FC195.pdf>

#### H2 making cost at now → 2030

(1770\$/kW → 442\$/ kW) \*1kW electric power may be minmum consuming in home.

The device investment on H2 generation at now is expensive for not rich private people.

However corporate or collective people by a local region(public)may be possible.

Once it has become **national strategy**,the mass production would reduce the cost drastically.

#### **The Decesive Necessity of Starting the Implementation by at Once and Altogether.**

Because at now,H2 cost is higher than oil,so **business(life)competetion** become unfair between H2 users and oil users,so in the trangient period,it must be compensated by **taxing oil** to secure the equity principle in renewable energy .

#### (5)Hydrogen Energy Storage and Electric Mortor<the kernel of Renewable Energy>.

#### “The Whole View”.

\*The left(input)and right(output)small box indicate conversion function.Note tank storage needs cost of **the device**,while liquid storage need cost of **organic hydryde function**.

Now author don't know well which is better,H2 burning engine or electric mortor powered by fuel cell(H2).Note now strong engine is fossil fuel,however electric motor is comparable.

**Electric Motor the Supreme Efficiency** can output almost the same power of oil engine.

(a)**World's Largest Electric Locomotive**,

<http://j.people.com.cn/n3/2020/0730/c95952-9716548.html>

*The output of the electric locomotive is 28,800 kW, the traction force is 2,280 kN, and the world record of railway transportation equipment.*

(b)**The world's best (ship)engine has a maximum output of 80,905kW,**

<https://www.zmescience.com/science/biggest-most-powerful-engine-world/>

(c)Storage H2→Electric Power Conversion.

New **H2 fuel cell catalyst** employing no high cost Platinum,but cheap Carbon.

<https://tech.nikkeibp.co.jp/dm/atcl/mag/15/320913/092200026/?ST=health>

<http://www.ballard.com/>

(d) Easy Potable Liquid Storage same as gasoline < Cheap CATALYZER is decisive >..

MCH(Organic Hydride) makes H<sub>2</sub> gas **easy portable gasoline** < liquid storage >

<http://hrein.jp/english>

<https://www.chiyodacorp.com/jp/service/spera-hydrogen/innovations/>

**Big high pressure tank** for **H<sub>2</sub> storage** is a weakpoint in H<sub>2</sub> energy. **Liquid Storage** at now needs high cost Platinum, which should be turned to something cheap organic catalyzer.

\*Bio-catalyzer **enzyme** enable all kinds(?) of chemical synthesis and decomposition in constant body temperature and pressure. This is decisive emergent task.

(e) Big Ship (199.9m x 35.6m) by Hydrogen Energy.

<https://www.nyk.com/csr/pdf/SES2050.pdf>

(f) Big Truck by Hydrogen Energy.

<https://www.businessinsider.jp/post-33041>

(g) 24 hours Heat Pipe Water Heater < strong CO<sub>2</sub> reduction in home >.

<https://www.aspectsolarproducts.com/solar-products/heat-pipe-collector-solar-water-heater.html>

(h) Hydrogen Cooker

<https://pureenergycentre.com/hydrogen-cooker/>

(i) Surprising!! heat generation by H nuclear fusion become commercial base before long.

*Boiler by "hydrogen nuclear fusion heat" is put into practical use, heat is taken out with metal laminated chip*

<https://project.nikkeibp.co.jp/ms/atcl/19/news/00001/02043/?ST=msb&P=1>

*It shows how many times the heat energy input and consumption can be obtained, which is said to exceed 12. But no dangerous radiation !!*

<http://www.777true.net/img0010-General-Analysis-on-Room-Temperature-Nuclear-Fusion.pdf>

(6) **Absorbing Air CO<sub>2</sub> Machine.**

***Olivine weathering to capture CO<sub>2</sub> and counter climate change***

<http://arctic-news.blogspot.com/2016/07/olivine-weathering-to-capture-co2-and-counter-climate-change.html>

[http://www.777true.net/Rapid-CO<sub>2</sub>-Absorption-with-Mineralisation-of-CO<sub>2</sub>-by-OLIVINE.pdf](http://www.777true.net/Rapid-CO2-Absorption-with-Mineralisation-of-CO2-by-OLIVINE.pdf)

***Beyond plants, "artificial photosynthesis", also employs solar cell technology***

[https://www.itmedia.co.jp/smartjapan/articles/1412/10/news050.html#utm\\_source=yahoo\\_v3&utm\\_medium=feed&utm\\_campaign=20210803-114&utm\\_term=biz\\_it\\_sj-bus\\_all&utm\\_content=rel1-0](https://www.itmedia.co.jp/smartjapan/articles/1412/10/news050.html#utm_source=yahoo_v3&utm_medium=feed&utm_campaign=20210803-114&utm_term=biz_it_sj-bus_all&utm_content=rel1-0)

*The achievements are almost the same as algae excellent photosynthetic ability.*

(7) **Electricity and Hydrogen Generation by Singular Concept.**

This shall be mentioned hereafter, some are authors professional task.

Certainly problem is enough, however giving up is nothing, but defeat. Do or Die at all !!!

Author believe, in facing difficulty, they will invent and improve life at soon.

Post Summary:

In the beginning of fatal virus was USA(now Nazis reincarnated ruling),who hid fatal climate decline by massive fossil fuel consuming.Since then climate counter operation has been terribly being crooked to paralyze massive people still now in oil pleasure life. [The business\(life\)as usual](#) is still now the silent,but supreme secret task to conserve. Thus people had become unconscious death prisoners of the regime not to be against. However climate worsening have become impossible to hide and deceive,so Covid explosion was broken out in 2020,which turned to people more isolated by political distance strategy.Now nations had become corrupted to destroy nations people(terror politics).Thus their aim become evident that [only ultra wealthiest elites would survive,while massive others would be exterminated by virus and climate\(Operation EndGame\)](#).

Hereupon,people must be awoken to know their deadly position and destiny,Thereby also author tried to disclose how to turn [the upside down world](#) in order to survive by altogether cooperation.This report is evidently not sufficient,but aiming to trigger you ,so you should survey and disclose better and stronger method toward making global people's unite.

We should imagine once upon a time life by rotating mind clock back by 150 years,or more before.Were they really unhappy due to deficit of today's too civilized tools ??

Which is happier life in country or big metropolis life ??
