

Global Political Matrix could predict coming future world?!

2015/4/29,5/2

This is a dynamics intending prediction on possible coming future world by an author. Also you could make another dynamics(=scenario).

Profile are possible actors with each **ideology** and they are to play in the stages of **CLIMATE,economy and military fields**.

Above all,we should grasp the deadly climate,it is nothing,but which that has been hiddenly causing unstability of coming world !!!.Note economy collapse with jobless and corporate bankruptcy and perpetual regional disputes are all plots to avert peoples concern.

<p>Profile</p> <p>People goes with their ideology by conscious or non-conscious. Ideology is dividened to theism and atheism.The former is life with justice,truth,and philanthropy toward co-live.While some atheists consider everything is allowable,if God not be.NAZIS was ant-Christ with wildness. <i>A death is mere becoming skull & bonds.</i> "War,commerce and pirate are trilateral".....Goethe</p>	<p>CLIMATE</p> <p>(1)emergent 80%CO2 cut (2)emergent Arctic Cooling fixing http://www.ameq.me/ Now global desperate silence and ignorance has been ruling on by the insidious and global plot!!! However there has still been chance to mend by rapid actions</p> <p>Nothing mending(1)(2) means global extinction by 100%.</p>	<p>ECONOMY</p> <p>at capitalism the EndGame (1)total debts = total bonds nation debts vs private bonds (2)no grow by market saturation (3)chronical jobless,wage down (4)wealth gap growing by money destructing game by QE policy (5)mass resources destruction → climate crisis Now people has been busy for own job with neglecting imminent state of the word.Tomorrow could not be same as yesterday in near days.</p>	<p>MILITARY</p> <p>the upside down world !!!. origin of violence is eating other lives for own life. However mankind is singular to kill own colleague due to egoistic greedy and brutality. Historical ruler(king,imperial)were the most robber murderer. USA(NAZIS reincarnated) the outstanding military nation has been the most robber murderer. http://www.777true.net/Big-Conspiracy-of-Nothing-Substantial-Climate-Countermeasure.pdf</p>
<p>Rockefeller(USA-UK-Fr-...) (1)**World State at now(2015)**<it is **desperate climate toward global extinction**,which has been becoming necessity of **WWIII as hidden suicidal !!>**

Conclusionary to tell,the modern gorgeous capitalism had succeeded to grasp global peoples mind,however those are entirely temporal delusion toward global extinction by **climate explosive** due to mass oil consuming civilization.**Now people must be repairmen-women whose task is finding trouble cause and mend those.**The most deadly trouble cause of now world is the power with **oil & military<Rockefeller USA>**.At first, claims by climate scientists on oil consumption had made **EXXON-MOBIL** nervous for own conserving and began **plots** against climate worriers orgs.Now extremely hard headed they have become impossible to push or withdraw,which turned them desperate and dangerous **military direction** toward **perpetual false flag wars and terror** to **hide climate worsened** and to **avert peoples hostility in the wealth gap growing**.Also American is to notice the fact as time goes on ,who would become against the US empire regime.As against which,the empire now has been establishing **police state with military fascism in USA**.It is nothing,but **decisive overwhelming solidarity by the truth** that could overcome the historical difficulty in USA(and in the world)..

(2) **Maybe America would determine coming future ??!**

The president Obama must now notice serious fact that his possible destiny is to decisively **try to chang USA** by betting his life.

Now he had become mere a mapet president who speak out documents written by his too conservative subs.

“Change” was his first word in authors memory,however at now,he has become conserving the status quo.It is entirely upside down !!.

Recent many sacrifices increasing of black people in USA is nothing,but the strong indication made by desperate white people in USA.

Now black people in USA never fight against desperate white one,but make cooperation toward pushing President Obama and his real colleague.

They should not misjudge enemy,and never fight people in lower place,but entirely fight against really wicked people in high place.

Now is not too late,but it is the crisis-itself that would cause the chance !!!!!.Because people in long time peace could not be awoken without it.

The most supporting is synthesizing alternative structural policy(future design)the favorable and realizable.

This is must and emergent task for all of us !!!.

☞: Note once the president called for **overwhelming judgement** by science,however it is **climate scientists** who betrayed his decisive request !!!

Once establishing overwhelming scientific judge,he could do anything necessary without congress’s consensus

After all,he seems to have become isolated from those who can tell truth.By such reasons,he had become not doing change.

Without **big supporters**,lonely anyone could not do any big tasks

Following an example,but far from complete policy design.

Thereby it is you who could accomplish the completion.

<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

<http://www.777true.net/Quick-Guide-to-Economy-Network-Dynamics.pdf>

People must **pay cost and manpower** for emergent establishing **NGO think-tank-org** to research and development !!!

Their final aim is establishing overwhelming consensus toward emergent global actions.

☞: synthesizing alternative structural policy(future design)the favorable and realizable.

http://www.777true.net/E17_Synthesizing-Economics-toward-Global-Climate-War-Time.pdf

At a glance,this task seems too difficult and many may become hesitate.

However someones told that. **simple is best !**,then it might be,**begin at first by easiest problem solvable !!!**

By anyhow,isolated people should do **debate with their colleague on the problems**,

which could turn the desperate feeling toward good chance of making solidarity.

Then an answer might be coming back to **old(good?)time regime** without greedy and brutality of todays.

Then necessary and effective high efficiency, high tech tools for livelihood should be souvenirs<rail road,sailboat,airship,.....>

On the other hand,most simple and survivable way of life for massive people may be that of **becoming soldier without hot war..**

Another important and decisive key is our inner revolution to drastically change.

It is told **abandoning**<P.Drucker>

After all,there could be nothing,but global death by isolation,or global survival by global solidarity making with a truth.

As for America,author-himself has many private(?) matters to claim, however those may be small as comparing above mentioned emergent deadly and vast problems.

In common sense,to order others to do something here and there is not business of own.Although,so far he has been seeing global websites, he could not help to feel their entire sabotage in research on **the real first cause of trouble** which has been causing global chaos.

Also his conclusion is **the insane NAZIS**(in America now).

This is not popular in global websites in general,however some American and Japanese are experts on the problem.Author was taught many by them.
