

It is primary interest of USA(also for the WORLD)to uncover the injustices committed by USA and to take responsibility for those. 2024/5/21,23

Dear the Lawyers in USA.

Subject:You could turn the Upside Down WORLD where scientists lie, businessmen promote own destruction, and none of politics, journalist, people tell the truth.

“Principle of Explosion”

Anyone should know simple,but strong and supreme role of “LOGIC on true or false”. Those are upside down with each other.Then note keeping “**false**(error,lie,fraud,injustice,..)” never fail,but cause something **destruction** at last !.

∗∗:Assuming a false true in logic is also called **contradiction** causing anything true,

Few days before, I happened to know an American lawyer by the big fraud scandal by Mr Ippei Mizuhara of the Huge sports betting fraud case.

Maybe you Americans don't know the serious singular fact on crooked Japan and ...,

(2)***The Big BaseBall Players in Big Money Gamble Scandals***

<http://777true.net/The-Big-BaseBall-Players-in-Big-Money-Gamble-Games.pdf>

Both In the front and the behind,there are money games and political ones.

PS1:As for the Mizuhara case,I can not entirely understand his motive for the crime.Why he could continue the huge cost gambling of impossible winning with keeping awful deceiving Mr Ohtani for long time.Without something malicious,he could not be robber damaging huge cost for the big star Ohtani,Why someone baseball team around them could not have noticed their crooked relation and the outrageous crime for having become \$16M?.

Especially why the bank had been keeping silent on the famous base ball big star's

outrageous amount wire transfers from his account to the bookies?

How was he of penniless able to hire one of the most expensive lawyers in USA ? .

Also, why did they take on the case defense? ?

Is there a big winning possibility in coming judgment ???

Now also I([basic balls](#) player)need lawyers of strong justice with ability.It is case of [12B\\$](#) construction cost canceling(1993) in elementary particle physics in USA.
However my poverty can not allow it.Thereby I ask you an betting.
If you win the case, I will be able to pay you ample reward,
but if you lose the case, it will be free.

(2)**APPENDIX1;Another Basic Balls(elementary particles)Game.**

PS2:This is my opinion on USA-Japan and the WORLD.
Something shocking facts disclosing is necessary to turn the Upside Down WORLD.
Since 2020,the WORLD encountered the unprecedented terrible DISASTERS of pandemic
and essentially needless and insane WARS in global decline of economy & climate.

PS3:Thank to their tragedy,author could get motive to write this report to American lawyers
and to the world people.By anyhow,something helpful result is necessary in this merciless
upside down world.

Now the world has been facing their extinction event in coming years,and many had already
known it and become deep silent by strong enough desperate.

<http://777true.net/A-Possible-Worst-Case-Time-Series-toward-Glotal-Extinction.pdf>

Engineer author had encountered small,but many troubles to fix,then his simple answer is
that there is only one solving method.It is making world peoples mind only one with only one
truth.

EVERYBODY

STOP *the BUSINESS AS USUAL for a while*, <but except people in emergency task>,
BUT entirely SEARCH and COMUNICATE for the ONLY ONE TRUTH.

If we the prison planet prisoners made fire ball earth,it become show of ridicule by aliens.

APPENDIX 1: Coming Unprecedented Economy Fall.

-Economy Growth&Fall with Debts-Bonds One.

In a closed economy system, the total debts = total bonds are exactly same amount proved by *Economy Network Dynamics* (=END by Suzuki 1989).

<http://www.777true.net/Quick-Guide-to-Economy-Network-Dynamics.pdf>

END was established by the 1st principle of account books which describe **all the economy dealings in the economy networks**. It is a complete science **without any man-made model?**, a kind of dynamics with time dependent economy growing or falling equation, it is quite fitting for **computer economy simulator**. However anyone will not buy author's product. Now he is not volunteer researcher, but very poor sales engineer with many products, but in bankruptcy. Now I will show you a typical, but very serious (for everybody) example of economy analysis.

USA is top GDP nation also with top external debt one.

<https://www.worldometers.info/gdp/gdp-by-country/>

https://en.wikipedia.org/wiki/List_of_countries_by_external_debt

During times of growth, US can manage to make ends meet, but once the economy enters a downturn <<evidently perpetual growth is impossible, but downturn is inevitable before long>>, US will be unable to repay the debts. Following may be a story covered.

<https://theeconomiccollapseblog.com/tens-of-millions-of-americans-are-trapped-in-an-ends-cycle-of-debt-that-is-sucking-the-life-out-of-them-financially/>

Due to **the financial zero sum theorem***) of **total debts = total monetary asset**, in order to resolve the huge debt problem, wealthy must take their responsibility.

*) It is a frightening fact that any economics text books does not refer the supreme serious theorem. Especially as for money, people has outrageous prejudice.

☠: The zero sum theorem could be easily understood without mathematical proof.

There is no debt without creditor who has same amount of bond, those are one to one mapping relation at all.

Then the very seriousness is that US debt's creditor nations are actually not real wealthy nation such as China, Japan who has certainly small wealthy class, however, they also has large exploited poor class whose cheap labor cost could have made possible to lend huge money to US. Now China has been trying to escape from the creditor position by exchanging US bond to gold, while diligent but stupid enough Japan has been trying to decrease value of own nation money Yen for decreasing US bond. The base ball star player Mr Ohtani now contributing US baseball society and also lost \$16M might be a symbol of such very crooked Japan. Note the nations leaders of China, Russia, and Japan, such they never work for own nation people, but secretly for USA.

APPENDIX2:About on Theorem of Explosion in LOGIC.

Almost people are not scientist or engineer,though also you could become scientist the supreme by a bit time of training and learning on LOGIC by a bit of patience.This is authors small proposing to you.At 1st time,you should not read following,but whole of this paper.

http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf
<http://777true.net/anyone-can-insight-deepest-matter-world-by-least-Logic&Math-with-easy-translation.pdf>
<http://777true.net/The-Essence-of-Recognition-on-This-Universe-may-be-Non-Contradiction.pdf>

You might think of *logic* as an old-fashioned discipline, like learning *Latin*. Entirely not !, a science can make our understanding on nature,what we can understand is entirely logical,then we can also prove that what we can understand by logical is nothing,but nature mechanism itself.For an example,a matter world of atoms-electron is understand by so called *Quantum Mechanics(QM)*,which was historically discovered by experiments (*observation*)..Then so called *Observation Logic* can reconstruct fundamental QM structure.

①Glossary:

(1)Logic is a kind of language with {the words}

{**true=1,false=0;AND,OR,NOT,IF=premise..Thereby=conclusion...**}

(2)**A=B**: By definition, the right and left sides are equal,or tautology.

(3)**True** \equiv realized,or realizable event \equiv observable event

False \equiv Negation of true \equiv Unrealized event \equiv Non-observable event

☠:A typical non observable event is (physical)**vacuum**,however it is not complete empty,but has great role.

The secret is solved by contradiction with the probability zero*. Yah real number zero has also secret.

<http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf>

☠:You can not tell the maximum number=**M** in natural number set=**N**(K.Gödel Incompleteness theorem),

You also can not tell the minimum number in real number set $1/M=0^*$.

$1/M$ must be smaller than any finite real number,thereby,it can not be nothing,but zero.

while you never **exactly** tell $1/M < (K.Gödel Incompleteness theorem) >$.

☠:**K.Gödel Incompleteness theorem<1931>**.

In any mathematical axisom system with natural number set,there must be proposition=**X** undetermined.

K.Gödel completeness theorem<1929>.

Deterministic(without probability) true proposition in mathematical axisom system is provable.

Note theorem in probability theory itself is deterministic,

(4)**Proposition Logic** \equiv sentences(subject+predicative) to be judged true or false;

Predicative Logic

\equiv many simple proposition Logic with conjunction{AND(\forall),OR(\exists)}..... this is usual languages.

$\forall xRx \equiv \{<x=x_1,x_2,\dots,>, \text{all of } x(\text{noun}) \text{ is rich}(\text{predicative})\} = (x_1Rx_1) \text{AND}(x_2Rx_2) \dots\dots$

$\exists xRx \equiv \{<x=x_1,x_2,\dots,>, \text{some of } x \text{ is rich}\} = (x_1Rx_1) \text{OR}(x_2Rx_2) \dots\dots$

* $\exists \neq \text{NOT} \forall$; $\text{NOT} \exists = \text{NOTNOT} \forall = \forall \dots$ as the consequence, *Predicative Logic is of no use.*

☠: $<x=x_1,x_2,\dots,>$:Any noun set is countable size= \aleph_0 (alef zero)by natural numbers !...the tragedy of outstanding mathematician Cantor is that infinity size of real number is larger than \aleph_0 .This is not provable.

\Rightarrow see APPENDIX3:Indeterminism which drove sincree scientists mad,while not sincrere ones innocent.

② TRUTH TABLE:

100% understanding simple, but strong ② will make you a kind of ultimate scientist.

(1) TRUTH TABLE:

{A,B} are simple proposition, while {NOT, AND, OR, ..., IF, ..., Then, ...} are logical conjunction, then, their possible connected proposition's truth value becomes as follows. NOT, AND, OR may be agreed with common sense, while *inference* needs the explanation.

negation NOT		product AND			additive OR			②inference IF, premise, Then, conclusion.			
A	$\neg A$	A	B	$A \wedge B$	A	B	$A \vee B$	A	B	$A \subset B$	$\neg A \vee B$
1	0	1	1	1	1	1	1	1	1	1	1
1	0	1	0	0	1	0	1	1	0	0	0
0	1	0	1	0	0	1	1	0	1	1	1
0	1	0	0	0	0	0	0	0	0	1	1

$A \subset B \equiv \neg A \vee B$.
 this is useful.
 A=B=0, both premise and conclusion are false, inference must be right.

Many may be suspicious why false premise can make *inference* 1. conclusion 1 is true, so we can not deny. If we deny 1, false conclusion 0 become true.

(2) Tautology and Proving Formula. $A=1$, and $A \subset B \equiv 1$, then $B=1$.

*tautology \equiv repeating same meaning with different words \equiv always valid equation \sim self evident.

Proof needs true premise = A with true inference $A \subset B \equiv 1$ toward true conclusion = B. Then necessary condition is tautology of inference $A \subset B$ is always true without care on content of A and B. Note tautology $A \subset B \equiv \neg A \vee B$ (equation without care on content of A and B).

In order to be $1 \equiv A \subset B \equiv \neg A \vee B$, it needs $B = A \vee R$ where R is no care. Then if $A=1$, also $B=1$.

* $\neg A \vee A \equiv 1$, $\neg A \vee (A \vee R) \equiv 1$,

That is, a provable conclusion B is already and essentially contained in the premise A. Note our dairy task is accomplishing desirable conclusion B by entirely researching premise A. Usual B is *better living for all* by religious teach, while B of some are not.

③ Contradiction and Theorem of Explosion

100% recognizing ③ will make you a kind of ultimate scientist.

(1) **Theorem**): supposing premise $\neg A = A = 1$ (**contradiction**)

\Rightarrow any arbitrary lawless proposition could $B = 1$.

Note $\neg A = A = 1$, ..., $A \supset B \equiv \neg A \vee B$, ..., proof: $A = 1$ and $(A \supset B) = 1 \Rightarrow B = 1$.

(2) **Proof**);

$\neg A = 1$ and $\neg A \supset (A \supset B) \equiv \neg \neg A \vee (A \supset B) \equiv A \vee (\neg A \vee B) \equiv 1$, $\Rightarrow (A \supset B) = 1$;

$A = 1$ and $(A \supset B) = 1 \Rightarrow B = 1$.

(3) Theorem of Explosion the Meanings,

Simultaneous true realization of both negation and affirmative (**Contradiction**) never be happened as observable event in this material world., but **non-observable events** such as (lie, deception, fraud, error, troubles,) especially in language, software, broken hardware function. Thus a contradiction is to cause **destructive results (=Explosion)**.

It's a great logic warning to do righteousness, but carefully not do wrong for order keeping.

(4) Theorem of Almighty (or anything can be!) the Meanings,

This is not mentioned in usual logic text books, but ultimately important. The details are....

http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf

<http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf>

It had already been told an observable contradiction event never happen in this material world, or if it could happen, it is not this material world, but **the other world of vacuum one**.
summary to tell,

⊖(1) $\neg A=A=1$ (**contradiction**) \Rightarrow any arbitrary lawless proposition could $B=1$.

That is, *anythings can be, or almighty in vacuum !!*

Learning till here, you might become to tell the reason of creation this universe from nothing.

Thus you might become ultimate scientist, and ultimate God believer !!.

APPENDIX3:Indeterminism the trick star in science ,which drove sincere outstanding scientists mad !!,while not sincere ones don't care??.

Size of infinity was surveyed by Cantor the Jew now condemned by the world. Thereby also author can not escape from the extremely seriousness of Gaza. For long years,authors CPU surveying begins with reading Aljazeera(Qatari).

<https://www.aljazeera.com/>

Now most of the articles are filled with reports of unprecedented, ruthless and gruesome incidents in Gaza,Palestine.Also he could not escape from own guilty conscience that I can't do anything for them.For long years,also he has been reporting on religious Jew's singular great role in mankind **class struggle** history. Now relation between Israel & Palestine had turned their position **upside down**,. *There is no history of incidents,but all of those are planed before<Roosevelt>*.

Who expelled Jews from Europe ?,But what Israel do now is entirely wrong, which must urgently stopped by anyhow to save victims in hell of Gaza.After all,they are making almost whole world enemy toward once again falling own to hell without friends at last !!.Note those white nations are friend of NAZIS USA.

<https://www.aljazeera.com/news/2024/5/22/mapping-which-countries-recognise-palestine-in-2024>

<http://777true.net/Self-Destructing-High-Pride-Germanic-Elites-due-to-Their-Fatal-World-Miss-Ruling.pdf>

Now, let's get back to 2nd topic of tragedy of sincere outstanding scientists G.Cantor L.Boltzmann, and K Gödel.

(1)Indeterminism origin=Necessity of contradict real number 0^* of *nothing and non nothing*. Destruction of determinism was seen by telling maximum number M in Natural number set . Similarly also destruction of determinism in real number set is by considering $1/M$.

**a none zero size elementary particle without composing any parts , it must be a rigid body transferring infinitive velocity propagation from left to right,but theory of relativity inhibits over velocity of light in signal propagation.....The Cassical Filed Theory by Landau & Lifshitz.*

Thus an elementary particle size must be zero 0^* in so called **standard theory of quantum field** with **many agreements by the actual experiments**.

(2)An indeterminism literally means **being of information lack connecting with probability**.

<http://www.777true.net/Goedel-Chaos.pdf>

Madness tragedy of Cantor was absolute paralyzing on being indeterminism in mathematics.Suicide tragedy of statistical mechanics creator Boltzmann was also paralyzing on being indeterminism in deterministic mechanics,which is to cause **irreversibility**.Both they could not know K.Gödel Incompleteness theorem<1931>.

Author now can not know exact cause fact of Gödel madness and suicide tragedy.He was not Jew,however he refuged to USA.Maybe some power hated his great influence.

https://en.wikipedia.org/wiki/Kurt_G%C3%B6del

(3) Simple Proof of Completeness Theorem in proof formula.

a truth (tautological truth) is provable.

Completeness Theorem:

if premise {premise $A=1 \Rightarrow$ conclusion $B=1$ } is true,

then this is provable { $(A \supset B) = 1$ }.

proof formula: {premise $A=1$ and $(A \supset B) = 1$ } \Rightarrow **$B=1$** {conclusion}.

(a) $A=1$..premise.

(b) $B=1$..premise.

(c) $A \supset B = \neg A \vee B$,tautology <②(1) **TRUTH TABLE** inference>.

From (a) (b) and (c), $A \supset B = \neg A \vee B = 0 \vee B = B = 1$, that is, $A \supset B = 1$.

http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf

(4) The Origin of Indeterminism=Probability.

Many had known Quantum Mechanics is probability theory due to experience in its history, however none?? will care on the origin. This is rather difficult problem.

☞: It is due to collision reaction of elementary particles (electron, photon, atoms) reaction.

Theoretically those are described product of field operator (of electron, photon) called **hyper function***, Then their product of same position variables are mathematically undefined. This is origin of singularity causing indeterminism.

*Reference: *Noboru Nakanishi, Quantum Field Theory*,

☞: To tell from the beginning, elementary particles can not be like billiard ball (stationary being), but it is **instantaneous random being of a bubble like** in **field** of hot bubbling stew pot.

Their position at a time is random with the probability. Those has no continuous trajectory, but discontinuous one enabling simultaneous passing many slit. This is called **probabilistic wave**, If we try to concentrate wave packet at a point, it becomes higher energy, thus each zero size **vacuum** space point has infinitive fluctuated energy ($0 = +E < \text{matter} > - E < \text{gravity} >$) causing indeterminism. Note attraction force such as gravity has negative energy, Separating two attractive magnets needs positive energy to result total zero in negative position energy. Can you get a bit of actual image on zero size elementary particles?.

<http://www.777true.net/Real-Image-of-quantum-Chemical-Reaction.pdf>
