①**Simple, but Fundamental Dynamics of Bio-Molecule Reaction.**

Reference:*Fumio, Ohsawa, Precision Machines of Life, yomiuri science library, 17, 1987*

P185,: *Self Assembly* is a principle of automatic constructing of giant molecule by self gathering of each *subunits(parts)* toward constructing super molecule in sufficient matter feeding. Each parts is destined to bond with peculiar portion of a unique partner.

186: It's just like automatic production of a car by gathering a set of parts in box and **shaking & mixing it** toward just fitting and bonding with each others.

(1)**shaking & mixing it = Temperature = T**. Higher T is to break, Lower T is not to gather.

(2)supplement by author:

A super bio-molecular is assembled and bonded by key and lock(凸凹) with

electrical attraction force(in a catalysis). It can be "Off and On" by Temperature. Higher T makes off, while lower one on. Thereby mammal body temperature is controlled as **constant**.

(3): ②(c)→Higher concentration of the parts and lower temperature near at **wounded cell surface** is to promote reconstruction of VIRUS toward launching to cause hazard for many.

②**Invasion, Proliferation** to destroy cell, higher density toward **Re-bonding & Spreading**.

(a)Virus becomes possible to proliferate by being broken to two parts of **DNA(or RNA)** and the **Capsid**(a protein ball container of the RNA(DNA))in an invaded cell's higher temperature toward **explosive copying proliferation** of those.

②Prospection on the Ending<is it not seasonal,but lasting for long ?!!>

Now Author could not get decisive evidence, but circumstantial one by experts telling. Ordinal influenza is seasonal especially in winter and is to end in spring. It is contacting skin surface in cold & dry air that may enable virus invasion to mucous membrane in nose, and throat. Now also people in southern warmer region nation begin to be infected.

(1) *The new corona's " May ending " is a big miscalculation, more than 100 infected people in warmer Singapore .*

<https://headlines.yahoo.co.jp/hl?a=20200305-00000011-nkgendai-life>

The hot and humid Singapore just below the equator has more than 100 infected people. Singapore has a population of about 5.6 million. The infection density is quite high. In Singapore today, the temperature is about 26-32 degrees and the humidity is over 80%. The infection is spreading in a climate like Japan's early summer.

APPENDIX-1: The Awful Original Sin of Bio-Weapon Development by Japanese.

Unit 731 the Past History Record(Japanese)

<http://eritokyo.jp/independent/aoyama-unit731-wiki1.htm>

https://en.wikipedia.org/wiki/Unit_731

They developed bio-weapon by employing horrible cruel vivid foreigner prisoners body experiments in occupied China. After the war, their experiment data were transferred to US military (Fort Detrick lab) by exchanging no war-crime dealing. They even got ruling status in public medical research labs, university, health ministry, and drug makers in Japan. Many experts now are accusing such **public institutions** for their hiding of **true infected patient number** at this time by limiting PCR test. An expert told real infected patients is about ten times of the announced number..... Japanese might be destroyed both by Fukushima and Coronavirus due to the awful own sin of admiring and following Satan (=no truth, justice and care for others pain), but no **deep repentance**.

APPENDIX-2: A Report Disclosing Possibility of Immunodeficiency?!

<<Scientists from China and France have discovered the "HIV element present in the new coronavirus" announced by Indian scientists. As the result, they added that the virus may be up to 1000 times more infectious than SARS >> Significance of ignoring strong infectivity and potential for bioterrorism<Japanese→Google translator>.

<http://www.asyura2.com/19/kokusai28/msg/409.html>

Scientists in the Indian Institute of Technology have discovered that the new HIV virus has been inserted into the new coronavirus. In addition, Chinese officials have indicated that "some can not acquire immunity even if infected", the situation is in a new phase

<http://www.asyura2.com/19/kokusai28/msg/269.html>

Certainly at least now, new Coronavirus is characterized by **low dying rate** (few%). Many might be affected, though not become onset. A reason is **stronger metabolism** conquering ill (cell dying rate is smaller than cell's new generating rate is to cause superficial no ill, however they have been affected with virus). Those hiddenly affected would become onset when they become weakened by bad environment (strong fatigue, or stress unfavorable)

Due to the lower rate, also many think of that **once having gotten the immunity, corona becomes no fear any more !!**. Some might think so easily. However this could become dangerous. There are many reports that, very oddly, once affected and became onset, they recover frequently become once more ill. This fact is to cause **doubt on** immunity of the new virus. A web indicates (recommendation??) of early getting immunity toward own surviving.

Note this APPENDIX-2 needs strong reexamination.

APPENDIX-3:Face Mask could be effective against Coronavirus.

Usually face mask's aim is considered intercepting output of something harmful from patient(=mask hating).Of course professional orient one is intercepting input.Typical is military gas mask against chemical or bio-war.Following is entirely authors opinion,but not authorized.Thereby author could not insure you the effectiveness.

A cheap selling cloth mask could become to military gas mask by certain degree.

It is very simple.By pasting water wet thick cloth pad behind face mask, it could nearly be military one.

Because ,by deep wet,you could not breath<complete virus filtering>.

By nothing wet.you can easily breath<,but nothing filtering>

Thereby,certain degree of wet,it could be favorable filtering.

pad edge should be completely shielded by surface pressure of mask,if possible.

Author heard that by soap(surfactant)washing,virus invasion ability can be destroyed.

Thereby,this mask may be reversible by soap washing and sun light irradiation.

Strong Warning against Mask Hate Habit !!.

Due to the common sense of hate against mask,people in USA,or Europe will not wear mask.It is very dangerous against own-self and many others at this pandemic time,

From very begging,corona pandemic is bio-weapon war,against which all of you must take Mask as Protecting Weapon.It is strong obligation of all of us.

Note as for workers in dangerous zone by dense virus possibility,also eye mask may be necessary.→ complete protecting military suits style.

How to get Protecting Weapons ?!!.

We should call for nation and the makers those as wartime production & rationing !!.

It is weapon against the terribly dangerous war.

APPENDIX-4: The Demagogy on Corona Immunity.

Recent reports revealed awful and very insidious demagogy indicating that as for healthier people (especially low age and youth, etc), earlier affection would be a survival method by having got immunity. However, this would be very dangerous for own-self and many others. Because **long time immunity** for corona has not yet verified. It is told Corona has 4 trace of embedded **AIDS DNA the Immunodeficiency** <APPENDIX-2>.

*** addenda 2020/3/19. UK government withdrew from the Population Immunity Policy !!**

Scientists criticized also Sir Patrick Valence, chief scientific adviser to the British government, for saying that controlling the spread of infection would increase the country's population's immunity to the virus. More than 300 people have signed the accusing letter.

UK Coronavirus Policy in "Surrender" Address and Mass Immunity

<https://news.yahoo.co.jp/byline/onomasahiro/20200315-00167884/>

Controversy has emerged in the UK, as the UK government's basic policy has set a goal of converging the epidemic by establishing "population immunity" with the majority of people affected by the coronavirus.....The new coronavirus is yet unknown, and it is not yet clear whether long-term immunity will be established.

Once prince Philipp(UK) told, In the event that I am reincarnated, I would like to return as a deadly virus, to contribute something to solving overpopulation(1988).

<https://www.msn.com/en-gb/news/newscotland/uk-government-risky-herd-immunity-coronavirus-plan-aims-to-get-people-infected/ar-BB11bYHo>

Some argue that it is a "survival of the fittest" that puts vulnerable groups, such as the elderly, the vulnerable, and those with compromised immune systems, at much greater risk.

APPENDIX-5 : Strategy Strong Virus Combat Operation(China)

vs Insidious Population Immunity Survival(Japan,UK).

By UK's withdraw announcement, nation with the latter strategy become Japan only?.

<https://tanakanews.com/200316virus.htm>

As for what he told, above authors true intention may be upside down, but reality in Japan..

① Strong Virus Combat Operation(China)

<https://news.yahoo.co.jp/byline/endohomare/20200318-00168400/>

There is an **strong able leader** against bio-weapon war. Once they experienced the war against SARS. However their untold **terrible sacrifices** may be not small. 2020/3/18, they launched victory (funeral) fireworks, however operation the complete exterminating virus would be long time ! ???.

<https://www.youtube.com/watch?v=OuWQInYTgK0&list=RDqVm3GdOd2P8&index=4>

② Insidious Population Immunity Survival(Japan?).

Pragmatical UK Method against New Corona Virus.

<https://tanakanews.com/200316virus.htm>

Note odd Japan's fundamental national functions after the war has been being indirectly controlled by **invisible US military**. This is an experiment lab for them (**APPENDIX-1**).

Now almost nations the infected declared National Emergency, but only Japan do not !.

Even author a Japanese could not know what really happen in Japan.

Coronavirus: Up to 70% of Germany could become infected - Merkel

<https://www.bbc.com/news/world-us-canada-51835856>

Then note their estimation is horrific enough !!!

Nation Population × Infection Rate (~0.7?) × Mortality (0.02??) = Number of Dead ? !

Example Calculation for USA.) 300million × 0.7? × 0.02?? = 4,200,000 !???

If it is real, a hell would have been realized with supreme chaos causing another disasters.

Once again, this problem is to be discussed in APPENDIX-7

APPENDIX-6 : Military Protection Suits Effectiveness was Proved.

<https://www.jiji.com/jc/article?k=2020031300717&g=pol>

None was infected in strongly infected field works. Japan military received a dispatch order on January 31, and a total of approximately 4,900 soldiers, including reserve SDF ones, were engaged in medical assistance and other services at the infected Diamond Princess cruise ship and temporary lodging facilities for returnees who had been infected.

Military use needs skill by some know-how, however it would be available also in non-military field without difficulty. Nation must distribute those to people in necessity.

*Many the professional public officers of health ministry were infected at there.

APPENDIX-7 : A Fashion Evolution against Corona Virus.

Lockdown strategy could be temporal, but can not last long. Recovering business & commuting needs mass protection working suits. One piece and reversible in washing are favorable. [How to make the suits comfortable ??](#)

APPENDIX-8:Bottomless Abyss,or Not ??

Logically,there are two possibility of true or not as for what PM Merkel told.

①Is the virus designed toward global depopulation ??

Coronavirus: Up to 70% of Germany could become infected - Merkel

<https://www.bbc.com/news/world-us-canada-51835856>

Then note their estimation is horrific enough !!! ,they might be wise Alarmist.

Population300million × Infection Rate(0.7?) × Mortality(0.02??)=4,200,000 !?? dead ? !
--

It would be depend on virus spreading speed,if once medicare catastrophe,number of mortality could not be 0.02,but higher rate,which would turn to cause social catastrophe.

It may be the possible coming world prophecied by as **Operation EndGame**.

*For the New World Order, a world government is just the beginning. Once in place they can engage their plan to exterminate 80% of the world's population, while enabling the "elites" To live forever with the aid of advanced technology.For the first time, crusading filmmaker ALEX JONES reveals their secret plan for humanity's extermination: **Operation ENDGAME**.*

<http://netattic.net/unbelievable/operation-endgame/>

<http://www.youtube.com/watch?v=x-CrNliiZho>

*Also **Arctic Methane catastrophe risk** would cause **global extinction by scientist's silent**.

②It would depend on how to decrease infection rate !!

If not true,it would be not becoming hell by certain degree of the **infection rate**.

Thereby,how to decrease the rate is highest priority problem in the world.

(1)Primitive strict lockdown strategy is effective to intercept virus spreading.,

however it can not lasting for long time.**Famine** is waiting at there.

(2)**Restarting Economy Activity** is inevitable to save our minimum life in **the Infected environment**.,which may also restart infection diffusing once again.

(3)Complete exterminating virus would take long time(how long ???).

How to kill virus??,are there **light irradiation killing method** without drugs ?

(4)Possible option may be restart business with **protection suits with various protection tools**.

This is **bio weapon wartime regime** with **rationing for foods and medicare,etc**.

People must not make long procession at supermarket with empty shelves.

(5)**Prompt Global Solidarity toward Bio-Wartime Strategy**.

Even under nation border lockdown,at least, minimum international import and export flow can not be stopped for saving our minimum life for the time being.In order to make the high effectiveness,**bio-wartime technology and products** must be developed,produced, and distributed by international cooperation with decisive common fact recognition.

APPENDIX-9: Light Irradiation Virus Killing Method without Drugs.

Coronavirus: China disinfects buses and elevators with ultraviolet light

<https://www.futura-sciences.com/sante/actualites/coronavirus-coronavirus-chine-desinfecte-bus-ascenseurs-ultraviolets-80048/>

This is very easily applicable at every **community fields** where people gather by electric power. Note this method kill virus especially in most dangerous both **Airbone and Surface ones**. This is strong weapon against the virus !!.

Caution that stronger ultra violet light is hazardous to eyes,so you should take grass if necessary..Note strong ultra violet light(burning skin !) is also contained sun light in fine days.Contact the maker and eye doctors.If possible, everyone could play and work in stronger sun light especially in fine days?!

APPENDIX-10:A Real Data on Positive,but without symptom.

Half of the asymptomatic positive and mild cases had shadows in their lungs.

Self Defense Force hospital case;;2020/03/24 13:54

https://news.tv-asahi.co.jp/news_politics/articles/000179859.html

The Japan Ministry of Defense summarized the cases of the new coronavirus patients accepted at the SDF Central Hospital, and found that half of the asymptomatic positive and mild cases had shadows in their lungs. Minister Kono: "Approximately half of asymptomatic and mildly ill patients have abnormalities. One-third of asymptomatic and mildly ill persons who have abnormal CT findings have experienced symptoms after one third. It got worse." The SDF Central Hospital examined 112 patients infected with the new coronavirus on the cruise ship Diamond Princess. Of the 104 patients who gave their consent, the symptoms were summarized, and about 67% had abnormal shadows found in the lungs on computed tomography (CT). Half of the initially asymptomatic and mildly ill patients also had lung abnormalities, of which about one-third had subsequently worsened. According to the Ministry of Defense, the 112 cases are the largest in Japan, and the findings have been posted to overseas medical journals.

The two third of positive did not get worse. They should be monitored after long time in order to get seriously important data on **the immunity on Corona virus.**

PS-2:Brazil's Jair Bolsonaro says coronavirus crisis is a media trick

<https://www.theguardian.com/world/2020/mar/23/brazils-jair-bolsonaro-says-coronavirus-crisis-is-a-media-trick>

In 2020/3/27, Japan TV told the president referred now Japanese are enjoying cherry blossom viewing party. Also PM Abe's wife is told so. Very oddly, Japan government will not declare national emergency. Many people still now are commuting by rather crowded train in morning and evening. Some young college students is told to held crowded and noisy shouting party. What is going on ??? Now Italy, Spain, Iran and Network, etc has been facing bottomless abyss. What is going on ??? Authors confidence is long time combatting against Corona-War with armament of protecting suits and with virus killing light. A lockdown strategy can not be for long time .

Author had been stolen goggle by twice times by ape.

APPENDIX-11.Lockdown the 1st Strike Strategy. <2020/3/28>

Also author strongly support the **Lockdown Strategy** employed all the nation.

You must follow **home containment order** by government. Because..

(1)It is the Most Rapid,Strong,but Simple Strategy toward **Minimize Infection Scale...**

Ideal **home containment** realize minimum infection scale at each home and to **detect and treat such patients** within **the containment order interval**(3 weeks or more ??? to onset Infection, if positively infected)

(2)As is seen in **Wuhan in China**,they had succeeded **Virus Confinement** by very stronger lockdown strategy as **a military operation**. This is a Strong Hope for all to Win.

Now any nations except China,,none succeed to win in the world.

(3)Even as though,Wuhan still has been keeping the lockdown strategy in some facility.

<https://edition.cnn.com/2020/03/24/asia/coronavirus-wuhan-lockdown-lifted-intl-hnk/index.html>

(4)It may be due to those who are **invisibly positive,but will not onset and has dangerous possibility to cause second infection wave once again !!**.→ **the IMMUNITY PROBLEM.**

9days long take to be negative from positive(by natural immune).

(5)This fact indicates **complete winning operation** must take long interval.

U.S. Virus Plan Anticipates 18-Month Pandemic and Widespread Shortages

<https://www.nytimes.com/2020/03/17/us/politics/trump-coronavirus-plan.html>

(6)Such **long term home containment** would be impossible to save our minimum life

In order to save our minimum life,economy and social activity could not be stopped

(7)**Conclusion(wartime regime)Weapon Production and Rationing**

Thereby **our economy| activity in the infected field(the battle field)** is to be inevitable.

Then we can not help;but employ **protecting goggle(suits)with virus killing apparatus.**

Now the world must prompt **wartime regime with weapon production and rationing,**

Making long procession at market is dangerous and waste of time.Government tickets for foods,protecting goods etc would be effective and **necessary to stop inflation.** .

Also author strongly hope China,US and the world would go **cooperation to really WIN.**

If fail,bottomless abyss would be waiting on. If we could have gotten success,another supreme battle field has been waiting on. Thereby global people must rapidly perceive and make consensus the fact toward global unite.

APPENDIX-12:Spreading Vegetable Seeds to Any Where Vacant Land(Home Planter).

Experts predict I long time(~18month??)to settle Corona crisis.Then note crisis would not only be Corona,but we should be cautious also on climate worsening toward causing **agriculture collapse**. Then what could be the countermeasure for **many of not the farmer??**.

2019 was a brutal year for American farmers

<https://www.vox.com/2019/12/27/21038054/american-farmer-2019-climate-change-agriculture-flood-trade-war-corn-soy>

Corona would cause **drastic collapse of BUSINESS as USUAL** with generating massive jobless people.As for such them,also author wish some of they would become instant farmer by emigrating to country regions.They could make self-sufficient life with cooperators.

Today,author tried to spread vegetable seeds around very small vacant land at near home.

(1)Pumpkin(made in China) almost nothing hassle to cultivating.

(2)Vine roled beans(China) almost nothing hassle to cultivating.

(3)Spinach(Solomon made in USA) . This is 1st trial,what would happen ?

(4)Bitter gourd(China).This is 1st trial,what would happen ?

*Once Italian Pediatrician noticed cancer disease is due to **mold**,so he tried to employ **potassium** in treatment.It is told that he was expelled from medical association

If possible,many cancer patients should be expelled from hospital by bitter gourd and prepare vacant beds for rapid increasing of Corona patients.

It is told people of **severe hot** island Okinawa take it with pork to get stamina.

(5)**Seeds Business**(another type of weapon merchants ?!!)

Author became terrified **the price** and nothing domestic products in his region(Japan).

From 1994 to 2010, seed prices increased drastically due to a consolidation of the commercial seed.

Pharmaceutical Business may be another type of weapon merchant.

APPENDIX-13: Possible Two Ways after Decline of Infection Expansion.

There found good indications of infection decline by **Strong Lockdown Strategy** in China the 1st attacked country by the virus and Italy the most seriously damaged country. Then we encounter fundamental question what would be after Decline of the Infection Expansion ??.

① Once again, we could have recovered **Business as Usual** by anyhow in a time.

② We could not have recovered the **WORLD as Usual** any more due to **Something**

Decisive Change <the logical negation of ②>.

Author is not expert on combatting virus. However global website will not discuss from view that the Corona virus is **man-made bio weapon with malicious will**.

As a weapon, it must have **something decisive aim** designed by **the PLOTTER**.

Big drop in China coronavirus infections

China says there were 40 new confirmed cases of coronavirus on Sunday 8 March, compared to thousands a day at its peak.

<https://www.aljazeera.com/programmes/newsfeed/2020/03/big-drop-china-coronavirus-infections-200316110905999.html>

Italy's death toll rises above 7,000

— but the number of new cases declines for the 4th day in a row.

<https://www.cnbc.com/2020/03/26/italys-new-coronavirus-cases-declines-for-4th-day-in-a-row.html>

① Once again, we could have recovered **Business as Usual** by **Anyhow in A Time**.

This may be the most view of global people now. After all, **fundamentally no change of the world even with having experienced big victims**.. Now the infection wave has reached to advancing nations in Africa and Asia, etc the vulnerable countries. Thus the complete settling would become very troublesome. However assumption at here is the ending to recover **Business as Usual** by **SOMETHING HOW**. Then what is the aim of the PLOTTER?.

A possible answer is **their defeat** by not realizing world they want. The virus was a temporal damage to the world without changing global regime and population.

That is, the Corona virus is to be an ordinal full the temporal disaster.

***Immunity**(=antibody) is gotten by natural infection and vaccine the man-made one..

***Antibody** is defencig cell targeting specified virus, which was learned by past infection.

Coronavirus 2019-nCoV: Healed people may not develop immunity to the virus

<https://trustmyscience.com/personnes-gueries-pourraient-ne-pas-developper-immunite-contre-coronavirus/>

in the case of the new 2019-nCoV coronavirus, virologists warn that infected people who have recovered **may not have developed this immunity**, as the antibodies do not persist long enough in the body.

②We could not have recovered the WORLD as Usual any more due to **Something Decisive Change**<the logical negation of ①>.

(1)This gloomy assumption is to relate with strong damage of the virus such as chronic infection circulating, **but not settled in a time**. toward depopulation. If **immunity** of us is normal enough to completely destroy the virus in a time, this assumption=② is to be violated. →①

(2)**Very Insidious Long Incubation Period of AIDS(HIV)toward Mass Infection.**

Once **AIDS(HIV)** the most malicious man made weapon was designed to destroy **immunity**. Especially **AIDS incubation period** is said to extend for decades. In the periods, so called virus carriers without onset has possibility to infect many people. However it is not airborn propagation, but limited body fluids one, so it could not realize global depopulation. Now it is told effective drugs were developed and used to patients.

(3)**The kernel problem may be Immunity against Corona Virus.**

(a) If immunity of us is normal enough to completely destroy the virus in a time, **we could win !!**

This is the same as ordinal flu. This indicates also possibility of developing the vaccine to get antibody (=immune cell attacking virus).

(b) **If not, the problem becomes troublesome !.**

I : Minority of Silent Virus Carriers with Infection Difusing Possibility

(How much **no antibody forming percentage in people ??**).

Now many fear this serious problem **after releasing Lock Down Regime**. In this case, it is that **immunity can not be complete to destroy virus by some percentage in people**.

Keeping Wartime Regime against weakend, but chronically infected field.

① Thus **virus detecting test** for all must be kept after releasing lockdown regime (to isolate and cure silent positive). It is told **antibody detecting test** is available to verify negative,

② people who cannot help to contact others must take **protecting goggle in crowded place**

③ keeping Disinfection Work at all places with infection possibility

*Ultra violet irradiation light is available. China bus had already been implemented.

II : Fatal Contradiction of "Herd Immunity Strategist".

① They accuse **lockdown strategy** become vain after the releasing due to **silent carriers** who could cause **2nd infection wave once again**. Then being of silent carriers means **no antibody forming** by some percentage in people, this is to violate **herd immune principle the total antibody armament**. To tell from the principle, there must be **the fundamental report** globally distributed that verify **long time stable forming of antibody** against the virus by the highest percentage.

At least for author,he failed to find.

Here's Why Herd Immunity Won't Save Us From The COVID-19 Pandemic

<https://www.sciencealert.com/why-herd-immunity-will-not-save-us-from-the-covid-19-pandemic>

*All of this is simply nonsense. Herd immunity without a vaccine is by definition not a preventative measure. **Herd immunity** is an epidemiological concept that describes the state where a population – usually of people – is sufficiently immune to a disease that the infection will not spread within that group. In other words, enough people can't get the disease – either through **vaccination or natural immunity – that the people who are vulnerable are protected.***

APPENDIX-14:A Possible Cause of Immunity Incompleteness.2020/4/1,23

CORRECTION:

Corrected Version.2020/4/21

The most serious problem **Immunity Incompleteness** is beyond authors now investigation ability.Citation on “*strong bonding*” is here.

2020/4/23:APPENDIX-14:A Possible Cause of Immunity Incompleteness.2020/4/1

Spike and receptor bonding interaction is not optimal. → *optimal to be strong*

Coronavirus bond with ACE2 at almost organs is strong to cause various painful symptoms.

(1)**ACE2 Location within the body**

https://en.wikipedia.org/wiki/Angiotensin-converting_enzyme_2

Now it is not clear the strong bonding is a cause of Immunity Incompleteness

(2)**Citations on the Strong Binding**

<https://www.biorxiv.org/content/10.1101/2020.03.30.015891v1>

We find that the RBDs of the spike protein of SARS-CoV2 are highly optimized to achieve the strongest possible binding interaction with ACE2 which is consistent with its enhanced pathogenicity.

<https://www.biorxiv.org/content/10.1101/2020.03.30.015891v1.full.pdf>

We computationally assess that SARS-CoV2 outcompetes the human ATR1 surface receptor protein to preferentially bind the human ACE2.

Molecular Mechanism of Evolution and Human Infection with SARS-CoV-2

<https://www.ncbi.nlm.nih.gov/pubmed/32290077>

It was found that SARS-CoV-2 binds ACE2 with a higher affinity than SARS-CoV, which may partly explain that SARS-CoV-2 is much more infectious than SARS-CoV.

Here's why the new coronavirus is so good at infecting human cells

<https://www.livescience.com/why-coronavirus-attaches-stronger-human-cells.html>

Coronavirus has a compact "ridge" that allows it to attach more strongly to human cells

(3)**"Strong Bind "agrees with following phenomena<authors opinion>.**

(a)As everyone had known well,the stronger infection ability in time and space.

→ Less density air bone could cause the ill after long time proliferation.

Above may be the design aim as bio weapon.

(b)Many patients tell many variety of strong pains at almost organs in body.

The Receptor of ACE2 Location is most of organs within the body

https://en.wikipedia.org/wiki/Angiotensin-converting_enzyme_2

This is non expert authors view, Maybe the experts have known this fatal fact on Covid-19. This may be a strong implication of **designed bio-weapon**. Following original article criticize such conspiracy. **But the fact may be upside down !!**

(1) An Awful Feature of COVID-19.

how to infect cells?. When coronaviruses infect animal cells, they use proteins called "spikes", which look like broccoli heads, to bind to receptors at the "gateway" of the cell and invade the cell to proliferate in it and destroy it at last. Experiments have shown that the novel coronavirus binds to the angiotensin converting enzyme 2 (ACE2) receptor in human cells, but this bonding interaction is not optimal.

<https://headlines.yahoo.co.jp/article?a=20200331-00010000-nknatiogeo-sctch&p=3>

the original article→Japanese article→English by Google translator.

(2) Spike and Receptor Bonding.

A super bio-molecular is assembled and bonded by key and lock(凸凹) with **electrical attraction force**(in a catalysis).

It can be "Off and On" by **Temperature**. Higher T makes off, while lower one on. Bonding by **key& key hole is universal** one in building super protein molecular.

(3) the process summary: How to Make and Fight in Antibody !!

https://www.obunsha.co.jp/pdf/support/9784010340004-p130_147.pdf

- ① **Dendritic cells** the virus police arresting to eat and excrete virus mark.
 - Encountering virus→eating and digesting in Dendritic cells → output antigen presentation
 - ② **T cells** the Messenger into missile maker and the launcher(B cells)
 - helper T cells (virus mark messenger) → **B cells** (memory & production)
 - ③ **B cells** (read the virus mark and memoy →production) → antibody release
- *memory=lasting immunity ability for a time?.

④ The Battle Field of the Antibody:

Antibody-Antigen Bonding → elimination of lysis and aggregation detoxification

<key & key hole bonding>

⑤ *but this bonding interaction is not optimal.*

As for the antibody cell (another receptor), this fact is too serious to recognize attacking target mark of the spike (=Antigen). It is so to say, the decisive our weapon is rather trouble.

This is to cause the incompleteness of immunity ability in Covid-19.

⑥ Not narrow tuning, but wide one ???

Infection efficiency may be lower by the bonding incompleteness. Or it might allow to bond with not ACE2 the specified receptor, but with something similar to ACE2 ???.

⑦ *Now many doctors at that hell hospitals complain rapid ill worsening in some case..*

However once infected, maybe,,, proliferation intensity is stronger by the design.

APPENDIX-15:Herd Immunity Strategy Nations would become Hell?!

Safe population infection(by vaccine or **infection with safe recovery**)must be assured.

But we are looking unprecedented hells of not safe recovery patients in many nations.

(1)***Here's Why Herd Immunity Won't Save Us From The COVID-19 Pandemic***

<https://www.sciencealert.com/why-herd-immunity-will-not-save-us-from-the-covid-19-pandemic>

Herd immunity without a vaccine is by definition not a preventative measure.

(2)***About Immunity***

<http://kansen.erc.pref.fukui.jp/ih632004.htm>

Viral Infections	
Life long Immunity	measles, chickenpox, mumps,
Few Months to Years	Polio, Influenza , Dengue
weak immunity, few reinfection	Hepatitis B virus, parrot disease
Immunity hardly established	Herpes, Cytomegalovirus infection

In recent years, use of powerful antibiotics has become more frequent, and the time between the onset and recovery of the disease has been shortened. In some cases, recovery may occur without sufficient immunity. In addition, when it mutates like influenza virus or Shigella, it changes the type of serum and makes immunity difficult to work.

(3)**The different view of slow & quick **mutation rate**,which do you agree ?!**

The coronavirus isn't mutating quickly, suggesting a vaccine would offer lasting protection

https://www.washingtonpost.com/health/the-coronavirus-isnt-mutating-quickly-suggesting-a-vaccine-would-offer-lasting-protection/2020/03/24/406522d6-6dfd-11ea-b148-e4ce3fbd85b5_story.htm

Mutation rate of the virus enable a single vaccine,rather than new vaccine every year like the ful .

How Covid-19 immunity testing can help people get back to work

We need to find out who has the antibodies to the virus.

<https://www.vox.com/2020/3/30/21186822/immunity-to-covid-19-test-coronavirus-rt-pcr-antibody>
SARS-CoV-2 is also a new virus, so researchers aren't certain how long immunity will last.

*The virus could mutate and render past immunity ineffective, although scientists have found that **it is mutating slowly**, indicating that the protection from a past infection is likely to be effective for a while.*

(4) Dangerous implications ?!

The new corona mutates every 15 days .Does it turn into a ferocious virus?

<https://headlines.yahoo.co.jp/hl?a=20200401-00000031-nkgendai-life>

Although harmless, it is surprising that it has been mutated in as few as 15 days.

said Shin Samon, a graduate of Harvard Medical School and a medical doctor.

VIRUS MUTATION.

When a virus is multiplied (proliferated), it replicates the gene. At this time, errors such as a slightly different gene sequence may occur. For example, if there is only one place, the nature of the virus will not change. So far, the new corona is harmless without major errors

RNA viruses and the Mutations

http://jsv.umin.jp/journal/v55-2pdf/virus55-2_221-230.pdf

HIV-1 genes mutates more than one million times the speed of DNA virus and the Iirus gene.

.....

RNA viruses that proliferate actively in nature incessantly alter genomic information through mutations. Get Changes in none information often lead to changes in viral immunosensitivity, drug sensitivity, cell tropism, and host range. It may cause a decline in preventive and therapeutic effects and cause emerging and reemerging infectious diseases. To deal with this "moving targets", Information about changes in the genome and proteins of the virus is essential.

Can You Be Re-Infected After Recovering From Coronavirus?

Here's What We Know About COVID-19 Immunity

<https://time.com/5810454/coronavirus-immunity-reinfection/>

One study conducted by Taiwanese researchers found that survivors of the SARS outbreak in 2003 had antibodies that lasted for up to 3 years—suggesting immunity. Hui notes that survivors of Middle East respiratory syndrome (MERS, which is also caused by a virus related to the one that causes COVID-19) were found to last just around 1 year.

<https://www.france24.com/fr/20200327-coronavirus-le-covid-19-peut-il-frapper-deux-fois-la-m%C3%Aame-personne>

Up to 10% of patients who leave health centers in Wuhan after being tested negative for Covid-19 then appear to be infected again, reports the South China Morning Post. This is not the first time that cases of reinfection have been reported for this virus. But for scientists, the assumption of a virus capable of hitting twice is very unlikely.

Life after lockdown: has China really beaten coronavirus?(3/23)

<https://www.theguardian.com/world/2020/mar/23/life-after-lockdown-has-china-really-beaten-coronavirus>

*Critics also question why recovered patients who retest as positive are not counted. Data from quarantine centres in Wuhan showed that the possibility of **recovered patients testing positive again was between 5% and 10%**, according to the state-run Global Times. Officials in Hubei have said those patients would not be recorded as new confirmed cases because they had been counted previously.*

Voices of doctors and nurses who experienced "hell " at the forefront of Corona-Wuhan

<https://diamond.jp/articles/-/233616>

However, when I arrived at Wuhan and entered the scene, I felt a sense of mission.

Because the Wuhan people saw our medical support team as if they were seeing the "God of Salvation.".....

The spread of the new coronavirus was too harsh for Chinese doctors and nurses. This time, many doctors at hospitals in Wuhan say that they want to quit the doctor after this corona riot.

This must be a deadly problem of also us all not nurse and doctor."To do something decisive with a sense of mission or not to do without it".Note a crisis is also a chance to establish something decisive Let us think of those and act !!

APPENDIX-17:UNIVERSAL BASIC INCOME(BI) 2020/4/6

UK proposed **UNIVERSAL BASIC INCOME(BI)** to overcome the sudden livelihood collapse.

<https://www.chroniclive.co.uk/news/north-east-news/universal-basic-income-coronavirus-payments-17953477>

Note this is substantially **not to increase company tax**,because company had already paid tax as same amount of UBI in salary higher than UBI.**UBI for Jobless people rate=Q~10%** must be considered as dependent family member increase by rate Q.(4;5→4.1;5.1).

It is so to say an **Universal Sharing the Pain**.

http://777true.net/the-convergence-to-genuine_J96-BASIC-INCOME.pdf

Under the regime with UBI,**any more,people will not worry fatal livelihood collapse** in facing any change.This fact is decisive to ease changing regime toward final survival !!!.

***In the Deadly Economy Hospitals,we must decide business left or not !!**

In facing **structural change** .**annihilation and creation of old and new enterprise is market principle(mechanism of demand and supply)**.While keeping livelihood of people should be invariant.If the Corona immunity is troublesome,the settlement would take long time to cause the structural change in economy regime. Some business of no demand would not recover,as for which we should not pay anymore,but we should pay **new business of the demands**. Thereby the long term anticipation needs the accuracy.

APPENDIX-18:Virus Testing for All People is the Key to its Eradication

① **Do try this at home**(2020/3/28):

how one Italian town fought coronavirus,The evidence is clear:

Mass testing for the virus is the key to its eradication - and to saving lives.

https://www.aljazeera.com/indepth/opinion/home-italian-town-fought-coronavirus-200326110756424.html?xif=:utm_medium=article_page&utm_campaign=read_more_links

Full testing is the only way in which countries will gain a clear picture of the actual numbers who have the virus and, therefore, how many people risk infecting others without even knowing they are doing it.

In the absence of a vaccine, the identification of all carriers (both symptomatic and asymptomatic) appears to be the most effective way to control the pandemic.

APPENDIX-19: Prompt Weapon Production as Wartime Orders

① Medical Facilities and Equipment for Critically Ill Patients.

As you know they are now combating to accomplish by anyhow. Now some regions are combating also in burying many the dead Author is not medical expert, but engineer, so following are **engineering view**, but exception is only ②.

Now without the vaccine, **possible engineering countermeasure of the virus containment** may be summarized as follows.

② Easy and Rapid Response Test Tool.

A decisive key toward intercepting spread of infection is **detecting the positive, but without symptom**. The complete method is testing for **All People <APPENDIX-18>**.

Toward Complete Eradication of the Virus after the Lockdown regime releasing, this is also decisive. Thereby **easy and rapid response test tool** is decisive in long term view..

③ Protection Goggle (face mask) and Suits.

Even in **infection continuing fields**, some business activities (medical, foods, energy, consuming goods general, ...) can not be stopped, but kept. Then **protection goggle** (face mask, suits) becomes serious.

Note now is not peacetime, but wartime, people should exchange habits of wearing ordinal well behaved suits, to something protecting one.

*This is authors opinion, but authorized one. So far authors survey, virus infection become possible through **mucous membrane in nose, throat (BREATHING) and eye**. But not in **ordinal skin**. The latter has no so called **receptor** catching the virus. Thereby fundamental protection is limited only in **face (BREATHING)**. However **virus on wear** is always dangerous to propagate to face (mucous membrane) by somehow (hand touch). Thus the professional employ **full protection suits**. However, rather weak infection field, protection might be possible to limit only face. Once author saw a video of Chinese female guide with **smart full face goggle**, who assist many doubtful guests. However their suits could be infected, so **it become dangerous when they exchange their wear. Sterilizing changing room and safety wear handling are necessary**.

④ Sterilizing by Ultraviolet Irradiation <APPENDIX-9>

This is extremely serious to keep safety in public commuter train and bus. Now, fungicide spraying become general in any nations, however can those be effective to **air-borne virus??**

APPENDIX-20:Exposing Explicitly the Virus Developer ?! 2020/04/13

In this world,there is none,but the few who can and execute it !!!From this deadly fact, we could find better way to combat many mysterious feature of the virus(the aim of design) !!

[Biohazard] Wuhan Corona was everything done by University of Tokyo? ?

→ "The University of Tokyo was just a servant of the Illuminati!",2020/4/1

<https://quasimoto3.exblog.jp/240217741/>

How was this virus made and spread?

The UK-based Bilbright Institute has applied for a patent in the United States, and researchers in the *Kawaoka Laboratory at the Medical in University of Tokyo* are conducting the research. The truth is that viruses was made by *British, American, and Japanese researchers* and distributed to China. A professor of a Canadian researcher who knew that too much was killed. Harvard Professor Reverse in United States has been arrested.

By such awful sin,also we Japanese could not help,,but be killed and buried in coming Hell.

How to make researcher's mind motivation toward developing the deadly virus?

Something strong motivation is necessary to develop the demonic weapons by the protagonist with their subordinate researchers. The highest possibility is their strong obsession on global depopulation. They might consider that in order to evade *climate collapse*, instead 80% CO2 reduction, but *80% global depopulation* is necessary to save the world?. This might reduce their mind load of the awful sin of killing massive people ?. Or their another strong obsession of *Eugenic* ?? . Once they had executed *Holocaust* against Jewish People !!

They named humans as *Malta* and conducted biological experiments and biological dissections, repeated trial and error, and aimed to develop more powerful *bacterial weapons*.

ROCKEFELLER AND MASS MURDER

http://www.tetrahedron.org/articles/new_world_order/UN_Rockefeller_Genocide.html

APPENDIX-21: Decision toward Long Time Bio-Wartime Regime!!!

By High Possibility, the World Must Take the Most Severe Strategy.

By following serious report, possible our option would have been determined !!. Less acquiring immunity means no effectiveness of vaccine. It can't help, but be long time combat against Coronavirus by taking troublesome social confinement^③ with perpetual detecting and isolating infected people by testing toward the virus eradication. This fact is to determine

- ① Nothing Sufficient Countermeasure would cause Massive People's Dying in a short time. The disastrous result could not help, but propagate toward following rich nations again.
- ② Sufficient Countermeasure would cause something different society from yesterday. Due to ①, rich nations must take both responsibility domestic and abroad simultaneously.

If we would have failed, global population would have become few %?!!!!!

Why collective immunity cannot be the key to deconfinement

<https://www.numerama.com/sciences/618840-pourquoi-limmunité-collective-ne-pourra-pas-etre-la-cle-du-deconfinement.html>

President Macron affirmed, during his speech of Monday April 13, that the first analyzes showed that a collective immunity was largely insufficient in the short or medium term.

2 TO 3% OF COLLECTIVE IMMUNITY IN WUHAN?

This data is rather insufficient for the accuracy due to less statistical sample number. However this result is clearly far from establishing herd immunity (more than 70%).

③ From primitive Social Confinement Strategy to **Full Armament One by Protection Tools.**

It is clearly due to a reason that by no total testing, we can not see who are infected. Thus for the time being, social confinement is unique and strong to intercept infection expansion. It must be severely kept until we could have established alternative ways.

(1) **Prompt Mass Productions Testing and Protection Tools** are now decisive

(2) Rapid Research & Development on Protection and Testing Tools by global endeavoring

APPENDIX-6: Military Protection Suits Effectiveness was Proved.

APPENDIX-9: Light Irradiation Virus Killing Method without Drugs

Ultraviolet Irradiation is effective to kill air borne and on surface Coronavirus, which is available for commuter train and bus with sterilizing air ventilation also by the irradiation.

APPENDIX-18:Virus Testing for All People is the Key to its Eradication

Now PCR test is best,however it takes time and cost.This is very hard problem !

(3)Optimized Regime Design on **Economy and Medicare** with care on **Coming Wild Climate**.

Medicare system design must be reconsidered toward long period and large scale.

Now many are worry **Foods Supplying** ! ,Some warn climate without dust pollution,also which enhance global heating toward destroying social infrastructure & foods supply.

Then **cloud making machine** could intercept heat.This must be urgently realized.

<http://777true.net/Rapid-Launching-Climate-Engineering-could-Save-the-World.pdf>

(4)Developing alternative Culture in Coming New Regime.

(5)**End of Business as Usual.**→ **your home task !!**

Thus we could not help,but admit that **we altogether** become poor suddenly and simultaneously.In the containment home,we altogether imagine and analysis **coming optimized society**.This is the most precious chance time for us altogether.

(a)At first,you try to produce many many random ideas.

(b)At second, you examine and modify each idea to **become best**.

Then don't forget our semi-final aim is to eradicate virus from our planet with Least Victims

Then also don't forget our final aim is to eradicate Climate Collapse with Least Victims

(c)Then **global website competition** is recommended.Someone should set up special sites for it. Someone wealthy should present the prize.

APPENDIX-22:Quick Virus Test Instruments. 2020/4/23

Toward neatly, but vastly Eradicating Coronavirus, massive and quick, but low cost test instrument is decisive. <But it is not that author can evaluate each of those>.

Virus test for use at home

https://www.dtu.dk/english/news/Nyhed?id=241c18a7-d5c6-4845-881c-18224abcc4e7&utm_source=newssubscription&utm_medium=mail&utm_campaign=www.dtu.dk-News-2020-04-22

The device is a kind of mini-microscope that can analyse a drop of blood and give a picture of how different types of white blood cells are distributed, thus establishing whether the patient's immune system is fighting an infection. You simply take a prick blood sample—which is sucked into a chip—and the analysis result is ready in 30 seconds.

This is a simple and inexpensive test device not detecting the Coronavirus itself, but detecting whether the patient's immune system is fighting an infection, or not.

If yes, patient needs urgent PCR test.

APPENDIX-23:Basic Income is decisive Drug to Treat the Deadly Livelihood.

New Corona mutation rate is higher than old.,which is to cause early settlement difficult?!

The detail is to be surveyed in **APPENDIX-24**.This deny recovery of **Business as Usual**.

Now many people are facing drastic economy decline causing stronger fear than that of infection possibility ????.As for them,**the worst case scenario** is unlikely to admit.This attitude may cause another coming more disaster.Possible option is logically opposite two way {**①②**}as follows.

①No Recovery of Business as Usual by any more.

Admitting the worst case scenario is to change the whole regime.Because **long lasting combatting against virus** can not help,but minimize the economy,which turn to vast economy disruption with many jobless people in many business,but except **the Essential Ones**.

However once having admitted the worst scenario,economy design is to consider only keeping the essential business with caring massive **jobless people**,but **not their business** . Note **finance for saving the dying Business** is far larger than that of jobless people.This is not only problem of the expenditure vs effectiveness,but also of keeping **social stability in crisis**.Then people must admit **becoming equally poor by altogether at once**.

*This agree with religious principle as for "*people must **cooperative to live in the crisis***".

*This agree with anticipation on **long years lasting for combating the virus**.

*This agree with market principle as for "*demand and supply as for **dying business***".

②Recovery of Business as Usual in A Time.

Economy design is to **consider all the business as usual**.Now some of those are facing drastic decline and they are now demanding enormous emergency financial support from government.If the virus riot had been settled in a time by any how,those declined business would recover to business as usual as time goes on.This may be needs **success of vaccine to accomplish "stable "herd immunity !!**.←This is the kernel point of the debate at now !!!

The Failure would cause more Disasters in coming long years !!

Thereby,the Optimism now is insidious to hide and cause coming 2nd wave attack.

If not,the financial support would have been **big vain(big debt no repayment)** to cause following financial support from government more difficult.Note"**the if not**" means still lasting the virus riot.Then the loss is not only finance,but also mental and health power of people in **more confused society**.After all,this could not help,but become to strategy=**①**.

③ Corona Economics(Basic Income=BI)the Consistency in the Simplest Model.

Al Qur'an;The Heifer 219: <modified by author by Japanese translation>

And if you've asked how much you should give zakat(donation)?, answer the surplus..

<https://www.clearquran.com/002.html>

Government's **any amount** of rational BI payment never increase debt,but balance by setting **nothing surplus of BE**,National Finance as usual has been increasing Government Debt due to **NGO corporate surplus increasing**<Zero Sum Theorem on total debt and bond>.

BE=Business Essential is defined as active economy actors in Corona Economy Regime.

ECONOMICS the Income & Outgo Matrix.<column=outgo↓ ,row=income←>

Following is a numerical example.

	Government $G_E=70$	Bank	B-Essential 140	B-non Essen	Home ↓ 130
Government		0	$70(G_E)-30$	0	$G_H=30$
Bank	0		0	0	0
B-Essential=BE	$E_G=40$	0		0	$E_H=100$
B-non Essen	0	0	0		0
Home ←	$H_G=30$	0	$70+30=$ salary	0	

The Design Algorithm:

① Green row is fundamental demands = consuming pay by home(100) and government(40).

② By **jobless rate**,BI ratio is determined in total consuming sum $\equiv 100=30+70$,

③ Tax total = Government pay ($\equiv 40$) + BI pay (30) = $40+30=70=G_E$..

④ See ③(2); Tax Home $\equiv 30$, \rightarrow Tax BE = $70-30=40$.

⑤ Salary Home by BE = $\underline{\text{BE income}}\text{①} - \underline{\text{BE tax}}\text{④} = 140-40=100$

$BI=H_G=30$ is high rate in home consuming = $30/100=30\%$, which could be **also jobless rate !**

Thus Bi becomes evident to be **stable without debt increasing** in government.

ECONOMICS the Income & Outgo Matrix. <column=outgo↓ ,row=income← >

<http://www.777true.net/Quick-Guide-to-Economy-Network-Dynamics.pdf>

	Government	Bank	B-Essential	B-non Essen	Home ↓
Government		0	$G_E - G_H$ (tax)	0	G_H
Bank	0		0	0	0
B-Essential=BE	E_G (G pay)	0		0	E_H (payment)
B-non Essen	0	0	0		0
Home ←	$H_G = B$ Income	0	$H_E + G_H =$ salary	0	

This is the **simplest model** for easy calculation toward proving **the money circulation consistency**

(1) **Assumption:** Any economy actors {G, BE, H} has **nothing both debt & surplus**.

(2) Essentially **who pay tax?** = corporate tax + home (corporate salary) tax = G_E .

All of tax = G_E is essentially created by **corporate activity !**

(3) **Income-Outgo** calculations as follows.

(4) **HOME:** $H_I - H_O = (H_G + H_E + G_H) - (E_H + G_H) \equiv 0$:

home income = **BI** + salary from BE (+income for tax),,,,outgo = **pay for BE** + home tax

(5) **BE:** $E_I - E_O = (E_G + E_H) - (G_E - G_H + H_E + G_H) = (E_G + (H_G + H_E)) - (G_E + H_E) \equiv (E_G + H_G) - (G_E) \equiv 0$.

account \equiv selling - pay (tax + salary)

"All of tax = After all, G_E is essentially created by **corporate activity !**"

(6) **Government:** $G_I - G_O = ((G_E - G_H) + G_H) - (H_G + E_G) = (G_E) - (E_G + H_G) = 0$:

government account = tax on (BE + HOME) - (pay to home BI + pay to BE) = 0

(7) Note Government BI payment never increase debt, but balance due to nothing surplus of BE,

That is $0 = (E_G + H_G) - (G_E)$.

Note **nothing government debt rise** means a possibility of **no inflation** in crisis economy.

However, the crisis factors always has inflation possibility.

(8) **Jobless Rate:**

BE get all of pay BI = H_G and government pay = E_G . People engaged in BE is not jobless one.

Thereby **jobless rate** = $(1 - \text{rate of BE jobs})$

④ More Advanced Economics Design;

Most of you could not get satisfaction for above the simplest model ③?!

Those who has calculation tool, you should try to **design more realistic complicated model !!**

N actors \rightarrow $N(N-1)$ payment variables = income variables.

N variables of surplus or debt equation (**diagonal variables**). \rightarrow the total sum = 0

Thus **free controllable variables number** $F = N(N-1) - 1$.

If none wish debt, $F = N(N-1) - N$.

APPENDIX-24: The Reason Long Lasting Combat due to the Crooked Virus.

Validity of doubtful **vaccine(herd immunity)** strategy against **very crooked virus** is referred. Primitive Social Lockdown(SL) strategy may seem to have accomplished **temporal stability**, though it may be vulnerable to cause 2nd wave attack, so **Complete Eradication of Virus (by SL)** would need more advanced strategy with full armament against the virus.

Biophysical characterization of the SARS-CoV2 spike protein binding with the ACE2 receptor explains increased COVID-19 pathogenesis

<https://www.biorxiv.org/content/10.1101/2020.03.30.015891v1>

RBDs of the spike protein of SARS-CoV2 are highly optimized to achieve the strongest possible binding interaction with ACE2 which is consistent with its enhanced pathogenicity.

Here's Why Herd Immunity Won't Save Us From The COVID-19 Pandemic

<https://www.sciencealert.com/why-herd-immunity-will-not-save-us-from-the-covid-19-pandemic>

All of this is simply nonsense. Herd immunity without a vaccine is by definition not a preventative measure. **Herd immunity** is an epidemiological concept that describes the state where a population – usually of people – is sufficiently immune to a disease that the infection will not spread within that group. In other words, enough people can't get the disease – either through **vaccination or natural immunity** – that the people who are vulnerable are protected.

<https://www.statnews.com/2020/04/20/everything-we-know-about-coronavirus-immunity-and-antibodies-and-plenty-we-still-dont/>

(c) **Rapid Mutation and Immunodeficiency.**

coronaviruses are exceptionally unlikely to cause RNA mutations, but new one is not. Antibody (immunity) and drugs are targeting specified virus, while if it mutates enough, the antibody and drugs become vain. This is fatal to stabilize our society activity.

Coronavirus's ability to mutate has been vastly underestimated, and mutations affect deadliness of strains, Chinese study finds

**The most aggressive strains of Sars-CoV-2 could generate 270 times as much viral load as the least potent type*

**New York may have a deadlier strain imported from Europe, compared to less deadly viruses elsewhere in the United States*

<https://www.scmp.com/news/china/science/article/3080771/coronavirus-mutations-affect-deadliness-strains-chinese-study>

Li team has detected more than 30 mutations. Among them, 19 mutations—or about 60%—was new. They found some of these mutations could lead to functional changes in a unique structure on the viral envelope that allow the viral spike protein, coronavirus, to bind to human cells. Computer simulations predicted these mutations would increase infectivity "If there is a discovery that overturns the prevailing perception, don't be surprised."

Urgent Contribution (1) Virological Characteristics of New Coronavirus Infection (COVID-19) and Consideration of Infection Mode (Kimiyasu Shiraki)

<https://www.jmedj.co.jp/journal/paper/detail.php?id=14278>

Regarding RNA synthase that determines the stability of viral genes, influenza, hepatitis C, and HIV viruses are susceptible to gene mutations, whereas ~~old~~ coronaviruses are exceptionally unlikely to cause RNA mutations.

That is, new Coronavirus is different type from old ones, which may be also another evidence of man made one. It is told by many that symptom curiously varies from calm to wild, or wild to calm and wild, those are random enough in time and space (organs invaded by virus). Those may be due to both feature of **strong infection power** with less density and **rapid mutation** causing varieties of symptoms ??.

③ Our Possible Option at Now <Recovering in a time or No Recovering the Worst Case> :

Maybe all depends on Vaccine yes or no !!. Authors conclusion is **the worst case scenario**.

(1) Keeping Combat toward Complete Virus Eradication in Wartime Regime.

It is keeping social containment strategy for long years with employing **advanced technology** toward **Complete Virus Eradication**. If incomplete, the less virus density would recover the riots again.

*Note WHO once declared SARS eradication by social containment strategy.

Also note Newzealand is told to almost success in Coronavirus social containment.
