

Dear staffs of the Global Orgs.

2014/9/19

Welcome 9_21 NYC Climate March!!!. Then what would they call for ???.

<http://peoplesclimate.org/march/>

Big demonstration toward world would be effective to awaken global people as for the emergent climate crisis. **Then what would they call for ???.**

Those must be simple?,

but **sufficiently exact and effective** as emergent global operation toward global salvation. .

(1)**Emergent Arctic Cooling Engineering.**

(2)**Emergent more than 80%CO2 cut.**

(3)**Life assurance strategy for people.**

Too simply and frankly to tell, it is substantially **wartime regime life** in which people should consider it best to scarcely eat and sleep.

Each of those are all outrageously difficult to implement (, but not impossible). **And also that the analysis and synthesis on the projects have not yet substantially been complete.**

As for essential climate prediction, the scientific results are certain and have already been determined. While the decisive **countermeasure details** almost have not yet synthesized. So called **sustainability** is impossible conservatism and hoax, but decisive fact is discontinuous transition (**revolutional**) to climate safe economy. (1)(2)(3) is nothing, but global revolution.

Supplemental Comment

(1)**Emergent Arctic Cooling Engineering.**

<http://www.ameg.me/>

<http://www.777true.net/Rapid-Temperature-Rise-in-Arctic-a-simple-verification.pdf>

<http://www.777true.net/How-to-Make-Clouds-for-Intercept-solar-heat-in-Arctic.pdf>

(2)**Emergent more than 80% CO2 cut.**

<http://www.777true.net/Why-more-than-80percent-cut-and-the-Realizability-in-our-life.pdf>

http://www.777true.net/Part_6_non-carbon-Energy-Engineering.pdf

(3)**Life assurance strategy for people.**

<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

http://www.777true.net/This-is-the-most-emergent-problem-of-to-live_or-not-to-live.pdf

Certainly the countermeasure are outrageous,however coming climate hell is more outrageous. People could do their best, if they could have accepted deadly climate reality.

This is a plan by the AMEG in UK.

[An Effective and Comprehensive Climate Plan](#)

<http://climateplan.blogspot.jp/>

Dear staffs of the Global Orgs.

unique TRUTH for making decisive SOLIDARITY

Also I can entirely agree with what you have told in below.

Then I could suggest you **being unique truth for making decisive solidarity.**

So it is entirely **science at all !!!.**

*PopularResistance.org seeks to aid in bringing movements for peace, justice, economic fairness and environmental protection together into an independent, nonviolent and diverse movement that can **end the power of concentrated wealth, shift power to the people** and put **human needs before corporate greed.***

*PopularResistance.Org is designed in accordance with the two-prong strategy of resistance and creation,and in the belief that there is greater strength and opportunity for success if there is **solidarity** in the work for peace and social, economic and environmental justice.*

(a)**No Contradiction**<a visualized(realized)thing in our actual material world is always unique,but not double images of **simultaneous realization of A and not A**>.

example)A weapon merchant say "this spear can break through any shields,and that shield can block any spears".Then a passinger asked the merchant" If you try to break thorough the shield with the spear ,what will happen ?",.....。 Ancient China Fable

(b)**Overwhelming Judgement of Science.**

<http://www.777true.net/Overwhelming-Judgment-of-SCIENCE.pdf>

So long as I had surveyed **the climate facts**,the conclusion is as follows(1)(2).Thereby I wish **coming climate march in NYC** would take these fact for their fundamental strategy. That's right !!!,this is not a kind of sustainability,but discontineous “**transition to a climate-safe economy.**” So to say it in a word,it is **emergent global war time regime life** in which you should consider **it best being able to scarcely eat and sleep.**

(1) **Emergent Arctic Cooling Geo-engineering to intercept Methane Catastrophe.**

<http://www.ameg.me/>

<http://arctic-news.blogspot.jp/p/how-to-cool-arctic.html>

<http://www.777true.net/How-to-Make-Clouds-for-Intercept-solar-heat-in-Arctic.pdf>

(2) **Emergent more than 80%CO2 cut in order to intercept the Arctic Methane Catastrophe mentioned in (1).**

<http://www.777true.net/Why-more-than-80percent-cut-and-the-Realizability-in-your-life.pdf>

First of all,You should find talents of genuine scientists who can admit above extremely inconvenient facts.

http://www.777true.net/Part_6_non-carbon-Energy-Engineering.pdf

<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

To tell a fact,the conclusion of climate science had already been determined as (1)-(2), so from hereafter,following talents would be necessary.

* **new energy technology engineers** ,
* **Arctic Cooling Geo-engineers** and
* **economists for global rationing regime economics.**

I entirely hope your staffs good decision making !!!

Once again I recommend you that

The climate conclusion must have already been determined !!!,

so **climate science debate** should be of no use*,

but **climate engineering debates** is emergent and decisive.

*Ofcourse the scientists are always necessary also as for climate engineering.
