

Dear Climate Scientists

2016/12/4.5,9

It is not politician,but doctor(**scientists**), only who can declare patient(**climate worsened**)to urgently go to hospital surgery room !!.

Dear Climate Science Researchers..

Motoji Suzuki(web climate Surveyer\*APPENDIX\_1)

[ 1 ] : **Who must declare climate fact !!!.**

At first,I beg your generosity to tell you in rather rude saying.The logic is as follows.

It is not politician,but doctor(**scientists**), only who can declare patient(**climate worsened**) to urgently go to hospital surgery room !!.

So far my survey on official global climate meeting,or official climate institutes in website, I could not find any passionate declaring on **imminent climate emergency**,but except those who has been warning **Arctic Methane Catastrophe**(NGO).

To tell from beginning,**the IPCC** never confess the deadly situation of Arctic Methane.

Thereby,I could not help,but to tell climate science society has been betraying us of all !!.

Also I had known **terrible suppression against climate science society** by the oil merchant.

However once again you must recognize own decisive mission to save this world.

**Above all,time for fixing may be not too much !!!!,it is which that claim urgent global climate wartime declaration\***). However it's too late is lie,so long as **intercepting Methane Catastrophe in Arctic**,which has been hiding by IPCC.Or it is it that is emergency.

Hereupon,in USA,stunning presidency election had occurred,that is Mr Donald.John.Trump the rare paradoxical person. At first,also you should solve his paradox,as for which,the global established media(pro Clinton)still has been accusing him bigot.

He had been accused as **climate denier** till the election,however it may be his secret survival strategy against the Satanism Ruling World.So long as,a person who pretend **moron** never be politically assassinated in **the Satanism World**. However once he is to appear to genuine,the situation is also turned. Thereby,it is nothing,but massive supporting that could save the world. **\*\*Satanism** :*People are dividend to those who rule and who are ruled.*

**\*wartime declaration** In recent global websites,those are not few who begun warning on coming **WWIII** between USA & Russia.However,it is very curious,there is no decisive imminent cause between USA & Russia to launch WWIII. Certainly the awful warfare in Syria is unprecedented ,**however could it really be the decisive global cause ??.**

Even as it were so, there is still hidden but supreme cause to launch WWIII.

It is nothing, but **the climate worsened year by year toward global extinction by methane catastrophe**, which could not be hidden by any more. The necessity of WWIII may be at here (hiding climate catastrophe). It is the most fear of **Rockefeller the global emperor-the oil merchant** who has been intercepting substantial climate fixing. Actual and substantial climate fixing could not be **global revolution** to turn the current regime of Rockefeller Empire. It is their **supreme hate** against turning their ruling regime that once had created paradoxical Russian Revolution and NAZIS establishing.

## **[ 2 ] : Coming new presidency in USA and Climate.**

To tell conclusion at first, I wish American must strongly support the Trump Presidency.

Unless your strong support, they would have become substantial **planet terminator** at last !!

**(A) Trump's View on Climate??**. ....

**At NY times interviews(2016/11/23)**, he has not been climate denier anymore.

However he told in curious way of **no strong confidence**.

<http://www.newsday.com/news/nation/trump-sees-some-human-role-in-climate-change-1.12652686>

*"I think there is some connectivity," he said. "Some, something. It depends on how much." That's a significant shift from Trump's past statements that climate change is a "hoax" perpetrated by the Chinese to make U.S. manufacturing less competitive.*

*\*Despite his public stance as a politician, there is evidence that Trump the billionaire businessman was already hedging his bets. Earlier this year, the Trump International Golf Links and Hotel in Ireland cited **the threat of sea-level rise** in a permit application to build a nearly two-mile-long stone wall between it and the Atlantic Ocean.*

***Trump hands out supplies to flood victims.***

<http://www.infowars.com/video-trump-hands-out-supplies-to-flood-victims/>

**(B) Climate Scientist's View on Trump Presidency.**

Climate science society has been considering Trump as **climate denier**.

**Fast It Could Be 'Game over', Scientists Warn, 2016/11/10**

<http://www.independent.co.uk/news/science/climate-change-game-over-global-warming-climate-sensitivity-seven-degrees-a7407881.html>

.....Climate Change May Be Escalating So And US President-elect Donald Trump has said he will rip up America ' s commitments to the fight against climate change. Professor Michael Mann, of Penn State University in the US, who led research that produced the famous hockey stick " graph showing how humans were dramatically increasing the Earth ' s temperature,told The Independent the new paper appeared "sound and the conclusions quite defensible". "And it does indeed provide support for the notion that a Donald Trump presidency could be game over for the climate," he wrote in an email. "If Trump makes good on his promises, and the US pulls out of the Paris [climate] treaty, it is difficult to see a path forward to keeping warming below those levels. "

(C)In author's opinion,both Trump and climate scientists have good chance to turn each view toward making strong ally.Because the his curious way of telling(NY times)indicates necessary of supporter to make strong confidence on climate policy. Thereby,as for the scientists,it is unprecedented decisive chance to declare deadly climate fact toward establishing emergent global climate wartime regime.

(D)It is not politician,but doctor(scientists), only who can declare patient(climate worsened)to urgently go to hospital surgery room !!.

Sometimes,things become upside down.Without confidence may be not Trump,but the scientists side.

So far authors survey on climate policy making in these 10 years by website(he is amateur), the real trouble cause may be not ignorant politicians,but scientists who could not decisively declare the deadly climate fact for decades.Also author had known strong interference on scientists by the oil industry with business society and with government. However,they must once again recognize own decisive mission to save this world. Now the global mass climate engineers(renewable energy,.....,Arctic Cooling Engineering)has been waiting for !!!.

**At now,there may be nothing,but Trust and Bet their Best Endeavoring !!!!!,**

[ 3 ] : Letter to Union of Concerned Scientists in USA.

This is letter to Union of Concerned Scientists USA).It is nothing,but **only urgent global declaration of climate wartime regime** that could accomplish effective Climate Fixing !!.

**Overwhelming Judgment by Science(President B.Obama)**

**=Urgent Decision on the Climate Task.**

Are these(1)(2) right or wrong ??.

I can not help,but ask you and your staffs to urgently **decide the Climate Task.**

It is **scientists hesitation** not to declare **climate wartime** toward global public that has been causing confusion in people and political chaos at now and that would have caused climate hell world toward **global mass extinction !!.**

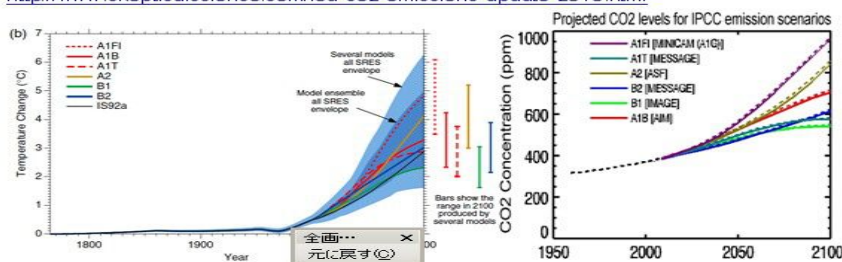

(1)**urgent more than 80%CO2 cut to stop the rise of more than 0.5°C(in the average value).**

In very coarse estimation by Suzuki,this is not impossible,however it could not help,but be bitter life for people for the time being,**however it is the bitter life that could accelerate rapid,good and many inventions.**

**PS:**In the global established media(pro Mrs Clinton),they accused Mr Trump is bigot, Those who trust such word *bigot* don't know well about too dangerous political situation of USA, where hidden political assassination is not rare( NAZIS reincarnated nation by *operation paper clip*).\*NAZIS reincarnated power is usually called Military Industry Media-CIA complex in USA.*In order to deceive enemy,at first,begin to deceive own friend<Sun Tzu,ancient China strategist>*

Mr Trump is rare bravery and justice person,trust and support him strongly with **truth** to turn him climate fighter !!, Or they would have become **planet exterminator** in coming 4years term. however Mrs Clinton agent of the NAZIS regime is more dangerous to trigger **WWIII** to hide **climate catastrophe**. Note Mrs Clinton is the madame of **Rockefeller Family**(the oil emperor EXXON-MOBIL).Mrs Clinton was officially climate non-denier,however it is they(EXXON-MOBIL)who has been intercepting substantial climate actions.

In a conspiracy(deception)world,sometimes,things become upside down !!.Their friendship between V.Putin Russia and D.J.Trump USA is at there to **stop WWIII**. It is told that V.Putin(also big oil merchant)is to resign in 2017.

**PS2:**Summary to tell now is just the time when global NAZIS power(or Bilderberg power,or **the established elites**)had been exposed to global public. Then it is just also the time when **science society** must decide to which powers they wish to belong?.

**APPENDIX-1:As for author Suzuki and his reason to concern with climate.**

Author's half life is almost **political persecution** due to science matters,which has been being caused by deficit of justice and fair in **science society international**.They at first must overcome own egoism and turn **the upside down world** by declaring scientific truth. Now the global destiny would entirely depend on coming their deed **in facing climate crisis**.

(2) **Difficulty on exposing science scandal.**

Technology with engineer is **business(selling goods with price)** betting with income money, where lie could not be. Or false selling become loss and damage with penalty or compensation. While some kind of science **could manage as lie !**, unless lie becomes evident to public. **Because amateur in general could not understand higher class science. Thank to this difficulty, author could have developed method to explain people by easier, but exact.**  
[http://www.777true.net/Logic-the-most-simple\\_but-supreme-way-for-recognition.pdf](http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf)

(3) Author had known the **hypocritic reality of science society international.**

Following are actual history of author's experience in younger age.

(b)(c) in (1) are genuine, while **science society international** had rejected the publishing.

(b) 1988: Quantum Stochastic Mechanics.

This is macroscopic physics on matter. The established **statistical mechanics** has no time evolution theory from **the 1st principle**, then QSM established those.

(c) 1993(1995): Quantum Gravitational Dynamics.

This is microscopic physics on matter (elementary particle) from **the 1st principle**.

**The theory of whole** can be described **only** by so called **Lagrangean** which was determined by Utiyam(1956)-Faddeev&Popov(1967). However it had an error fixed by author(1993).

Once author was employee in Hewlett Packard Co now the computer maker in USA and has been a wing of so called **military industry complex**. He had once become hated by them at there due to doubt of communist. Since then he had become difficult to get position of engineer in Japan, and the consequence, he had happened to become physicist (theoretical). By those findings (b)(c) might have caused more hatred against him. Not only them, also elementary particle physicists had become fear for losing their job by (c). It is proof on completion of elementary particle physics. For an example, 1993 in USA congress, they declared abortion of **SSC** (12B\$ elementary particle accelerator device). It is told USA physics society at that time did not oppose the decision.

Almost scientists are **elites** (but not hereditary power) in public institutes with **established power** (government). They could not reveal evident error in author's thesis. However kind researchers indicated reason of no publishing is due to person in high place.

[http://www.777true.net/The-Global-Ruling-Structure-2016\\_How-to-Engineering-toward-Accomplishing-Global-Stability.pdf](http://www.777true.net/The-Global-Ruling-Structure-2016_How-to-Engineering-toward-Accomplishing-Global-Stability.pdf)

Owing to such ugly affair, Japanese physicists were frequently given Nobel prize. However elementary particle physics has no damage to people (but tax payers must pay for fake job), But it is only **climate science** that could not be so !!!

(4) **It may be someone's trick to enforce him toward concern climate.**

At first, why non climate expert author had become concerned with climate should be explained... It may be someone's trick to force him to concern climate. If he had not become curious ill in November 2006 (*encephalitic inflammatory* by Dr's diagnosis, however it may be lie, because the symptom do not agree. In hospital, medical torture was by evil nurse), I would not have concerned. It is the ill that turned him to employ internet, because hard work could not do at that time for few months, so he bought computer with internet. And the consequence, he had known climate reality. The initiation was by **Jucelino Nobrega Da Luz** the strong Brazilian prophet on coming awful climate in TV show at end of 2007 Japan. Climate detail never be mentioned news paper or TV the established media. Why is it author to , or could concern with climate hated as communism in the capitalism regime with massive oil consumption ? . Author happened to have college colleague an expert on fluid dynamics, who taught him some climate basic, one was significant role of ocean in climate dynamics and revealed Arctic Methane Emergency. Then he was angry for rejecting him joining the national project study. "*Mathematician is no necessary*". Now they may have terribly regretted on **Fluid Dynamics the Fundamental**. Climate scientists general except so called climate modeler seem hate math??, while the modeler hate small computer capacity. However real cause may be not the capacity.

\***the uncertainty of climate general** in fluid dynamics field is mainly due to uncertainty generated by Fluid Dynamics Equation.

2013: [http://www.777true.net/Information-Loss-Process-in-NS-Equation\\_The-Cause-of-Chaos.pdf](http://www.777true.net/Information-Loss-Process-in-NS-Equation_The-Cause-of-Chaos.pdf)

2016: <http://www.777true.net/Uncertainty-Causes-in-Climite-Dynamics.pdf>

(5) **Climate Destiny Prophecy by Artists** <please listen these music>.

**MARVIN GAYE - SAVE THE CHILDREN(1971)**

[https://www.youtube.com/watch?v=oHpj\\_1BJT0Q](https://www.youtube.com/watch?v=oHpj_1BJT0Q)

[https://www.youtube.com/watch?v=5\\_FKKIC1oSw](https://www.youtube.com/watch?v=5_FKKIC1oSw)

These happened to be in author's music collection. And he noticed the prophecy. Following is Jucelino's decisive prediction on 2043. Note he also advise that future prediction could be changed by our will and action at now !.

***Global warming is inevitable and 5 billion until 2043 , , may die if nothing is done in time ,and they are hidden from worldwide population .. says Jucelino Luz***

<http://www.jucelinodaluz.com.br/aquecimento-global-inevitavel.htm>

The coming 2043 would not due to CO2 global warming in rather slow tempo,but to rapid collapse by Arctic methane catastrophe.

(6)**IPCC climate science for policy maker will not save the world !!.**

**Climate science(IPCC)**could not be ordinal one ,because it is deadly problem of die or do.

Also they(IPCC)were given Nobel Prize in order to camouflage their deadly hypocritics.

Above all,they never will declare **imminent risk of Arctic Methane Catastrophe.**

In closed room,they might have decided no salvation means by anymore to be silent .

Understanding Methane catastrophe mechanism-itself is not difficult to people.Though, certainly the salvation technology(Arctic Cooling)has not be proved to be certain.

(7)Actuality of climate researchers in Japan.

There would be none,but this supreme problem that would have destine life on earth, While,no research(but few such by NGO group AMEG)is evidently not normal.

Recent climate scientists will not debate Arctic Methane.Once author visited research institute on Arctic Climate Research,to his astonishment,this highest priority problem is

almost not their task, but their study seems something stupid. Also to another climate research general, he visited, however also their study seems out of emergency target. Summary to tell, almost stupid studies are running on by our tax in Japan. It seems as if they prepare to write **dying certificate** (Arctic climate toward catastrophe)... **upside down world**

\*So far authors survey on **climate science department in university, or research institution in Japan**, talents seem not want to join, but **flee** from there. For example, authors graduated technical college (tax payed), there is no climate experts in geo-science department !!! It is entirely terrible sabotage and corruption of academy.

[ 2 ]: **Survey on Political Environment had derived “the wicked spirit in high place”.**

Never misunderstand that author intend to accuse only climate scientists. Also he had known **awful suppression on climate scientist society** due to the oil merchant. Then note the suppression is not only toward scientist, but also politician, public officer, ....., and media.

Thereby, all of us together must at first make global solidarity with the truth toward turning **the upside down world**. It is engineering to correct and recover the decent world now facing deadly political, economical and climate catastrophe.

(1) **The over view.**

Now the world has been rolling with massive oil consuming. Oil civilization had been initiated and grown with hegemony winning by the oil merchant emperor Rockefeller. Now he is not mere a wealthiest merchant, but also the substantial global generalissimo.

All of those are righteous engineering to correct **government's criminal !!!**. President Obama at now and next President Trump must do correct the wrong policy !!.

(3) **The Bible, Ephesians.** <http://www.bibleetnombres.online.fr/biblekjv/ephesian.htm>

*6:12 For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against **spiritual wickedness in high places**. Wherefore take unto you the whole armour of God, that ye may be able to withstand in the evil day, and having done all, to stand.: Stand therefore, having your loins girt about with truth, and having on the breastplate of righteousness; And your feet shod with the preparation of the gospel of peace; Above all, taking the shield of faith, wherewith ye shall be able to quench all the fiery darts of the wicked.*

(4) **Law and Order.**

In **the upside down world** having been ruled by the wicked spirit in high place, sometimes things the very important has been broken by **lawless** (9/11 terror causing false flag wars, Haiti and Japan attacked by earthquake weapon by hidden special troop in USA). Now the upside down world has been rolling on by those lawless ruling with the power .

A decent society has been kept its order by our voluntary **CONTRACTION by justice & fair.**

It is which that could make **maximum benefit for all** (**democracy** ordered by God).

It is not that could make maximum benefit **only for the wicked spirit in high place.**

In other word,now they have faced deadly point,from where they could not escape without aide of **lawless or fake**.If law order would have been acting on,a righteous engineering never will be defeated.

\* A national law sometimes has become **contradictory** to humanity law in its actual employment,for example,(e)(f)(g) might be illegal in **incomplete** national low,however they are essentially righteous engineer to fix **government criminal**.It evidently becomes uside down that criminal government is to punish innocent hero who tried to save nation.

In fact,it is those who told them guilty is actual guilty in the criminal government(USA).

(5)Scientists must also develop engineering to rapidly make **Climate Leaders**.

Even any political leader ability,they could not implement their actual policy without strong supporting by subordinates.Above all,**science matter** may be so.Then why **climate science society** has been being defeated on in their effectiveness ??.

Why also **climate activist orgs** has been being defeated on in their effectiveness ??.

Something? the **decisive** is being deficit on.

**I** :In authors opinion,those must be a style of declaration such as

***“You must rapidly go hospital to take surgery operation !***

***Or you shall surely die !!.***

*Thereby we scientists with engineers have made the program with preparing tools necessary”.*

**II:Political Suppression ?!!.**

If really scientist,they could make **global solidarity** by **unique truth** more rapidly than anyone else.Their deed must be good model and people would surely follow it !!.

\***Gödel Completeness Theorem** assures uniqueness of solution in math science.

Theory includes also statistical one.

## **APPENDIX-2: *Overwhelming Judgment of SCIENCE.***

<http://www.777true.net/Overwhelming-Judgment-of-SCIENCE.pdf>

A righteous conclusion in Science is fundamentally unique to be simultaneously overwhelming judgment. The Scientific valid is described. And also serious interference on on those are revealed. This is the most emergent and highest priority problem at now world.

*"Or we can choose to believe in the overwhelming judgment of science – and act before it's too late.....But if Congress won't act soon to protect future generations, I will. I will, I will direct my Cabinet to come up with executive actions we can take, now and in the future, to reduce pollution, prepare our communities for the consequences of climate change, and speed the transition to more sustainable sources of energy."*

## **APPENDIX-3: Decision Making.**

Decision making in business, engineering, politics, and military operation are ordinary considered as that with **risk(uncertainty)taking**. While in **science**, it might be nothing, because their conclusion must be decisively certain by theoretical or experimental. Then their vigorous research initiation may be risk taking, however most recent young researchers seems conservative due to long learning process <author wish this view is wrong>. Of course someone in science society could be risk taker. Especially climate scientists seems very nervous on so called **climate uncertainty** (unpredictable macroscopic large fluctuation in various climate variables, however the fluctuation must be with certain probability density function). Thereby it could be problem overcome. Now we the outsiders only have been expecting their bold decision making with global solidarity. **No decision making is to become final decision on our extinction the supreme stupidity..**
