## (1) **Anti-Hate Engineering = Trust Building Engineering!**

As everyone knows that two {money and connections} are core of human life as a social relationship, therefore the logical contraposition is

Destruction of the relation two {money and connections}, the former is economic blockade ,, the latter is hate engineering, and the total is war.

One of the core of the current situation is **Hatred Engineering** = a conspiracy to **destroy human trust**, induce conflict and promote collapse between their mutual relation.

In general, personal worries are overwhelmingly caused by loss of trust in interpersonal relationships, which is now accelerating also due to the vulnerable globalization.

In conclusion, escaping the vulnerable world {Corona\_Ukraine War etc,....-Climate Collapse} becomes anti-hate engineering

Anti-Hate Engineering = **Trust Building Engineering!**

If the world establishes mutual trust by {**global joint recognition of unique and only core fact**}, it would be **the final victory by the World Unity!** ,

(2)The skill is known in both business and science and technology

Don't argue for a long time, but the core of victory is **comprehensible = simplification! !! !!**

*Your answer is no,no,, yes,yes, more than that comes from wickedness, Bible Matthew 5.37*

{ the Bible= Trust Building Engineering } is also logic! !! ,

If you **clearly define the problem** and start working on it, you would come to a conclusion immediately.

*\* Godel's completeness theorem: Truth can be uniquely determined (proof).*

*..... What happens in the reality = A historical fact is always unique and only ! ! ! !*

*\* Godel's incompleteness theorem: There is nondeterminism, and its lack of information becomes a stochastic phenomenon.*

Let you do it by altogether in consultation with scientists and engineers,

(4) *author's question:*

*professor ES, isn't it possible only by being ultimate sincere (by providing the truth?), as is told in your supreme skill of business.*

*answer from ES professor:*
