

World Wide **KO-Battle Show**¹⁾ of the Supreme HeavyClass Championship Decision

2012/10/10

Any debate can be ended by KO game in certain way, which is proved here. All of disputes has entirely been being caused **false flags**²⁾ that cause disputes and wars of no settlements at anyplace anytime in the world. The most matter that must be hated by most of us are **lie, false, fake and hiding that are caused from evil.**

* Mathew 5:37, Let your word be "Yes, Yes, or" No, No: anything more than this comes from the evil one.

[0] : This upside down world has been being ruled by those who has entirely been **telling lie or hiding truth. <the essential origin of causing this world upside down>**

Once author was scientist (physics fundamental) and encountered international co-operations in many incredible fakes even in science. This was the first event.

<http://www.777true.net/img009-Introduction-to-Quantum-Science-the-frontline.pdf>

Not only hiding truth, but also suppressing on author had began at that time. Thereby, author surveyed this world and historical background of them **the liars**, which tuned him an accuser described in <http://www.777true.net/>. After all, **this upside down world has been being**

ruled by those who has entirely been telling lie or hiding truth. Their supreme commanding head quarter is called **Bilderberg Group** the hereditary of WEST nobility (UK imperial) and ultra wealthy (Rockefeller USA) with their subordinates of each nations. Both global and local history has been being operated by them in order to entirely conserve their hegemony. That is, *Nation and the people are those who should be exploited by them.*

This could be only possible by **lie, fraud, fake and violence (suppression and war)**. As the consequence, this now world has become upside down, which is against the road of God.

The yesterdays WEST people were rather rich than the other world in order to avert their hostility against the ruler near by them. However now the era has become too critical to secure even foods and water due to **economy collapse** and **climate becoming wild**. Now they conspire stronger fakes to avert people's hostility by employing strategy **deviden and rule**. The typical may be local regional disputes toward war caused by false flags.

[1] : The Vardity by Rigid Scientifical Background.

Any debate could be ended Knock Out Final by logic. This is kernel theme of the report. Now let discuss rather formal topic by easy comprehensional way.

(1)**At any time any place, a realized fact is unique and only (non-contradictionousness).**

As for the past history, a realized fact is unique and only, and as for **future** history, a realizable fact is unique and only even though we can not see it (the more detail is in later).

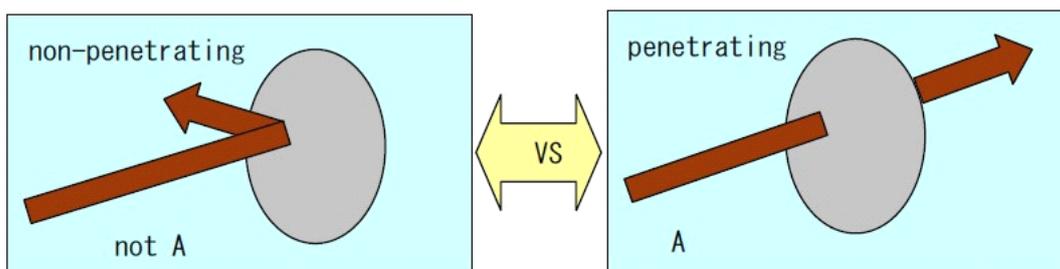

It is too evident thesis that we never see **double image** of **A** and **notA** simuletaneously.

This is universal truth in this material world. Note non-material world is vaccume one.

This is the fundametal to enable **KO battle** in any debates.

** A tail of military industry merchant in ancient China.*

A street merchant was selling spear and shield with saying "this spear could break any shield and that shield could protect for any spears". Then a passinger ask him "hit this spear to that sheld, then what would happen ??."

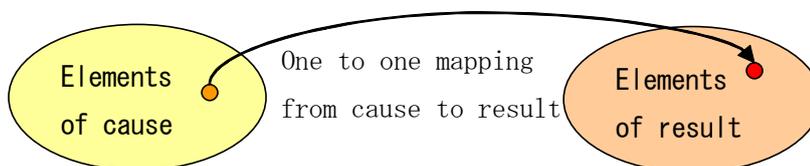

(2)**A truth is provable (K. Goedel's completeness theorem (1928)).**

This is the supreme monument in 20th century science, of course truth is unique and only.

This is a theorem in mathematical logic on axisomatic system as mathematical formula.

This is nothing but **complete causality** that enable **unique cause causes unique result**.

This sprit could be applicible for almost matters concerned by us.

cause	result
1+1	=2
Force f on mass M in dynamical motion	$M\alpha = f$ yields accelation = α .
pay = ωI on goods with price = P	$N = \omega I / P =$ supply of goods
$I =$ possible total payment, $\omega =$ pay rate	$PN = \omega I$ market balance equation

Except math scinece, most of problem belongs to **incomplete causality**, for an example, 80% is causalitical, however the rest 20% is uncertain (probabilital).

(3) **Decision on Future Event Problem (the rigid scientific basis).**

*This article is rather difficult for amateur, so consult with experts .

Note time progress in matter world is probabilistical due to **quantum nature** of elementary particle, which could even be seen macroscopic scale such as fluid dynamics in weather prediction. Prediction on **man-made decision** is also **uncertain** for **outsiders**.

(a) If the problem is **incomplete causalistical**, the future prediction is not unique. This is to be **probabilistical**. It is this that may be pragmatical. Below complete proof belongs students.

*Probabilistical feature of **Goedel's Incompleteness theorem** (see p6/10).*

<http://www.true.net/img009-Introduction-to-Quantum-Science-the-frontline.pdf>

That is, information loss (there is something unknown) causes things probabilistical (throwing dice). This could be consensus-able also for amateur people.

(b) **Almost cases, our decision making is done with information loss.**

This is pragmatical, because we never get complete information on the possible future events. Then we could assign probability for each possible event such as dice throwing.

Note that such probability could become unique value in **virtual infinitive trial**⁽³⁾.

<http://www.true.net/img009-Introduction-to-Quantum-Science-the-frontline.pdf>

This is the rigid foundation of **statistical theory** as a genuine science.

3) APPENDIX-2: God never throw dice ?! (Albert Einstein).

<http://www.777true.net/The-Fatality-of-Predestination-Theology.pdf>

(c) **Information Measure (C.E. Shannon).**

If the possible event probability is $\{p_1, p_2, p_3, \dots, p_N\}$ of N faces of singular dice, Shannon defined information measure as following formulation.

" $\ln(x)$ " is called *log natural function* which output a value with regard to input = x.

$W = k\{\ln(1/p_1) + \ln(1/p_2) + \ln(1/p_3) + \dots + \ln(1/p_N)\}$

If $p_1 = p_2 = p_3 = \dots = p_N = 1/N$. $W = kN\ln(N) = \text{maximum value}$ of W.

This is the case for which we have no information, then the possibility becomes equal.

If $p_k = 1, p_2 = p_3 = \dots = p_N = 0$. $W = 0 = \text{minimum value}$ of W.

That is, if event "k" is certain, we have nothing information (complete causalistical event).

Note this measure is something upside down in our common sense, but right..

* our debate is two event value of **Yes** or **No**, that is $p_Y + p_N = 1$.

and also we never be in state we have nothing information on the event being disputed.

that is $p_Y \neq p_N \neq 1/2$. Either $p_Y > p_N$, or $p_Y < p_N$ is certain.

Thereby, one is sure to win and the other is to be defeated (**KO battle**).

[2] : Arctic Methane Emergency **YES** or **NO**(the draft on **No1** example excercise).

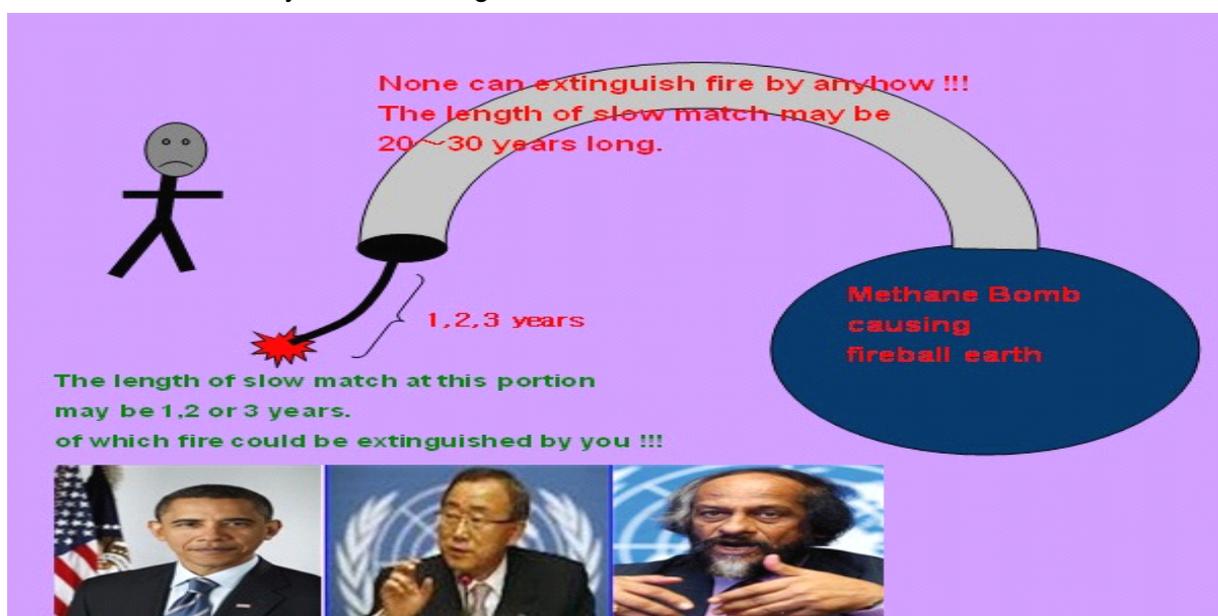

① **Yes Group Claiming the outline.**

Global warming by manmade CO2 emission is not slow progression, but could be abrupt and irreversible. Then, the most danger is **Arctic Methane Catastrophe**. It is almost giantic bomb causing fireball earth (the doomsday). Now the slow match is to be fired within 2015±2 years by ice cover diminishing in Arctic ocean (albedo feedback causing rapid ocean warming). The counter measure is emergent and outrageous, but decisive.!!

<http://www.ameg.me/>

<http://www.777true.net/From-the-Point-of-No-Return-to-the-Final-Catastrophe-Point.pdf>

Their claiming is against established global capitalism regime with huge oil consumption, so it is evident that they do not seek egoistic benefit.

② **No Group Claiming the outline.**

Simply and frankly to tell, they could not be against the scientific debate, but have been substantially and entirely neglecting and silence by global massive ignorant, irresponsibility and stupidity. It is deadly evident that $P_Y \gg \gg P_N$.

- (1) Conspiracy had succeeded to making political resonance group of global massive ignorant, irresponsible and stupid in COP debating for these 20 years long.
- (2) **Nation leaders has been shouting it first to grow economy even still now !**
At now none could hide the fatal fact that climate has been becoming wilder and wilder.
- (3) **Now commonly they are afraid on being accused for indulgence on disclosing fatality of climate collapse to public in earlier times. Revolution is more terrible than defeating war.**
- (4) Thereby, climate accuser now is suppressing their claiming by rulers now.
- (5) **Regional disputes at now in Asia are feints to hide their deadly responsibility.**

[3] : Other Serious Tasks that should be KO Battles.

It is impossible to list up and describe details of all the problem in the world at here. So now author strongly recommend the problem [2] only.

Conclusionary to tell, other tasks are certainly serious for many people who must secure today and tomorrow life. However if people would adhere those local problems, global salvation would become very difficult as time goes on, as was mentioned in [2].

Especially at now **war** and **economy** are decisive and dominant concern for most of the people, which has been entirely agitated by the collapsed mass media. This has an aspect of feint to avert people's concern and would decisively lead to our extinction [2].

Following problems and [2] must be simultaneously settled by emergent global wisdom.

It could be nothing but global revolution in economy regime with countermeasure on [2].

(1) All wars begin with false flag (Jesse Ventura).

The disputes in **Middle East** is caused from the WEST (France, UK, USA) conspiracy.
<http://www.777true.net/Essential-Criminal-for-Causing-the-Massive-Palestinian-Refugee-is-EUROPE-USA.pdf>

(2) Some regional disputes in today's world are in suspicious on feint to hide Global Fatal Problems of the highest priority for the mankind such as **global foods crisis** due to climate becoming wilder, **the Arctic Methane Collapse** and global financial crisis causing global recession with **growing poverty**. These problems deeply connect with **collapsed mass medias averting people concern for essential fatal problem to nationalisms the narrow minded**.

A typical may be simultaneous multi-regional disputes in Far East Sea. Austerity disputes in EU may be no relief. After all, all the world could not become nothing but equally poor.

(3) Global financial crisis is growing **wealth gap** between poor and rich.

And global climate collapse would grow **food securing gap** between poor and rich.

Then both would grow gap between who could **live** and who could **not live**. Thus the essential problem may be which do you opt co-live or not co-live?. The latter is called **operation EndGame**.

(4) Righteous liberation struggles against Imperialism suppression in the world.

(5) **Ideology:**

(a) <http://www.777true.net/Proof-on-God.pdf>

(b) **reconsideration on communism vs capitalism.**

It may be universal to employ **strong management while emergent condition be**.

Those who claim "*liberty* > > *death*" must show its proof by themselves.

However above is also to indicate survival struggle the very ugly (**operation EndGame**).

[4] : How to make KO Battle Ring with Game Rules(the draft).

①the outline.

(1)Referee(juryman) must judge it **false** or **true**(digital decision).

Juryman could be both few experts and many observers(amateurs).

They(volunteers)must be approved by both players.

They could have voting right to judge.

(2)Both players present previously formalized paper(CD rom) to juryman(time for learn and survey) and exchange those between players.And they prove own claim by conclusion from validities in the battle ring(slide show with naration).Show must be open to the world.

(3)Game begin with exmaminations on each validities by debate(inquiring and answering) by opposer and defender. If they found **a false** in those,then winner is decided(game end).

(4)As for insufficiency of validities,reforming time should be prepared(reGame).

The Game must be complete KO battle !!.As for those,game producer must accept claims for the validities and produce reGAME. **Game time is limitless !!,but finite.**

②the fundamental postulate on Game Rules.

(1)Our final aim is to prove **unique and only truth** towrd the world,but not present multi-lateral opinions in order to cause the world confusional not to make unique decision.

(2)Thereby,the game must be authorized to be unique,but opened toward the world.

open,equality,justice,international,low cost,easy accessing,compehensible by anyone.

(3)Guarding the Organization(Game Producer)=Global Democracy for a Fact.

According to many experience,the ruler of this world has been worrying on emerging truth unfavorable for them.As for this task,they has been entirely endeavouring in survey and suppress truth unfavorable by employing their agents in various organizations in the world. The established academism .the established journalism and Judical and police & military organization in eah nations are typical.

(4)Monetary and Personal(Technical) Foundation.

(a)hum.....author could do nothing ,but he wish your cooperation.

(b)Author could present you all the scientific facts showed in the site.

Some of those³⁾ has been hiding by tthe established academism international.

<http://www.777true.net/>

As is seen in above,author could not describe whole details,however the fundamental idea could be indicated. Let's reexamine those please !.
