

Steiner Warning to 2025 World Facing 80% Extinction with Disappearing Japan.

<http://www.777true.net/Steiner-Warning-to-2025-World-facing-80%-Extinction-with-Disappearing-Japan.pdf>

The Summary:2025/1/24,26.

Rudolf Steiner was an outstanding important prophet especially at now 2025, but has been being hid by the ESTAB. He predicted rise of NAZIS with Hitler, fought and assassinated. Just before his dying, he warned the most serious event coming in 2025 <table of content>. Author wrote the more confirmation validity by [other prophets with science evidences](#).

[\[80% extinction\] Rudolf Steiner warns Japan will disappear, world history will be blanked out, 80% of humanity will disappear. What is the reason? \[Urban legend, mystery, prophecy\]](#) <not English, but Japanese>

In Steiner's view, the world has been fighting between **materialism pleasure civilization** against Natural Law heading own extinction and **spiritualism with Natural Law**.

Then former causing catastrophe would outbreak in 2025 world with Japan disaster.

It is [the last ordeal for mankind's live or die](#) by opting spiritualism global conversion or not.

The Conclusion <To be, or not to be, spiritualism is true forever in author, how about you?!>.

① Spiritualism is meta-science of **explosion theorem**(logic) in quantum vacuum world

The value of a prophet is the truth or falsity of a prophecy, which is why there is

oppression from the ruling class who [hide the truth for conserving their regime](#)..

② Steiner the spiritualist warned coming catastrophe of the world ruled by materialism, which could be the last ordeal to convert **spiritualism global** to survive, or not.

③ 2025/7/7 would be 100m Tsunami hit to far east Asia and Japan in holy prediction. Phillipin shallow ocean's catastrophic epicenter might be partly due to radical backward geothermal 0.8W/m², while average geothermal 0.08W/m² causing earthquake and volcano eruption in very long years accumulation.

[2]:The More Confirming Validity by Other Prophets with Science Evidences.

(1)Japan would be a sacrifice in coming unprecedented flood for the world ordeal ?!.

In Steiner's view,Japan is top singular spiritual and geological region in the pyramid earth.

(a)In geological view,Japan has been **confronting many plates** causing frequent earthquake.

(b)**Peace Society without War by Class-less Regime**<all is equal>.

Jomon(the ancient original Japanese)**historical ruins evidence left:**

Ancient Japan was rare history **17000 years long peace society** of basic philosophy with **classless and war-less**,however 7300 years ago, half of the people were extincted due to the unprecedented(once in 10000 years)ultra eruption of the **Kikai Caldera volcano**, there was supposed to have been a long-term foods shortage,however there seems to have been no war of contention, and they again continued peaceful society as before.

About the history of Japanese Gods (Part 1) About the Origins of "Shinto"(God road).

<https://educational-psychology.edu.mie-u.ac.jp/thesis/2018/ogura/first.html>

According to Takemitsu (2007), the history of Shinto dates back to the Jomon period. The Jomon period was approximately 15000 to 2300 years ago. The Jomon people valued the idea of a circle. During the Jomon period, people preferred circular shapes, and it is said that they lived and built their homes around circular plazas. This is said to be an expression of the **spirit of treating all things equally**. According to Takemitsu (2005), this "circle idea" refers to the idea that all things are equal and have irreplaceable souls, and **this idea is the center of Shintoism**, which enshrines eight million Gods. It is said to be a Japanese style of "spirit worship."

(2)Coming Tsunami 2025/7/5 destroy 1/3~4 of Japan<scientific view>.

A having predicted and realized disaster becomes decisive validity of "the Spiritual Prophecy".Ordeal of the disaster turn people mind from materialism to spiritualism.

Earth's axis of rotation is accelerating... One reason is melting glaciers<not English>

<https://www.businessinsider.jp/post-267263>

Studies have shown that recent melting of glaciers is changing this distribution of mass, and the effect is greater as the direction of the Earth's axis changes.However, from around 1995, the geographic pole shifted to the left. And it is moving eastward at a faster rate than ever before, about 3.3 millimeters per year. A 2021 study also found that the average rate of geographic polar drift between 1995 and 2020 was 17

times faster than from 1981 to 1995. The days may be getting a little longer

(c) **Geothermal Backflow(GB) causing Disaster? !**

Global warming heat input/output Accounting Calculation.

<Red=radiative forcing=global heat accumulation increase/sm² >.

Increase in accumulated heat in the earth (=OCEAN)

= {solar input heat flow - cosmic radiation heat flow - land & sea floor flow}
={Radiative forcing}=2.7W/m².....The cause of global warming

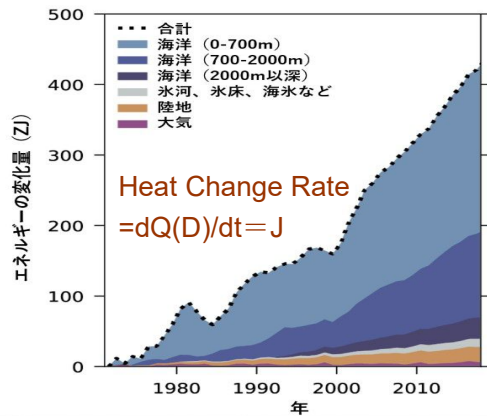

Established Theory Broken=Leaking Underground Heat Backflow > 0.

(d)Geothermal events are caused by **geothermal upward flow**(0.08W/m²)from the core nuclear fusion ,while climate change caused **downward geothermal flow(GB)** to dangerous plates by sea floor toward flow of partial Radiative Forcing=2.72 W/m².Especially shallow ocean(~200m) is dangerous(Philippine plate).

(e)coarse estimation on **downward geothermal flow~0.8W/sm² >> 0.08W/sm²=geothermal**

About on heat accumulation in the ocean<not English>.

https://www.data.jma.go.jp/kaiyou/data/db/climate/knowledge/glb_warm/ohc.html

Total heat flow to (ocean+....)=2.72W/sm² ≡ J_T.

$$J(\text{not ocean}) = ((0.3)/4.2)J_T = 0.194W$$

Total heat flow to ocean=2.53W/sm² ≡ J₀.

J₀ partition to each depth layer

$$J(0-700) = ((4.2-1.8)/3.9)J_0 = 1.56W/sm^2$$

$$J(700-2000) = ((1.8-0.6)/3.9)J_0 = 0.78W/sm^2$$

$$J(>2000) = ((0.3)/3.9)J_0 = 0.195W/sm^2$$

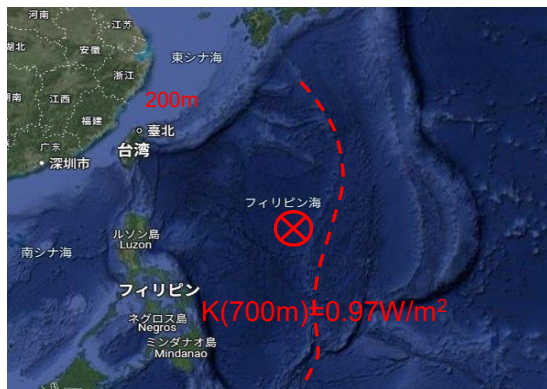

Leakage Flow(GB) at Depth(700m.2000m).

$$K(700) \equiv J_0 - J(0-700) = 0.97W/sm^2$$

$$K(2000) \equiv J_0 - J(0-700) - J(700-2000) = 0.195W/sm^2$$

(f) **Geothermal Backflow(GB) could Trigger ultra Eruption of Seafloor Volcano?!**

Average Phillipin ocean depth is told about **4000m** with less GB,

However, for an example, left region of the dot red line might be less than 700m depth with **GB=0.97W/m²**.
Note **geothermal=0.08W/m²**.

Note **rare big geological disaster** of earthquake or eruption of volcano's time scale is told **1000years or 10000yers long**. Geothermal flow is 0.08W/m², Then, in shallow ocean,, seafloor heat flow potential of 0.08W/m²x10=**0.8W/m² 30 years of accumulation** is equivalent to **300 years** of accumulation in the former, which could rise possible big disaster of **1000years cycle?!** <authors opinion, but not authorized one>..

(g) **Disastrous Geothermal Heat Flow.**

Earthquakes and volcanic explosion in every very long years require a huge amount of energy, and the scale is as follows. Those are caused by **geothermal heat** from the core.

	energy	unit
Magnitude	9(very rare)	M
the energy	1.995	EJ(×10 ¹⁸)
# TNT	476.879	Mt(×10 ⁶)
# Hiroshima	3.1621	pieces(×10 ⁴)
Tsar Bomba	4.751	pieces

Note geothermal is not constant, but vary at each region.

Average Geothermal Heat=q=0.08W/m²

$$0.08W/m^2 \times (3600s \times 24 \times 365) \times 1000y = 2.5 \times 10^9 J/m^2 = Q.$$

$$Q \times (1000m)^2 = 2.5 \times 10^{15} J \dots M7$$

☞ : (1000m)²=nothing validity, but mere an assumption !

$$Q(M9) / \{(3600 \times 24 \times 365) \times 10000y \times (1000m)^2\} = 6.34W/m^2.$$

This is comparable with Radiative forcing=2.72 W/m² (2019)

*Radiative forcing=2.72 W/m² (2019)=Sun heat input-Cooling radiation=Heat up Earth.

♻️ Poop = waste = waste heat by poop CO2=debt heat causing warmer earth

→ terrestrial and submarine heat flow! a part of radiative forcing.

Two dragons?? = climate debt heat flow toward ocean($2.73\text{W}/\text{m}^2\text{s}$ =global warming),

geothermal heat flow from Earth's core to ground($0,08\text{W}/\text{m}^2\text{s}$).

(e) **Ryo Tatsuki Prediction in the web narration**(c).

Imagine the same perspective as Google Earth. Suddenly, I see the ocean floor halfway between Japan and the Philippines **rupture**. About this rupture, Ryo describes it as an **eruption**, and the large wave generated by the rupture spreads in all directions, causing a huge tsunami to hit the countries around the Pacific Ocean.

The size of that huge tsunami was said to be **three times** that of the Great East Japan Earthquake, and it was said to be incredibly huge. If it was really three times the size of the Great East Japan Earthquake, then it would be considered a gigantic tear with a length of 50 meters, exceeding . She said she saw a vision of the land being crushed and swollen by the tsunami, from Hong Kong to Taiwan to the Philippines. The Pacific side of the Japanese archipelago was also hit by the tsunami, and she saw **1/3-4 of the land being swallowed up** by the tsunami.

More and more I saw **two dragons** heading towards the place where **the rupture occurred**, which is **epicenter**. According to her, **epicenter** is the center of the west that connects Japan to the north, Indonesia to the south, Taiwan to the south, and the Mariana Islands to the north. The appearance of the dragon is a new origin. It is said that it was seen as far east as the international date line to Hawaii. There is also a note about the dragon in the dream diary, and there are words about why the dragon is headed. I still don't understand the meaning behind seeing the dragon.

<https://mtl-muse.com/study/kashio-spring/magma2/>

It is estimated that the ground temperature is around 1400°C 100km to 200km underground in the Japanese archipelago. Under pressure corresponding to that depth, mantle rocks cannot melt at 1400 degrees Celsius. However, experimental results have shown that **adding water** under these pressure and temperature conditions **lowers the melting point by approximately 200 degrees**. This "melting point depression" causes part of the mantle to melt, producing **basaltic magma**.

APPENDIX 1; Prophecy Mechanism by “Explosion Theorem(ET)” in Logic
 ET reveals, in non observable (11+1)dimension of quantum vacuum(QV)world of “contradiction” ,
nothing law, anything can be, almighty, omniscience and omnipotent. Thereby, anything can be!

[1]: Quantum Vacuum;

<http://www.777true.net/Real-Image-of-quantum-Chemical-Reaction.pdf>

In quantum vacuum world, standard physics recognize so called **vacuum polarization reaction** of $0=+a-a=0\dots$, that is, instantaneous and simultaneous creation and annihilation of particle $=+a$, and anti-particle $=-a$. Those are symmetric as for the physical quantities, but energy. Both have $+2mc^2$, while **dipole coupling** of $+a-a$ (called gauge particle) is attraction force of negative energy $-2mc^2$.

(a) **Vacuum Polarization Reaction** (standard theory authorized by global academy).

nothing(initial)	pair creation reaction	pair annihilation reaction	nothing(final)

As you know, $0=+1-1$, matter (**elementary particle** and the pair (anti-particle)) can be created from nothing (quantum vacuum field at anywhere, anytime). Those are to be annihilated into nothing again in a instantaneous time interval (but finite). Those are extremely microscopically chaotic field, but macroscopically absolutely calm field.

(b) **dipole** pair of $\{+q, -q\}$ have opposite sign physical values as \pm charge to be cancelled, but exception is **mass energy** which are same as $+mc^2$, while **gravity field** (dot lines) are negative $=-2mc^2$. Gravity field is also called **gauge particle (boson)**. Matter is called **spinor particle (fermion)**. $\leftarrow \rightarrow q \quad -q$ **dipole notation**

[2]: “Contradiction” of QV:

<p>A=proposition of creation of +a(money). notA=proposition of annihilation of +a(money) =proposition of creation of -a(debt).</p>	<p>Polarization creation reaction realizes CONTRADICTION.</p>
---	---

[3]: “Explosion Theorem(ET)” in Logic {A,B,..are proposition with true=1 or false=0}.

http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf

$1=A=notA$ <contradiction never be realized in matter world, but software such as words of lie, >.

$\Rightarrow B=1$ {**any proposition become true** toward order corruption in ordinal science law}

PROOF:: preposition $A=1$, and also the inference $(A \subset B)=1$: (if A , then conclusion is B).

thus $\Rightarrow B=1$ (the conclusion is true).

☞: Case of $A \subset B=0$ is only when $B=0, A=1$. If $A=0 \Rightarrow A \subset B=1$, that is, $A \subset B = notA \vee B$.

assumption: $1=A=notA$. $A \subset B = notA \vee B$ <inference axiom>, $1=A \vee notA$ <tautology>.

(1) { $notA=1$ <preposition>, <inference> $notA \subset (A \subset B) = notA \subset (notA \vee B) = notnotA \vee (notA \vee B) = (A \vee notA) \vee B \equiv 1$ } $\Rightarrow (A \subset B)=1$,

(2) { $A=1$ <preposition>, <inference> $(A \subset B)=1$ } $\Rightarrow B=1$ (, where $B=$ anything at all !!!)

[4]:Revelation into This World (B wave resonance,,Astral Projection)

<http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf>

This is kernel point on **communication mechanism** between this world and another one. Now this is a hypothesis by author.However many actual stories may support the fact.

(1)**B wave resonance:**

Many told remote thought transmission between twin.Note our neuron activity is electrical chemical reactions radiating charge density wave(CDW, ϕ),which needs **no energy**.

$\square \phi = -\rho / \epsilon$, wave equation of scalar wave= ϕ by AC charge density= ρ .

$\square \mathbf{A} = -\mu \mathbf{j}$, wave equation of vector wave= \mathbf{A} by AC(alternate)current density= \mathbf{j} .

Both are standard Electromagnetic theory,the latte is used in portable phone.

(2)**Astral Projection**<in vacuum,our **dipole ghosts** are here and there at all times>:

(a)**General material instantaneous-spatial discontinuous movement mechanism**

<dipole array tunnel effect>:

M⁺-M⁻-M⁺-M⁻-M⁺-M⁻-M⁺-M⁻-M⁺-M⁻-M⁺
M⁺-M⁻-M⁺-M⁻-M⁺-M⁻-M⁺-M⁻-M⁺-M⁻-M⁺

Author proved dipole-generating reactions of general substances other than elementary particles in below.With this proof, **anything actually can be** in vacuum world.

<http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf>

In elementary particles view,change is repeated reactions of annihilation at here and creation again at there through dipole(the vacuum polarization reactions at here and there at all times).

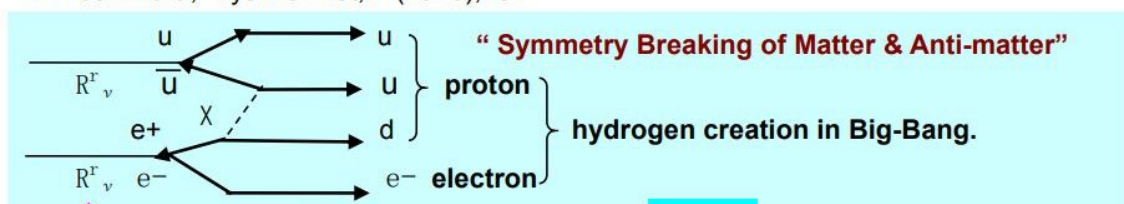

(b)In total energy view of this universe=+U: 0=+E(matter)-E(gravity)=+U-U.

Our being of **M⁺** has been repeating annihilation and creation in all space and times<(a)>.

After all,even our universe=+U could be told as 0=+U-U.

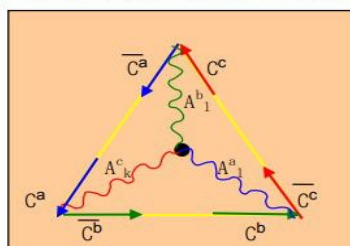

☞ : Micro(elementary particle=ep)Symmetry Braking Down Reaction:

*M.Yoshimura,Phys.Rev.Let,**41**(1978),281

☞ : Macro(compound particle=cp) Symmetry Recovering Reaction:

(c)**nucleon dipole formation reaction by FP ghost {C^a, C^a} with gauge field{A^a_{μ}}**.

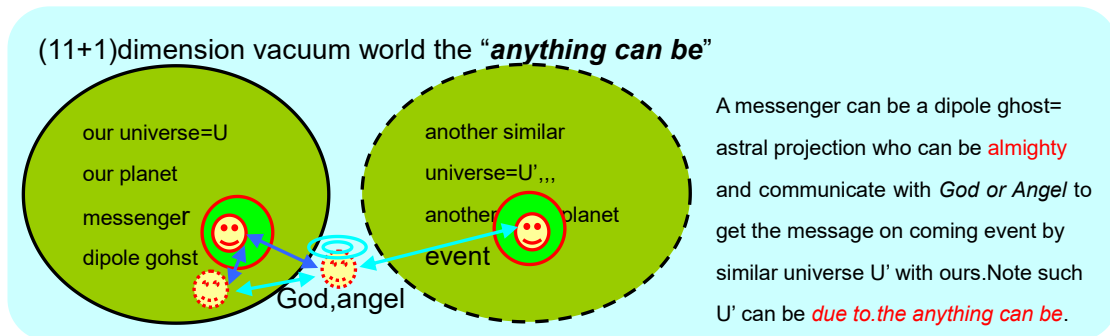

This is **complex particle dipole** such as **nucleon of 3 quaks(a,b,c)**.with gauge field{ ($\partial_{\mu} A^a_{\nu} - \partial_{\nu} A^a_{\mu}$) $\epsilon^a_{bc} A^b_{\mu} A^c_{\nu}$ }. Not only elementary particle, but also **any complex particle has dipole ghost in vacuum**. *this was authors assumption, but not verified. This complex dipole could be negative energy field.

$$0 = i c \partial_{\mu} D_{\mu} C^a = \square C^a + g f^a_{bc} \partial_{\mu} (A^b_{\mu} C^c). \quad \langle C^a \text{ is zero mass field} \rangle$$

(c) **Anything can be** in (11+1)dimension vacuum world of

Infinitive-Parallel Running Universe.

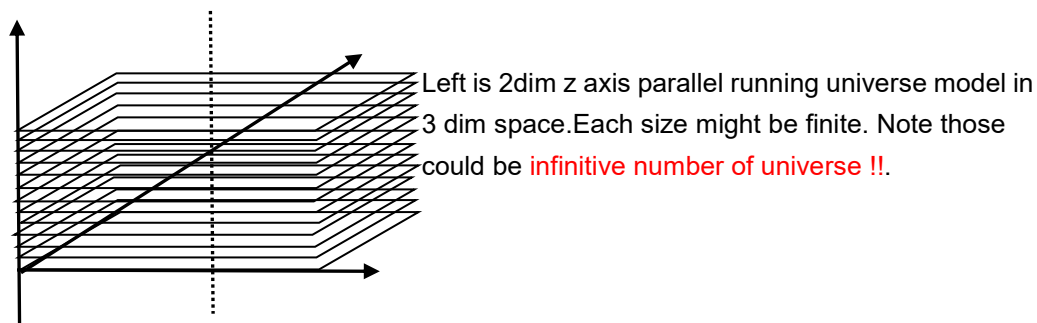

Our universe is considered degenerated (3+1)dimension,where 3=space.1=time.Note original **BigBang** universe was (11+1) due to ruling by quantum gravity dynamics.

<http://www.777true.net/img008-Quick-Guide-to-Quantum-Gravitational-Dynamics.pdf>

Then what became residual (11-3)=8 axis space?.Due to **the complete symmetry**,there must be **infinitive other universe**,some of thoe are physically similar as that of us and most of those are not similar.

Infinitive-Parallel Running Universe

embedded in (11+1)dimension **vacuum world** the “anything can be”

(d) **Possibility of Changing Prophecied Future by Our Present Will !!!**

This is told by many prophets themselves with their sincerity and the most important matter in recognizing righteous prophecy. Because their message is due to observing U' the brotherhood universe,but not that of our future itself.

*Certainly the Bible prophecied coming Apocalypse in John Revelation,however God has entirely been teaching our repentance by all of us in the Gospel.We now are boast and decadent in the gorgeous materialism civilization the fatal wrong.Thereby something awful ordeal becomes necessary to turn !!

<https://www.youtube.com/watch?v=6yFqSbkibNc>

In the battle that will take place in 2025, the country of Japan will be the very force in challenge, and all of humanity will be forced to choose which force to choose.This spiritual battle will have a major impact not only on Japan, but on the entire world. It is said that the changes occurring in Japan will spread to other countries and the power of materialism will become stronger, or spiritual power will awaken again and the entire world will move to a new stage of spiritual evolution. That opting happens.

If the great evil mind wins, materialism will further expand and the world will become even more disparate and Environmental issues will deepen spiritual loneliness, and the world will continue to perish and disappear, centered on Japan.However, if God wins, humanity will transcend the framework of materialism and regain spiritual values. Possibility of evolving into a more balanced society.
