

Israel(-US Ally) the Suicide War ⇒ Non US New World Order.

Now Israel is challenging no winning probability war **aiming own destruction**. 2025-6-13 war was stopped from the brink of defeat by the US intervention. This time, US who had no will to brake war with Iran, was being forced to join war, by Israel's reckless first attack.

Now many experts estimate that Iran will not lose. **Following is those serious evidences.**

[0]: Iran-Israel Their Long Historical Background. 2026/3/11,12,13,14,17,18

[O-1]: The history of "salvation" and "cooperation" between Iran (Persia) and Israel *

* Liberation from the Babylonian Captivity (539 BC)

Cyrus the Great, founder of the Achaemenid Empire in ancient Persia, liberated the Jewish captives after conquering Babylon. He is called "the Lord's anointed (Messiah)" in the Old Testament and is one of the Jewish people's greatest benefactors.

* Rescue of Jews during World War II (1940s)

Iranian Embassy ambassador Abdul Hossein Sardari issued passports to thousands of Jews and rescued them.

* Close relations after the establishment of Israel (1948-1979)

Before the 1979 Iranian Revolution, Iran Pahlavi dynasty was a de facto ally of Israel. Iran supplied Israel with oil, and Israel provided Iran with military and agricultural technology. *

* Shift to the Conflict;

The 1979 Iranian Revolution led to the establishment of an Islamic regime with anti-American and anti-Israel stances, dramatically transforming relations between the two countries from friendship to mortal enemies.

[O-2]: Iranian now.

Quran Bull 190:

Fight in the cause of Allah 'only' against those who wage war against you, but do not exceed the limits¹ Allah does not like transgressors.

(1) Iran's Supreme Leader Ayatollah Ali Khamenei issued a fatwa (religious opinion) stating that "the production, possession, and use of nuclear weapons are contrary to the teachings of Islam," and has consistently denied nuclear development as an official position. YouTube

(2) Why Iran Has Not Developed a Nuclear Weapon

Nuclear testing or a declaration of possession invites a devastating military attack; Iran has maintained a strategy of remaining on the brink of nuclear development as a diplomatic trump card.

(3) Iran, the country of **Cyrus the Great**, was the first country in human history to declare **the Charter of Human Rights**. It also has a history of saving the Jewish people.

(4) Under **atheism** Nazi-reincarnated US-ruling world, subordinate countries are **institutionally corrupt**, because they are exploited by **betrayal ruling**. Religious morality is considered the greatest obstacle in the evil regime. Catholic South America and the Islamic Middle East become corrupted under US rule. Of course, some countries resist.

(5)The "generosity" among Turks and Iranians is based on their deep culture of hospitality and their humanitarian attitude, which has led them to accept millions of refugees.

1. An Overwhelming Spirit of Hospitality

Turkey: It is common for even complete strangers in need to be offered tea (chai) or invited to a meal. This is based on a "guest courtesy" that blends Islamic teachings with traditions dating back to the nomadic era of Central Asia.

Iran: There is a unique code of etiquette called "ta'arof," in which respect and humility are considered virtues. Many Japanese travelers have reported that the people there are extremely kind and have a tendency to not abandon travelers in need.

2. One of the World's Largest Refugee Hosts

Turkey: Since the Syrian civil war, Turkey has been one of the countries accepting the largest number of refugees in the world, sheltering over 3 million Syrian refugees.

Iran: Due to the worsening situation in Afghanistan, Iran is accepting approximately **3.5 million refugees**.

(3)Especially note Israel has many able military experts who have known Iran's actual military power and no winning probability due to their inferiority in weapon piling stock..

The Iran War Could Become a Global Disaster

<https://www.youtube.com/watch?v=iaEoedMps2M>

They have concluded that they don't actually need a navy to protect their interests. They don't even need an air force. What they have is a ground force, made up of the Iranian Revolutionary Guard Corps, regular troops, and other supporting militias who guard perhaps as many as **250,000 missiles**. They have built underground facilities over **the past 20 years** that stretch for miles. They have 31 identified command and control sites that themselves control countless missile sites. They can launch underground missiles for days or even weeks.America's supposed deterrent is proving utterly meaningless.

Israel in Shock Over Iran's New Missiles (Major Analysis)

<https://www.youtube.com/watch?v=P0NQWqSsfSc>

They first launched missiles from an older stockpile, and the latest 10-year-old missiles are still unused.Iran has been developing higher performance,but low cost missile to go through US Israel air defencing system.

The fuel has already been loaded in advance. Unlike other missiles that require longer preparation time, it is fired immediately as soon as it emerges. The warning time for adversary defenses is therefore much lower, which drastically complicates the first layer of defense that normally consists of striking the missile at the moment of its launch. The technical specifications of the Cororunshar 4 reveal why it represents such a revolutionary threat. According to experts, this missile measures 13 m in length and reaches a speed approaching 10,000 km per hour, which is staggering.At this extraordinary speed, it can reach Israel in only 12 minutes after launch from Iranian territory,dramatically complicating the work of Israeli defense, which has an extremely short reaction window. The missile has an officially declared range of 2,000km, but some independent military experts mention up to 3,000 km depending on the payload and warhead

[3].From the Holocaust,establishing illegal Israel,perpetual territorial disputes,theism Israel has been in hand of NAZIS the anti-God Satan.

(1)2nd time of Liberation from the Babylonian Captivity by Iranian the Great.

Now is the supreme era of facing mankind extinction by the fatal climate failure,then they made the final decision of their martyrdom of **theism Israel**.

From conclusion to tell,their secret elite had concluded to destroy their arch enemy the Nazi-reincarnated USA by dismantling Israel own-self as the martyrdom of theism Israel.

(2)Israel regime since 1948 is another Babylonian Captivity.

Only suicide of Israel can liberate awful their sin against the long years extremely suffered innocent Palestinian and their neighbors.It is also long awaited liberation of total middle east nations form the long years substantial brutal Nazis **Babylon** USA ruling.

(3)Israel vs NAZIS Their Long Historical Background.

Nazis Germany was established by US atheism capitalists in order to destroy the class struggle race Jew the theist.They feared collapse of monarchy regime after world war the 1st. Thus the unprecedented horrible Holocaust was realized.After Nazis defeated,their talent and the technology was secretly imported(operation Paperclip)to USA to establish **CIA-military industry complex** the secret world conquering machine.This is the **reincarnated NAZIS in USA**.Note USA is another Germany,because the most race in USA is not Anglo Saxon,but German with the wealthiest emperor Rockefeller.Following is their elite's fundamental **atheistic ideology**.

(a)Nation and people are those who should be exploited by eugenic nobility hereditary.

(b)Setting enemy toward perpetual hegemony struggle.

The persecuted Jew were forced to establish illegal Israel in Palestine toward perpetual territorial dispute then after by support of NAZIS USA,They had become agent of middle east ruling for USA,which was new regime of another Babylonian Captivity.

In order to accomplish Israelite surviving here after,once clear liquidation of now Israel is absolutely necessary,,because the condition for forgiving the Israelites is nothing, but only martyrdom of theism Israel.Especially note it is also liberation of total Middle East nations by brutal Nazis USA,it can be also global liberation of all the nations of the world from brutal Nazis USA ruling.

We will simply get out and everybody in the Middle East will want us out.

(6) **Possible Scenarios toward Cease Fire.**

- i Iran's total victory=US military withdrawal and Israeli surrender
- ii Iran's total surrender=Continuing Israeli expansionism with US aid
- iii No Cease Fire ⇒ Global Economy Collapse due to Oil deficit.

[4].The Condition of Genuine Cease Fire in Middle East.

Israelite must accept Israel resolution and Arab has to generously forgive them.

Albert Einstein's Letter on Zionism and Palestine, April 1948

he expressed support for developing Palestine as a Jewish homeland without establishing a separate state, emphasizing the importance of cooperation with the Arab population

The vast majority of people on both sides naturally hope for a quick end to the war in the imminent danger and hardships they face, but this would mean the continuation of the painful old conflict system. The both leaders are pursuing a resolution: Iran wins, Israel loses. Then evidently stronger serious difficulty is the latter Israelite who would fear and face Israel resolution. Then they must ask own-self, Why Israel had to massacre Gaza people?.

[5].Conclusion;The Emergent Mission of All of Us the global inhabitants.

Now Iran vs Israel-US war is extremely crooked to understand, thereby you must carefully examine the military facts with the back ground Ideological logic.

It is time for the world to move on without the United States

The US no longer wants to be the guarantor of the world order. It's time the rest of us take this responsibility.

<https://www.aljazeera.com/opinions/2026/3/9/it-is-time-for-the-world-to-move-on-without-the-united-states>

Now is extremely critical time for changing into better world by all of us. Respectable both the revolution race and the generous race are now struggling with each other by betting their lives. We never only observing it, but actively concern to settle it first as possible as both races want.

APPENDIX1:How to Defeat High Cost US by Low Ones.2026/3/12

The‘Fourth Successor’: Iran’s plan for a long war with the US and Israel

<https://www.aljazeera.com/features/2026/3/10/the-fourth-successor-how-iran-planned-to-fig-ht-a-long-war-with-the-us-and-israel>

Tehran built a doctrine to absorb shock, survive decapitation strikes and turn time into a weapon< “decentralised mosaic defence ”>.

The previous Iran-Israel war became evident Israel defeated by Iran attack,when US intervened to stop it.At this time war,Trump evidently had declared early their winning by the hitting the Iran top leader,but they failed clearly.This fact revealed that at least Trump himself had not known awful Iran’s operation ability<It is certain the military top warned him not to do war>.After all,this became too stupid to cause their predicament then after.Now their left problem is how to retreat war with evading the global epic fury against their brutal evils.

Time prolonged war theory

It ‘s to disrupt enemy’s advantages, prolong the conflict and raise the cost of continuing it.

Space decentralised war theory

Their task is to turn the war into one of attrition through decentralised operations, ambushes, local resistance, disruption of supply lines and flexible operations across varied terrain, multiple predesignated successors existed for every key military and civilian post.

APPENDIX2:The US military is aware of Iran's decentralized mosaic defense and recognizes that it cannot win<Google AI with references>.2026/3/12

The assertion that the US military is well aware of Iran's "mosaic defense" and recognizes that a military victory would be difficult is one of the key arguments in modern geopolitics and military strategy.

Iran's "mosaic defense" refers to a decentralized defense strategy in which local military units continue to resist independently even if the chain of command is destroyed. This strategy significantly increases the risk of a protracted guerrilla war throughout Iran, even if the US military neutralizes the central government and central command with overwhelming firepower.

https://www.arabnews.jp/article/middle-east/article_170679/

There are three main factors behind the **US military's perceived "unwinnable" stance**:

Decentralized command structure: Iran has a multi-layered structure of the National Defense Forces (Artesh) and the Revolutionary Guard Corps (IRGC), giving each region independent defense capabilities. This allows Iran to prepare for immediate retaliation or resistance even if an attack hits the heart of the regime.

Costs of Asymmetric Warfare: Iran is skilled in asymmetric warfare, combining missiles, drones, speedboats, and militias. Suppressing these threats would require enormous costs and time, potentially exceeding the political and economic limits of the United States.

Lessons from History: Experiences in Iraq and Afghanistan have taught the U.S. military the distinction between "victory in conventional warfare" and "post-war stabilization." It is said that defining a decisive "victory" against a mosaic defense in a country with a vast territory and population like Iran is difficult.

Therefore, even if the U.S. military has a technological advantage, Iran's thoroughly distributed strategy acts as a deterrent, a major factor in the U.S. military's avoidance of all-out conflict and its cautious stance.

Especially note also Israel military top have well known this decisive fact, Therefore, their preemptive attack on an enemy they cannot defeat is nothing but **proof of suicidal intent**.

They has become desperate that only Jews are being made to play the villains in both Ukraine and Gaza by the damned Nazis USA, and they desperately want the liquidation.

APPENDIX3:The World Judaism Envisions<Google AI with references>.2026/3/12

The ultimate world Judaism envisions is where justice and peace (**shalom**) are realized on earth under God's rule. While many religions emphasize an afterlife such as "heaven," Judaism emphasizes transforming the "here and now" world into a place that conforms to God's will. Three Aspects of the World Judaism Envisions

Achieving Social Justice (Tikkun Olam)

The concept of "Tikkun Olam" (repairing the world) is at its core. Judaism aims to improve and perfect this imperfect world through good deeds and observance of commandments, with humans acting as partners with God.

The Arrival of the Messianic Era

It is believed that in the future, a "Messiah" (Savior) will appear, ushering in an era of peace in which war and hunger will be abolished and all mankind will know one God. At this time, the scattered Jews will be gathered in the Holy Land and the Temple in Jerusalem will be rebuilt.

Mission as the Chosen People

As "God's chosen people," Jews are said to have the role of demonstrating God's existence and justice to the whole world by upholding the Torah and setting an example for it.

Emphasis on this World

Judaism has few clear doctrines about the afterlife. While there is a belief in the resurrection of the soul on Judgment Day, its primary focus is on "how to improve this world."

Therefore, social activities such as education, charity, and human rights are highly valued as a form of faith.

In the few nobility hereditary ruling world eve at now<Bilderberg Group>,they had to be class struggle race ,thus they encountered unprecedented serious persecution history.

The Holocaust was planned and executed by the Nazi German regime and its collaborators, led by Adolf Hitler. While no single written "master blueprint" exists, historical evidence shows it was a state-sponsored program that radicalized over time.

[United States Holocaust Memorial Museum](#)

The key architects and organizations involved in its planning and implementation were:

[Primary Architects](#)

Adolf Hitler: As the Führer, he was the driving ideological force who authorized and supported the genocide. Historians agree that such a massive logistical operation during wartime could not have occurred without his approval.

Heinrich Himmler: The head of the SS (Schutzstaffel), he was responsible for overseeing the concentration and extermination camp system.

Reinhard Heydrich: Himmler's deputy and head of the RSHA (Reich Security Main Office). He was tasked with the "Final Solution" and organized the Wannsee Conference to coordinate the mass murder across government departments.

Adolf Eichmann: An SS officer who managed the complex logistics of deporting millions of Jews to ghettos and death camps.

[Holocaust Encyclopedia](#)

Key Planning Milestones

The Wannsee Conference (January 20, 1942): This 90-minute meeting in Berlin was a pivotal event where 15 high-ranking Nazi officials coordinated the implementation of the "Final Solution"—the systematic plan to murder 11 million European Jews.

Operation Reinhard: Named after Heydrich, this was the code name for the plan to murder the Jewish population in occupied Poland using dedicated extermination camps like Belzec, Sobibor, and Treblinka.

[Anne Frank Stichting](#)

Systemic Support

The Holocaust was not carried out by a small group alone. It required the active participation

The SS and Police Units: Specifically the Einsatzgruppen (mobile killing squads).

The Wehrmacht: The German military provided logistical support and, in some cases, participated in massacres.

The Civil Service: Government ministries (transport, finance, foreign affairs) handled the legal, financial, and logistical details.

Collaborators: Various European governments and local populations in occupied territories assisted in the roundups and killings.

[Anne Frank Stichting](#)

The Holocaust is the most documented case of genocide in history, with evidence ranging from Nazi records and orders to tens of thousands of survivor and perpetrator testimonies.

Detailed information and original documents can be explored through the United States Holocaust Memorial Museum and the Yad Vashem World Holocaust Remembrance Center.

APPENDIX5: **Why Iran Doesn't Collapse Easily**

The Spirit of the Battle of Karbala, Where People Were Martyred for Justice

Currently, there are three main layers within this country.

<https://www.youtube.com/watch?v=tSoOBFqKQOw>

https://www.news-postseven.com/archives/20260314_2097825.html/2

First, there are the regime supporters. These include the religious leaders of the Revolutionary Guard Corps, and their families and supporters. For them, the Islamic Republic is more than just a government; it is the New Year's state born from the 1979 revolution—a state that upholds the spirit of Karbala. For this group, upholding the regime is not a political choice but a religious obligation. Many local religious communities and conservative families fall into this category.

Second, there are the reformists.

They don't completely reject the regime, but they desire a freer society. They seek political reform, economic liberation, and improved relations with the international community. Many urban middle-class people and those with higher education belong to this group. However, many of them also harbor another fear: the collapse of their state. The Middle East has many examples of this: Iraq, Syria, Libya—countries where the state itself collapsed after the regimes fell. Having witnessed this situation, many reformers do not desire a rapid collapse of the regime. And

thirdly, there is the anti-establishment younger generation.

These are people who use social media to connect with the world and want to be free from religious constraints. Some young people in cities have strong dissatisfaction with the regime itself. The Jab resistance movement, for example, is centered around this generation.

However, there is a very important phenomenon here. It is the phenomenon that **when external pressure is applied, society becomes more united.**

Economic sanctions, military pressure, attacks from foreign countries—in these situations, even people who are usually critical of the regime change their minds. They hate the regime. But they don't want to lose to foreign countries. This feeling arises. And what happens then? Some of the regime's supporters and some of the reformers temporarily stand on the same side. In other words, the stronger the external pressure, the harder it is for the state to collapse. This is a phenomenon that has occurred many times during years of sanctions. In a normal country, it would not be surprising if it broke at some point. But that did not happen in Iran. The reason for this cannot be explained by simple military calculations. Because what drives the country of Iran is the story.

Appendix 7: The World's NAZIS Puppet Structure vs Iran Ally.

Summary:Global Liberation from the Brutal Ruling of Nazi USA.

The apocalypse prophecy is right; survival depends on achieving a theistic world through gospel teach; while extinction depends on atheistic ruling.This can be assured as follows.

*The Bible is logic; a world of justice, truth, and philanthropy leads to establish social order; while injustice, falsehood, and hatred lead to collapse of the order.

The modern world history kernel is the struggle between atheism German aristocratic hegemony ruling and the class struggling theistic Jews.The current world is ruled by the former, Nazi USA, But they now are heading towards final decisive battles after concealing the disastrous failure of oil-based climate destruction.Under these circumstances, what is the recent future of our world, and what can we do for those ?

This is analysis on the broad, essential structure.

After 2020, with the failure of climate change countermeasures, Nazi-reincarnated US GE launched operation End Game by German Elite GE as the mastermind, leading to the global explosion of COVID-19 and the unnecessary Ukraine and Gaza wars with Jewish Elite JE as the villains.Then,in 2026, there was to be the war with Iran, by hidden JE as the mastermind, and Israel will commit suicide with forcing its arch-enemy Nazi-US down to hell.

If that's actual, then the conclusion can be drawn that the unknown Iranian¹⁾ victory will be the world's saviors!!.Their allies are Russia and China, and the sentiments of global citizens, including Americans, are all on the Iranians' side! .This is a very serious matter!!

❶Iran will never be defeated,however the ceasefire depends global supports for them.

From the beginning,US(Israel) military top had known the singular Iran's decentralized defense doctrine,thereby US military did not want war,but the brutal presidency forced and ordered the war by the reckless Israel forcing.....Also Israel top know their defeat.

US made defense weapons are higher technology,but higher cost with less production.

Iran attacking weapons are lower technology with lower cost,but larger production.

Thus Iran saturating attack can go thorough the iron dome into narrow region Israel.

While US stronger weapon can attack Iran,however their region are deep in underground and broad enough in area.

Iran can win by time and space advantage to force US & Israel too much higher cost,Iran can also stop oil tankers in Horumuzu strait toward global collapse both in the economy and politics.

That is,it is not military power,but our global political consensus by Iran's calling for the justice,or by Iran's forcing due to global economy collapse could accomplish the ceasefire.

②The Miracle of History is to Repeat.

Now the world has been watching a Miracle of the History Repeating.

The history of "salvation" and "cooperation" between Iran (Persia) and Israel *

①Liberation from the Babylonian Captivity (539 BC)

Cyrus the Great, founder of the Achaemenid Empire in ancient Persia, liberated the Jewish captives after conquering Babylon. He is called "the Lord's anointed (Messiah)" in the Old Testament and is one of the Jewish people's greatest benefactors.

②Liberation from the 2nd Babylonian Captivity (2026AC?!!!)

(1)Poof on that now Israelite is the 2nd Babylonian Captivity by Nazis USA.

i : **Nazis** was substantially established by **the atheist US wealthiest** in order to eliminate atheism Jew **the class struggle race** considered who concerned collapse of monarchy regime after world war the 1st.The mission of Judaism is realizing justice<**class struggle**> and peace (**shalom**).This is kernel of their strong belief actually proved in their history.

ii : Nazis actually had realized **Holocaust against 60billion Jews** in world war the 2nd.

iii : US Operation Paperclip secretly imported Nazis talents with technology to establish **CIA-military industry complex** the secret world conquering machine warned by Eisenhower. This is nothing,but **reincarnated NAZIS** in USA.

v : After the war,the illegal Israel was established in Palestine and was to grow invasion at there by repeating the wars against the neighbor Arab nations by **aid of NAZIS USA**.Now they had become atheist who has been against shalom and not able to stop persecution against innocent Palestinian and other Arabians.Thus now Israelite is noting,but new **Babylon Captivity** so long as being Israelite by aid of NAZIS USA(the New Babylon).
Their true liberation is,nothing,but liquidate Israel toward living together with Arabian.
This is famous Einstein's fundamental Ideal for Israelite liberation.

(2)The **recent years remarkable awful genocide against Palestinian** is very crooked problem to understand for amateur readers.Very naturally global people had become furiously accusing against them.Also author could not understand their true intention,which had become resolved by 2025/6/13 and 2026/2/28 pre-emptive attack against the innocent Iran.
Conclusion to tell,**Israel top had determined to break out suicide war to liquidate Israel.**
