

## **Thoroughly Accomplishing and Making Awareness on Justice & Fairness would Cause People's Agreement in Any Condition.** 2024/12/10

This may be the 1<sup>st</sup> principle of good stable governance in any time, any region.

### **[0]: At Now Total Viewing, Climate Collapse is the Supreme Crisis for All, but,...**

Rockefeller with the warmonger's fatal failure was mass oil consumption causing climate collapse toward global mass extinction, however they decided to hide it (1978) and do **operation EndGame** the final survival one. Thus coming confused world was destined.

### **[1]: Global Governance by the Warmonger is being Defeated by the US Change.**

This is the imminent task of all, thereby none should be against. Certainly this is to establish "*Make America Great Again*".

### **[2]: What to Do after Achieving Peace.**

Domestic policy never be interfered by other nations, however USA is extremely singular causing troubles enough in other nations, so we have right to warn them. By the status treaty<sup>1)</sup> between US & Japan, they have been terribly interfered by US after the war. Author is a victim of their evil lawless deeds since 1972.

In any governance, crisis management is the 1<sup>st</sup> task, however, there would be option.

#### **① Neglecting the Crisis so long as major people would agree, and not riot.**

This is to establish "*Make America Grave After*" Trump presidency.

Also author don't wish he would become bad hero, because he would be man ceasing Ukraine and Gaza wars by miracle escaping the gun shooting and encountering miracle engineering manager, the able and tough Elon Musk with physics. Mr Musk now terribly fail in trying Mars traveling project, because we never can go through Ban Allen Orbit with intense radiation. But he should face the supreme problem on this earth ground. To tell for his beginning, Tesla's R&D and the success on EV was climate oriented. He should keep his original motivation the great. Mr Trumps destined mission is ceasing the war with defeating **the Warmonger Regime**. This is supremely enough task making him great historical Hero. While as for [2], another hero is necessary. Mr Musk is not accountant, but engineer.

#### **② Rapidly Facing the Crisis toward Establishing Global Climate War times Regime.**

Certainly this is extremely difficult task, however unless this, we all could not be even in grave, but massive bonds in desolate land. Hereupon, here is a real miracle great hero.

Let us see him.

Everyone stands up and applauds with a big round of applause.

Here is another real miracle great hero.Let us see him.

Input 1805W generates 3680W=184x20 by using *Tesla Coil*=L2 with Induction Heater=L1.

You may say it is fake due to energy conservation law. Then note total universe energy is  $0 = \text{Total matter positive energy} - \text{Total gravity attractive force energy} = +E - E$ .

That is, creating negative energy can generate positive energy the observable, while negative energy is changed to gravity one the non observable.

\*Parallel running currents energy is negative in Tesla Coil.

<http://www.777true.net/Amazing-Pragmatical-Energy-Creation-by-Tesla%E2%80%99s%20SPC.pdf>

☠: Author's Tesla coil experiment article must be deleted due to the unreliability.

<http://www.777true.net/BWG.pdf>

This is the theoretical validity of  $0 = +E - E$  in power creation method by **charge density wave**.

Electric wave has two kinds of traversal: one (portable phone) and **static longitudinal one** in classical magnetic theory. This is essentially similar with Nicola Tesla **Wardenclyffe tower**.

Then note total monetary asset is

$0 = \text{Total surplus money (Bonds)} - \text{Total Debts} = +M - M$ .

<http://www.777true.net/Quick-Guide-to-Economy-Network-Dynamics.pdf>

EV's most weak point is battery, this is to exchange it. Historically Nicola Tesla had constructed such electrical energy generator of **Wardenclyffe tower** (1905), however oil industry with government power destroyed his business.

☠: There is a power who never allows the author to realize evident results of Tesla generator. Thereby transferring the task to someone might be good to get evident conclusions. He shall write his design ideas before long. Someone should have skill in electrical circuit design with understanding of quantum physics.

(c) Toward Establishing **Global Climate War times Regime.**

It is AMEG(UK) only in the world who tell serious enough climate facts against

**UN IPCC the deadly climate liar** and propose concrete climate policy.

(1) UN IPCC the deadly climate liar is a wig of the US Warmonger.

If coming Trump presidency would not attack IPCC, the Warmonger would be joy. It needs deploying AMEG's claims world wide by massive SNS supports. They are money short.

(2) At 1<sup>st</sup>, establishing global consensus to decrease global temperature by interfering solar heat to ocean surface by cloud making machines, Someone supports the finance.

This is a temporary life-prolonging measure, and in the meantime we will enforce the global agreement. He wrote email to author he was black listed in UK. The effectiveness of albedo geo-engineering was proved by globally spreaded massive ash in Pinatubo eruption (1991).

**volcanic winter**= heat reduction roughly 10% ,average global decrease of about 0.4 °!!!

☠ : **nuclear winter:**

Before coming the Trump presidency, the conservative warmonger power has become extremely fear for being exposed their evil deeds for recent years. However author believe **global military man's gentleman promise** with their hidden agreement on no nuclear war with each other.

(3) In any past times wars, there was no mankind extinction, even when nation and all people together **rapidly established war times regime without care for the details.**

(4) If you wish to tell , *now is too late to do* , then you must tell your children.
