

Dear Dr. Ernest Moniz and President Obama in the government

2015/6/23

Climate Hell could be avoidable by **global solidarity with a common truth(1)(2)(3)**. In fact, we have already gotten **technical tools** to intercept climate hell, however **the political implementation** have been intercepting due to those who has been in fear for **climate revolution** !!!.

(1) 80% CO2 reduction could be realizable !!

*** *Stanford Engineers' Plan To Convert U.S. To 100% Clean Energy !***

<https://www.popularresistance.org/stanford-engineers-plan-to-convert-u-s-to-100-clean-energy/>

The 50 individual state plans call for aggressive changes to both infrastructure and the ways we currently consume energy, but indicate that **the conversion is technically and economically possible through the wide-scale implementation of existing technologies.**

"The main barriers are social, political and getting industries to change. **One way to overcome the barriers is to inform people about what is possible,**" Jacobson said. "By showing that it's technologically and economically possible, this study could reduce the barriers to a large scale transformation."

(2) Emergent Arctic Cooling could be realizable !!

*** *Save the Arctic sea ice while we still can!*** 2015/03/06

<http://arctic-news.blogspot.jp/2015/03/save-the-arctic-sea-ice-while-we-still-can.html>

Fortunately researchers are increasingly confident that a stratospheric aerosol haze, produced from sulphur dioxide, SO₂, could provide significant cooling of the Arctic for modest expenditure of the order of **a few billion dollars per year.** This type of cooling could be replaced by cloud brightening using ultra-fine seawater droplets when the technology is ready for large-scale deployment **within a year or two.**

Note World military budget = 1.7T \$/y, World Oil cost = 26T \$/y !!

(3) **Global Solidarity with a Common Truth !!.**

Barrier for global consensus and policy decision=corruption to conceal fact at now

In fact, we have already gotten **technical tools** to intercept climate hell, however **the political implementation** have been intercepting due to those who has been in fear for **climate revolution !!!**. It is terribly ridiculous to fear **revolution** more than **climate extinction !!!**. However so long as democracy be, we never be defeat, but win by **Global Solidarity with a Common Truth !!**. A truth could be verified by **a science without corruption to conceal**. Note the Pop launched **Encyclical Letter Laudato si'** on care for our common home at 6/18-2015.

Pope Francis's call to action on climate change.

http://w2.vatican.va/content/francesco/en/encyclicals/documents/papa-francesco_20150524_enciclica-laudato-si.html

United by the same concern [7-9]

we are also called "to accept the world as a sacrament of communion, as a way of sharing with God and our neighbours on a global scale.

III. DIALOGUE AND TRANSPARENCY IN DECISION-MAKING

182. An assessment of the environmental impact of business ventures and projects demands transparent political processes involving a free exchange of views. On the other hand, the forms of **corruption which conceal the actual environmental impact of a given project** in exchange for favours usually produce **specious agreements** which fail to inform adequately and to allow for full debate.

* **red character** is by suzuki.

Please read following with high sensitivity for the logic,

Top of the letter call for **global unite** with a common concern !

The letter accused **corruption to conceal** in the climate debates.

Unless corruption to conceal in the climate debates, we could get **a truth=common concern**, it is nothing, but which that enable global unite toward action !!!

* Certainly once also president Obama(organizing America((toward "CHANGE")))) called for **overwhelming scientific judgment**,He also said ,by which he would do anything .It is entirely right.Then why could overwhelming scientific judgment not be ?

* **97% climate scientists agree man made global warming by CO2.**

<http://www.theguardian.com/environment/climate-consensus-97-per-cent/2013/may/16/climate-change-scienceofclimatechange>

Thus you American and us must fight against **corruption to conceal truthes(1)(2)(3) !!**

****The Charleston Murders: Facing America's Great Evils**

<http://www.globalresearch.ca/the-charleston-murders-facing-americas-great-evils/5457443>

This is not only Americas great evils,but that of the world !! It may be not only superficial racial hatred,but against the black president and against the revolutional Pop.

They might fear on unite between the President and the Pop coming USA. in September.

Imagine their FULL AGREEMENT on the truthes,

which never be nothing,but global change !!!

* John Lennon was once accused for his **lip** atheism,

however he had been essentially accord with the Bible teach in his **deed**.

Please see this site.

http://www.777true.net/You-never-could-be-saved-by-IPCC_s-temperature-projection_but-entirely-toward-Hell.pdf

the summary:

(1) **the road to Hell=temperature projection by the IPCC threatened strongly by EXXON-MOBIL the empire Rockefeller.**

Nothing return to safety temperature zone=ever lasting climate disastrous world !!!.

(2) a road not to Hell

[6] : 777true.net showed **temperature recovering process**

Unless Arctic Cooling engineering,also this would be in vain..

APPENDIX-2:

This is the most dangerous zone against which they are eager to fire!!!

BREAKING: Obama Administration Says Yes To Drilling In The Arctic

http://thinkprogress.org/climate/2015/05/11/3657393/obama-conditionally-approves-arctic-drilling/?utm_source=newsletter&utm_medium=email&utm_campaign=tptop3

Royal Dutch Shell plans to explore for **the Chukchi Sea**, around where are rich with sea floor explosive mine=**methane clathrate** **the final global mass extinction weapon** by **Arctic ocean warming**, or by **sea floor sliding of the reservoir by the drilling..**

Following picture in **“Arctic Climate Feedbacks: Global Implications”**

http://www.wwf.se/source.php/1260148/Arctic%20Climate%20Feedbacks_%20Global%20Implications_2009_Executive%20summary.pdf

You should not read above long report, but see the picture here in haste.

the Chukchi Sea is at here !!!!!

<http://www.worldatlas.com/aatlas/infopage/chukchisea.htm>

It is suicidal deed to drill there !!!!!!!

It is entirely upside down !!!,

Time for **carbon energy** had passed, but

we must emergently take **action for Arctic**

Cooling geo engineering in order to intercept

Methane Hydrate Bomb Extinction by ice lid vanishing in Arctic.

<http://www.ameg.me/>

The ice lid retreat accelerates more heat input

into black ocean which cause more ice lid

retreat <**feedback establishing**, which never be

stopped without manmade cooling technology>

Note the permission has been still incomplete at now !!!

It would become an executive order to declare death penalty by gas chamber against mankind by the President ?!. Our possible salvation may be **overwhelming judgement**

I : the facts recognition at first.

(1) **Now climate change by manmade CO2 had been approved by 98% scientists,**

<http://blogs.voanews.com/science-world/2014/04/14/scientist-99-sure-global-climate-change-is-man-made/>

however most of people seems not to know Arctic Emergency<Methane Catastrophe toward mass extinction>. This is the most insidious point, because Arctic is not familiar region for all.

(2) **Historical Fact on Permian 96% mass extinction by Methane Catastrophe.**

<http://www.nhm.ac.uk/nature-online/life/dinosaurs-other-extinct-creatures/mass-extinctions/end-permian-mass-extinction/>

(3) **Methane Clathrate the Mass Destructive Thermal Bomb in Arctic**

(the highest priority problem at now).

<http://www.realclimate.org/>

People consider so called global warming is gradual process in coming decades and the crisis would be in future. However the fact is not so optimistic. Now many scientists fear for **huge amount of unstable MC = methane clathrate (ice, hydrate) melting in Arctic sea floor** by rising sea temperature **2~3°C**. The estimated amount of Arctic MC is **400~1000G ton** in carbon standard, of which **10 GtC** eruption is catastrophic. MC is more **56(20years→25) times** potent as GHG effect http://unfccc.int/ghg_data/items/3825.php

than CO2. Once they emitted to atmosphere, temperature rising accelerate that of sea to enhance more emission of methane. It becomes **FEEDBACK process** to spike out temperature rising <**Clathrate Gun Mechanism**>. Abrupt and irreversible Climate Change is to attack on earth.

Paleo-climatology recently recognized mass extinction of species by methane burps in **Permian (251.4my)** and **Paleocene–Eocene Thermal Maximum (55.8my = million years ago)**.

The final stage may be fire hell.
