

**Oil & Military the Deathperate Industry has been causing the world desperate.  
Now the world unconsciously has been toward suicide ruled by the desperate.**

Global journalism has been entirely debating on the pervasive disputes in Ukraine and Middle East nations in their top articles.Those are certainly troubles calling for must do emergent relief.Now author try to reveal nutshell of **coming inevitable essential problem** for human surviving.It's **“oil & military the desperate industry”** who has been **causing our extinction**.It is their being-itself that has been causing our extinction,which is nothing, but absolute desperate for them. Only by their suicide,but without accompanying others could enable our surviving.While,in fact,they could not do it. ....2014/9/1

<b>Oil industry Nations</b>	<b>Military Industry Nations</b>	
<b>USA</b> (Exxon-Mobil)	<b>USA</b> with <b>many nukes</b>	D.Rockefeller
<b>Russia</b> (Gazprom)	<b>Russia</b> with <b>many nukes</b>	V.Putin
Middle East nations	<b>EU</b> with <b>many nukes</b>	

Nations without oil & military industry is most favorable for coming era toward surviving.

\* *"Unless oil,we could have nothing energy,then how to live ?"*.Certainly it is this question that has been shackling .This report is proposing to debate the problem toward solution.

[http://www.777true.net/Part\\_6\\_non-carbon-Energy-Engineering.pdf](http://www.777true.net/Part_6_non-carbon-Energy-Engineering.pdf)

\* \* Author don't wish people's suicide,but wrong corporate.

**[ 0 ] : The minds of the world at now<unconscious desperate ruling on by no solution>**

So far as author's recent observation on the world,people are certainly very various,however an unconscious part in their averaging minds in advanced nations seems **desperate** due to nothing solutions for **economy & climate**. The economy is due to **accumulated huge sovereign debts** with **massive people of jobless**,which has nothing essential solution,but entirely life prolonging policy.So long as bond be,the debt could not be nothing.By anyhow, the matured capitalism had become to create **no new big market** anymore at least in the conservative regime(not allowing change especially in **energy engineering**).

<http://www.777true.net/Zero-Sum-Theorem.pdf>

<http://www.777true.net/THE-ECONOMY-NEVER-WILL-RECOVER-AGAIN.pdf>

Above all,the most fatal problem is **climate collapsing** due to massive accumulated CO2, which would be fatal, if nothing **unprecedented bold policy** for global countermeasure.

[http://www.777true.net/This-is-the-most-emergent-problem-of-to-live\\_or-not-to-live.pdf](http://www.777true.net/This-is-the-most-emergent-problem-of-to-live_or-not-to-live.pdf)

<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

Now most of people had become to recognize climate change due to own observations on recent years extreme climates(strong rain with big floods,pervasive drought,strong heat and cold wave,strong hurricane,tornades).However **nothing effective policy** will not be implemented in most of nations. **If people consider global solution impossible**,the global countermeasure would really become impossible.This is nothing,but desperate.

**[ 1 ] : Essential and Original Cause of the Desperate.**

It's "**oil & military industry**" who has been causing our extinction.It is their being-itself that has been causing our extinction,which is nothing, but absolute desperate for them. Only by their suicide,but without accompanying others could enable our surviving.While,in fact,they could not do it.The substantial climate countermeasure is more than 80%CO2 cut which would be fatal for oil industry.Author don't wish people's suicide,but wrong corporate.

**[ 2 ] : Climate Change Denial the essential cause of desperate.**

Even as is (1), the big wealthy oil merchant never accept the reality,but has been endeavoring to hide climate's serious reality by using their big money.

The global influence is so wide and deep,the global result is so serious.Note most of commercial media never refer **CO2-80%cut and Arctic methane catastrophe possibility**. Not only mass media,also website never refer,but except very few.That is, most of people never be known for emergent and serious reality.However the merchants had wellknown the climate fatality due to huge oil consumption by own corporate,so they has been in deep desperate toward suicide,whether it may be conscious or non-conscious.

Could you imagine what it is to be oil merchant who has been destroying the planet toward mass extinction ?.

(a) **Climate change denial**

[http://en.wikipedia.org/wiki/Climate\\_change\\_denial](http://en.wikipedia.org/wiki/Climate_change_denial)

Climate change denial has been associated with the **fossil fuels lobby**, the **Koch brothers**, industry advocates and **free market think tanks**, often in the United States

.....

Numerous authors, including several scholars, say that various conservative think tanks, corporations and business groups have engaged in **deliberate denial of the science of climate change since the 1990s**, and some, including the [National Center for Science Education](#), consider climate change denial to be a form of **pseudoscience**. Through a single organisation, between 2002 and 2010, conservative billionaires secretly donated nearly **\$120 million** (£77 million) to more than 100 organizations seeking to cast doubt on the science behind climate change.

'That the science was uncertain, that more research was needed, that the economic consequences of controlling ... would be too great, and that ... might be caused by natural sources'. Sound familiar? Fill in 'climate change', and you have a summary of the argument of those who oppose action on global warming.

**[ 3 ] : Military-Industrial Complex the essential cause of desperate.**

**As is defeated in reasonable logic, their exodus way is violence against the liability.**

It is **war business** that needs pervasive war in the world. Now in the world, **false flag wars** has been plotting at here and there in order to hide **climate collapse** the final problem. The main criminal is **oil-military industry complex in USA the reincarnated NAZIS**. Their following Hegel devil ideology is nothing but being against God (the order).

***Nation and people are those who should be exploited by nobility hereditary.***

***Perpetual war strategy by setting up enemy toward global hegemony winning.***

This is also an indication of insane of ultra egocentrism **without nothing care for many others**. First of all, American must recognize this serious fact. After all, this insane has been going on toward global extinction (their suicide due to climate failure accompanying massive others). The realization might be nuclear war between Russia and USA,

(a) **Injustice and violence are a co-body destroying an order.**

Those who don't understand **the logic** should not be placed in position liability.

*A contradiction caused by false, failure, lie is to cause system corruption at last.*

This is a theorem of logic which tell that a contradiction denying true causes **anything true**.

That is, supreme chaos (destroying an order) in which anything could be realizable (true).

Injustice and violence are challenging itself against an order.

(b) **Aim of Religion is to accomplish the order by {justice,truth,philanthropy}.**

The order is nothing, but all co-live together by {justice,truth,philanthropy} ≡ God.

Therefore, war is against God's teach, but except true own defence.

[ 4 ] : **A possible solution for intercepting nuclear war between USA and Russia.**

(a) **Your commander has been insane without ability on his top liability.**

Unless global nuclear war, then what would happen in the coming world ???.

It is nothing, but **extreme climate world** where many people are suffering in unprecedented confusions. Then what would happen in those who has been **climate denial** (the global establishments class with the oil and military industry (the imperial Rockefeller and their subs)). They would have become the complete defeater in **the climate liability**. Therefore it is them who has been fearing coming those days in near future. Their sin is nothing, but supreme one. Thereby, they might wish **early global nuclear war of suicide** to end this world before the days of complete defeating in the climate liability. This is an indication of insane of **ultra egocentrism without nothing care for many others**. They are so high pride that they never wish to be revealed their defeat in the climate liability.

(b) **Your liability is against the command.**

Coming nuclear war between USA and Russia would be result by the insane.  
Nothing righteous. So those who sane could not be tolerable.

(c) **Enforcing lawless society by police state-nization.**

Enabling nuclear war may be most difficult even in rogue USA. Then how to escape climate liability ?. Coming years would be era when elite would not take their fundamental liability to care people. But tyranny would began to rule nation with **police state-nization**

**Ferguson: No justice in American police state**

<http://www.presstv.ir/detail/2014/08/22/376158/no-justice-in-american-police-state/>

(d) **police state-nization without climate countermeasure is mere toward extinction.**

**Fact denial could be nothing, but destructive at last.** Even policemen could not survive under wrong government. Thus note that, in wrong government without climate countermeasure never can assure surviving of also military, police, and CIA of government men.

(e) **By anyhow, only climate fact accepting government could survive.**

Only righteous governments with climate countermeasure could enable surviving. Then the governments would admit climate fact, but be **not climate denial**.

Government who could not accept climate fact and would recommend suppression on people by police never can survive in coming climate collapsing world.

Both people and police-military men must consider this decisive fact.

**Above all, we must make massive global solidarity with unique truth.**

There is nothing way to win, but making emergent global solidarity.

At first, begin local, and deploy global at last.
